DIVERSIFIED REIT

Castleview was registered and incorporated on 6 July 2017 as a private company and listed as a REIT on the Alternative Exchange ("AltX") of the JSE on 20 December 2017.

Castleview invests in direct property investments and indirect property investments – where property is owned via other real estate companies with separate management teams – with the goal of maximising total returns to its shareholders.

CONTENTS

ABOUT THIS REPORT

Castleview Property Fund Limited ("Castleview" or the "Company" or the "Group") is pleased to present its ninth integrated report to shareholders and stakeholders for the year ended 31 March 2026.

KEY DATA

Castleview Property Fund Limited
Registration number: 2017/290413/06
JSE share code: CVW

ISIN: ZAE000251633
(Approved as REIT by the JSE)

The Group invests in direct property investments and indirect property investments – where property is owned via real estate companies with separate management teams – with the goal of maximising total returns to its shareholders.

This integrated report is primarily aimed at shareholders and providers of capital. The integrated report aims to present a balanced, understandable review of the business and provide an integrated assessment of the Group's ability to create value over time.

MATERIALITY

Materiality assessments have been applied in determining the content and disclosure in the report, ensuring that the report is both concise and relevant to Castleview's shareholders. Material issues are considered to be those that could affect the Group's ability to create value over time and are likely to have a significant impact on the current and projected revenue and profitability of the business.

The Group has adopted the guidelines outlined in the International Integrated Reporting Council's ("IIRC") Framework. The IIRC Framework includes reporting in terms of the six capitals of value creation, being financial, intellectual, human, manufactured, social and relationship, and natural capital.

BASIS OF PREPARATION

This report, including the Consolidated Financial Statements, has been prepared taking account of the following:

- IFRS® Accounting Standards
- Companies Act, No. 71 of 2008, of South Africa ("Companies Act")
- JSE Listings Requirements
- King V Report on Corporate Governance™ for South Africa, 2025 ("King V™")
- Consideration of certain principles contained in the IIRC's Integrated Reporting Framework

ASSURANCE

The company's external auditor, Moore Cape Town Inc., has provided assurance on the financial statements and expressed an unqualified audit opinion. The financial statements have been audited by Pierre Johannes Conradie CA(SA)(RA). The content of the integrated report has been reviewed by the board of directors of the company ("Board") and audit and risk committee but has not been externally assured.

CORPORATE INFORMATION

Castleview's executive directors are the Chief Executive Officer, James Templeton, the Financial Director, Lida le Roux and Executive Director, James Day, located at 13 Hudson Street, De Waterkant, Cape Town, or via the company's website www.castleview.co.za.

Castleview welcomes feedback and any suggestions for the company's future reports. Please forward any comments to James Templeton (james@castleview.co.za).

FORWARD-LOOKING STATEMENTS

This integrated report includes forward-looking statements that take account of inherent risks and uncertainties and, if one or more of these risks materialise, or should the underlying assumptions prove incorrect, actual results may be different from those anticipated. Words such as believe, anticipate, intend, seek, will, plan, could, may, endeavour, project and similar expressions are intended to identify such forward-looking statements, but are not the exclusive means of identifying such statements. Forward-looking statements apply only as of the date on which they are made, and Castleview does not undertake to update or revise any of them, whether as a result of new information, future events, or otherwise.

STATEMENT OF RESPONSIBILITY

The audit and risk committee and the Board acknowledge their responsibility to ensure the integrity of this integrated report. The consolidated financial statements included in this integrated report have been audited by the external auditors.

David Green	**James Templeton**	**Gregg Bayly**
Chairman	CEO	Chairman Audit and Risk Committee

GROUP OVERVIEW

Castleview Property Fund is a property holding and investment company that was listed as a REIT on the AltX of the JSE on 20 December 2017. Castleview invests in direct property investments and indirect property investments – where property is owned via other real estate companies with separate management teams – with the goal of maximising total returns to its shareholders.

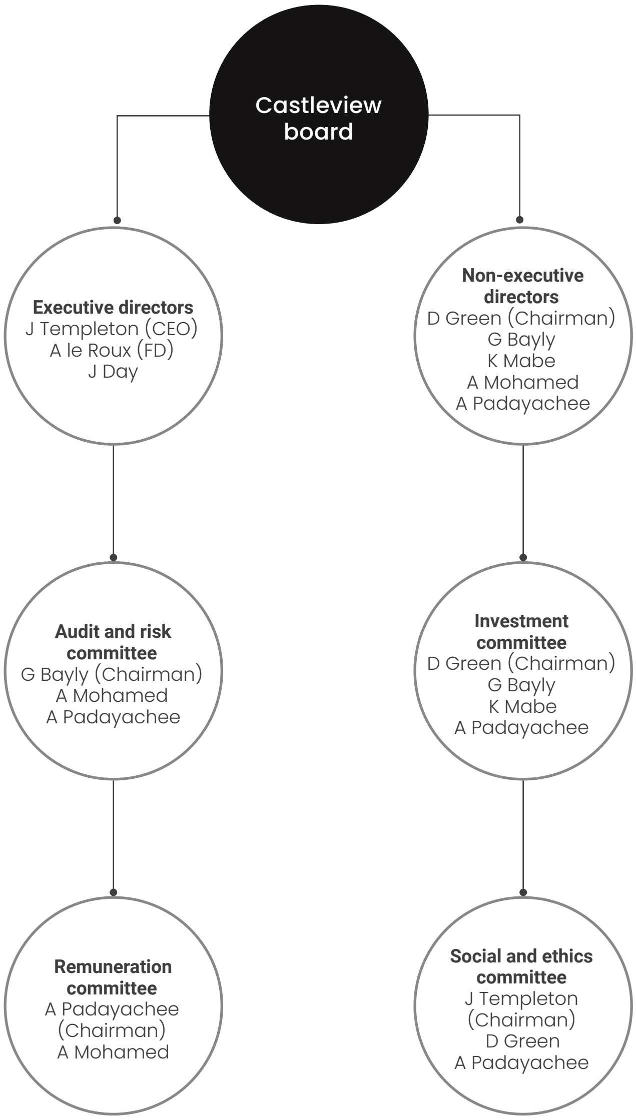
Castleview currently holds the following strategic investments either directly or indirectly through listed and unlisted property-related entities. This is the manner in which management and the Board view the company, notwithstanding the presentation of the consolidated financial statements attached, which comply with the IFRS Accounting Standards. These segments comprise:

- **REITS:** Approximately 64.8% of the economic interests of Emira Property Fund Ltd, a diversified REIT listed on the JSE. Emira has a substantial direct diversified South African portfolio, complemented by key investments in a US retail portfolio and a predominantly logistics portfolio in Poland through its 45.0% investment in DL Invest.

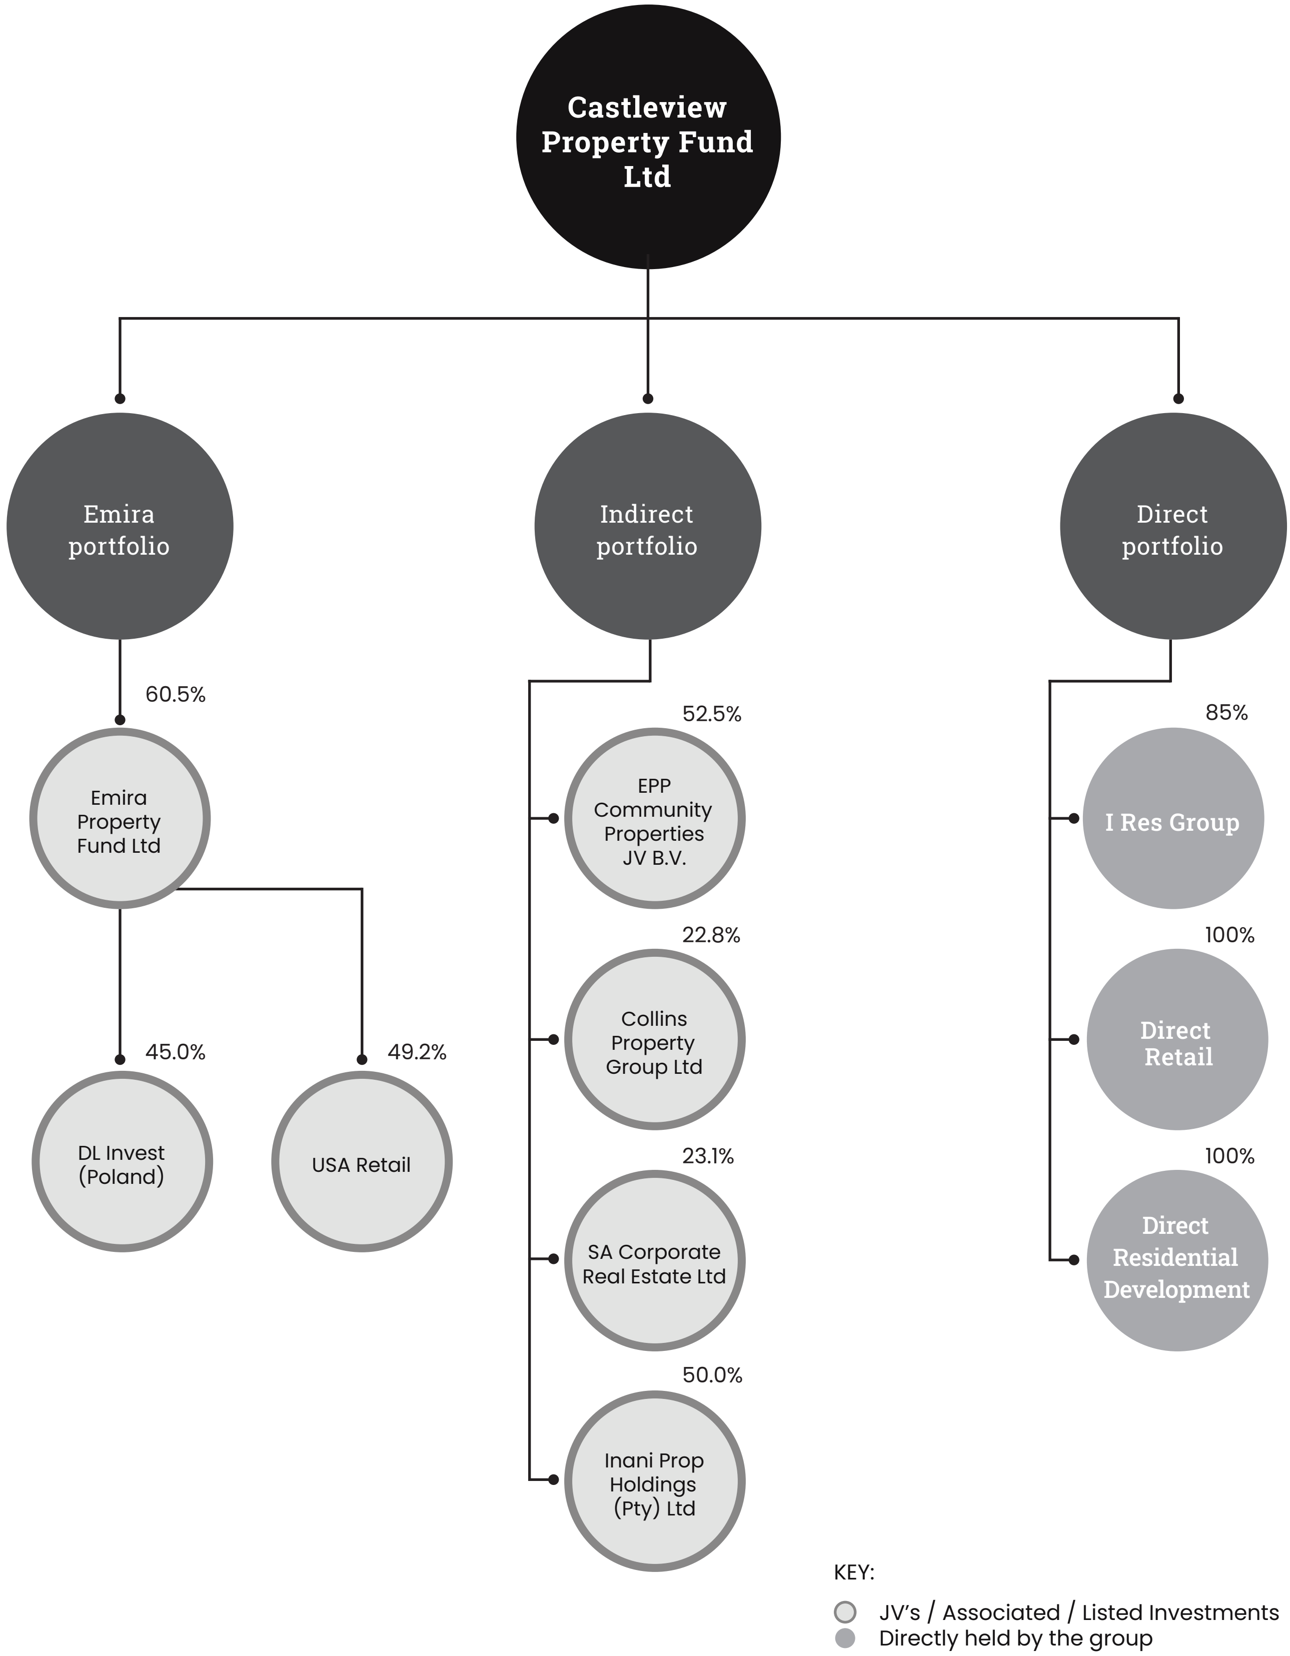
  During the period, the Group increased its investment in SA Corporate Real Estate Ltd to 23.1 %. SA Corporate is a JSE-listed REIT and owns a focused portfolio of industrial, retail and residential buildings located primarily in the major metropolitan areas of South Africa with a secondary node in Zambia.

  The Group has significant exposure, with board representation, to a R12.9bn industrial and logistics portfolio through its 22.8% shareholding in Collins Property Group Ltd, a JSE-listed REIT.
- **COMMUNITY RETAIL POLAND:** A community shopping centre joint-venture in Poland. The portfolio comprises 12 well located community shopping centres located in various cities around Poland, as well as 3 office buildings, with total assets of €718.3m.
- **COMMUNITY RETAIL IN SOUTH AFRICA:** Castleview currently owns a direct retail property portfolio in South Africa of 4 community shopping centres valued at R706.4m that provides sustainable and proven cash-flows, and where the anchor tenants are expected to achieve high and stable turnover figures over time. These properties are either wholly-owned or on an undivided share basis with partners.
- **RESIDENTIAL:** Castleview has invested in iRes Fund, a Western Cape based, income-producing, residential portfolio and 1 residential development opportunity valued at R519.6m that comprises rental units and units under development in Cape Town.
- **RESIDENTIAL DEVELOPMENT:** The Group also has 2 residential sites in Cape Town, Western Cape, valued at R106.2m which have been developed for disposal or will be developed once the appropriate rights have been secured.

GOVERNANCE STRUCTURE



GROUP'S OPERATIONAL STRUCTURE



DIRECTORATE EXECUTIVE AND NON-EXECUTIVE

EXECUTIVE DIRECTORS

James William Andrew Templeton (53)

BComm (Hons), CFA charterholder

CEO

Appointed: 6 July 2017

James was employed as an equities analyst at Barnard Jacobs Mellet, a prominent South African stockbroker from 1996 to 2003 where he covered various sectors including real estate. James was the chief executive officer of Emira Property Fund, a JSE-listed REIT, from 2004 to 2015. He was appointed CEO of Castleview in July 2017.

Lida le Roux (50)

BComm (Hons), CA(SA)

Financial Director

Appointed: 1 July 2025

Lida is a Chartered Accountant with over 20 years of experience across a broad range of industries, including manufacturing, agriculture, tourism, and financial services. She has held senior finance roles throughout her career, bringing strategic insight and operational expertise to each engagement.

James Peter Anthony Day (40)

BComm (Hons), CA(SA)

Appointed: 7 November 2022

James has extensive international experience in the listed property sector, having worked in various financial management and audit roles in Australia, the United States and South Africa. His career spans almost fifteen years of diverse experience in senior financial management and business leadership with key commercial expertise in executing on property acquisitions and developments. James is the Chief Executive Officer of Emira Property Fund Limited.

INDEPENDENT NON-EXECUTIVE DIRECTORS

David James Green (64)

BA LLB

Chairman

Appointed: 25 October 2017

David is an admitted Advocate and is currently the CEO of ProAfrica Property Services. He has been involved in the Listed Property arena for more than 25 years starting in his capacity as Fund Manager of the Capital and Centre City Property Funds. He has also served as President of the SA Listed Property Association and the South African Property Owners Association (SAPOA).

David also preciously served as MD of the Marriott Property Group Gauteng, CEO of Pace Property Group and founding Chairman of the listed Acsion Property Fund.

Gregory Clifford Bayly (56)

BAcc, BComm (Hons), LLB ACMA, CGMA

Appointed: 25 October 2017

Gregory is currently the CEO of Southchester Investment Managers having been in this position since 2011. He was previously a portfolio manager at Gryphon Asset Management from 1991 to 2007 where he managed and advised on a variety of properties and other asset classes. Gregory has also worked as an outsourced portfolio manager for various financial institutions' asset management companies from 2008 to 2011 and also worked for the Macquarie Group.

Koketso Mercedes Mabe (48)

BComm (Insurance and Actuarial Science)

Appointed: 5 December 2025

Koketso has over 24 years of experience in insurance, investment banking and asset management. Since 2017, he has been a part-owner and director at Capital Link Partners Proprietary Limited, a boutique manager with 3rd party assets in excess of R10bn. He has over 12 years serving on medium and large private equity enterprise boards in a non-executive capacity and has served on various board committees in South Africa and rest of Africa. He is currently an independent non-executive director of Rand Mutual Assurance Group and serves as deputy chairman. He is also a director of the Mineworkers Investment Company (RF) Proprietary Limited and chairs its investment committee.

Ashraf Mohamed (56)

BComm, CFA

Appointed: 1 October 2020

Ashraf worked in asset management from 1998 to 2009, managing equity, balanced funds, and third-party assets in excess of R20bn. He served as CEO of Ascension Properties and successfully listed the business in June 2012. He served as acting-CIO at Pareto, an unlisted property company, and thereafter served as Chairman of Inospace, a property development and rental company. More recently, Ashraf has been managing a global investment platform for multiple family offices focused primarily on private equity and venture capital.

Avesh Padayachee (44)

RESIDENTIAL: 30.1%	**RESIDENTIAL: 31.0%**	**C: 27.6%**	**RENTAL: 6.1%**

Tenant profile table:

A Large international and national tenants, large listed tenants and government or smaller tenants in respect of which rental guarantees are issued. These include, inter alia, Shoprite, FNB, Standard Bank, Nedbank, The Department of Mineral Resources, Pick n Pay, Clicks, Pepkor.
B Smaller international and national tenants, smaller listed tenants, major franchisees and medium to large professional firms.
C Other local tenants and sole proprietors. These include 99 retail and 319 residential tenants.

LEASE EXPIRY PROFILE

	Based on GLA %	Based on gross rentals %
Vacant	**8.5**	6.1
0 to 12 Months	**31.4**	34.2
Between 12 and 24 months	**17.3**	15.4
Between 24 and 36 Months	**12.4**	13.8
Greater than 36 Months	**30.4**	30.5
	100.0	100.0

SECTOR ANALYSIS

Sector	Weighted average rental per m² (R/m²)	GLA (m²)	Vacancy (% of GLA)	Valuation as at 31 March 2026 (R'000)
Retail	123.00	46 828	13.4	**630 237**
Commercial	89.21	4 115	8.9	**37 843**
Residential	125.40	21 937	1.4	**537 927**
Total	121.81	72 880	9.6	**1 206 007**

The portfolio weighted average rental escalation (retail and offices) based on existing leases by GLA, is 5.59%.

As at 31 March 2026, two property valuations were performed by the Castleview Board of Directors and two by an external valuer.

OTHER INFORMATION

The forward average annualised property yield for the direct portfolio was 9.2% at 31 March 2026.

The portfolio statistics above exclude residential development inventory, the value of which at 31 March 2026 was R169.3m.

STRATEGIC OVERVIEW

OUR BUSINESS MODEL

Castleview's strategy is to deliver net asset value and distribution growth to shareholders by investing in portfolio of high quality properties and indirect property investments, with attractive yields that offer consistent long-term value growth.

How Castleview creates value

Inputs	Outputs
Financial Capital • Shareholder Equity of R10.54bn • LT and ST borrowings of R11.3bn • Distribution to shareholders of R680m	• Income yield via distributions • Net asset value growth for shareholders
Manufactured Capital • A diversified portfolio of retail, office, industrial, logistics and residential properties in South Africa, the USA and Poland with a collective value of R24.8bn	• A high quality, diversified portfolio • Well-managed portfolio of property investments generating income and capital growth from retail, office, industrial, logistics and residential tenants in South Africa, Poland and the USA
Intellectual Capital • Executive and non-executive directors with extensive industry expertise and experience • Sound governance structures • Regulatory compliance	• Optimal investment decisions • Transparent disclosure
Human Capital • Properly constituted board and sub-committees with appropriate experience and independence • Remuneration policy aimed at attracting and retaining key staff	• Retention of key employees • High quality decision-making for and on behalf of shareholders
Social and Relationship Capital • Established symbiotic relationships with key stakeholders • Established social and ethics committee	• Enduring, long-term relationships with stakeholders • Positive contribution to the wider South African, US and Polish societies
Natural Capital • Efficient use of constrained resources such as water and electricity	• Energy production from alternative sources and waste recycling with the goal of reducing our carbon footprint

Strategic Focus

Managing assets, investments and debt profile responsibly to deliver net asset value and distribution growth to shareholders	Providing access to funding essential for operations and investments and the Group's ability to create value	Strategically investing in real estate related opportunities to maximise shareholder returns	Managing directly-held properties and investments to enhance their value and continually deliver on stakeholder expectations

STAKEHOLDER ENGAGEMENT

The Board believes that establishing strong partnerships with the Group's stakeholders is crucial to managing the risks and capitalising on the opportunities arising from its business activities. Key stakeholders are groups who have an impact on Castleview's business strategy and are materially impacted by its business activities. Castleview is committed to ensuring timeous, effective and transparent communication with shareholders and other stakeholders as set out below.

Key stakeholders	Key issues	How Castleview engages	Responsibility
Shareholders	• Total returns • Consistent investment performance • Strategy execution • Portfolio growth • Capital appreciation • Risk management • Accessibility of executives • Timeous information • Corporate governance and compliance	• Direct conversations and presentations • Circulars, annual and interim results reporting • SENS announcements • Integrated report • Annual general meeting • Castleview's website	• CEO • FD
Financiers	• Capital management • Sustainability • Investment performance • Cash generation • Corporate governance and compliance • Risk management through loan-to-value ("LTV") ratio and debt service interest cover ratio ("DSCR")	• Agreed reporting • Regular meetings • Integrated report	• CEO • FD
Business partners and suppliers	• Professional working relationships • An understanding of the Group's performance standards and requirements • Timely payment • Fair business practices	• Fosters a culture of teamwork • Regular meetings • Service level agreements or terms of reference, which include performance expectations	• CEO • FD • Asset managers
Tenants	• Property management • Market related rentals and escalations • Good upkeep and maintenance of buildings • Communication during periods of uncertainty	• Asset and property management meet with the tenants on a regular basis and conduct regular site visits to Castleview's properties • Ad hoc communication regarding centre operations should it be necessary	• Asset and property managers
Independent valuers	• Reliable and timeous information	• Regular information flow • Formal and ad hoc meetings	• CEO, FD
Government and Regulators	• Compliance • Taxation • Adherence to JSE Listings Requirements • Company legislation • Utility issues • Rates clearances • Zoning	• Engages with local authorities both directly and via its property managers and external consultants	• Executives • External consultants
Industry Associations	• Introduction of new legislation • Global and local trends	• Membership of professional bodies	• Executives and Property managers
Communities	• Socio-economic development • Environmental impact • Responsible corporate citizenship	• Regular evaluation of the group's impact on society and the environment	• Executives and Property managers

LEADERSHIP AND GOVERNANCE

CHAIRMAN AND CEO'S REPORT

INVESTMENT STRATEGY

Castleview's investment strategy is to deliver healthy total returns to its shareholders via a diversified property portfolio by investing in South African and selected international real estate focused, firstly, on net asset value growth, and, secondly, on the maintenance of a sustainable cash flow yield.

Both direct property investments – owning the properties ourselves – and indirect investments – via other real estate companies with separate management teams – will be considered, depending on what stage of the investment cycle we are in and the relative risk/return attractiveness of the opportunity. Castleview then aims to then enhance and realise value in the companies through a variety of means.

2026 OVERVIEW

The 2026 financial year has been one in which the benefits of the Group's strategy has come to the fore. This is illustrated by the growth in the company's net asset value attributable to shareholders ("NAV") of R1.1bn – increasing NAV per share from 954 cents to 1 004 cents (+9.0%) – and total dividends paid of R680m. This brings the total return to shareholders to R1.77bn, or 18.9% of starting NAV.

This has been achieved in a year in which both local and global markets have been swayed by a variety of positive and negative influences.

Domestically, the coalition government that emerged from the May 2024 elections has sustained a renewed sense of optimism and improved investor confidence. National Treasury tabled a positively received 2026 Budget in February 2026, projecting real GDP growth of 1.6% in 2026 and 2.0% by 2028, supported by improved fiscal conditions and lower inflation expectations.

Internationally, the dominant development of the period has been the escalation of the Middle East conflict and the closure of the Strait of Hormuz by Iran in response to US and Israel military strikes. This triggered a surge in oil prices significantly above US$100/bbl, broad-based equity market selloffs, rising bond yields and a sharp weakening of emerging market currencies including the Rand. Combined with the ongoing US tariff uncertainty, these developments have materially dampened the global economic outlook.

The Castleview Chairman and CEO, as well as the whole Board would like to thank all its stakeholders who have assisted in this performance and will continue to do so in the future – group companies, investment partners, tenants, staff, service providers, financiers and shareholders.

MARKET CONDITIONS

South Africa

Economic growth in South Africa has remained subdued, one of the key reasons the Group continues to increase its offshore exposure. GDP growth came in at 0.5% in the third quarter of 2025 (from 0.9% in Q2), with RMB Research forecasting full-year 2025 growth of 1.3%. National Treasury projects a gradual recovery to 1.6% in 2026 and 2.0% by 2028, supported by improved fiscal discipline, lower inflation and reduced load-shedding.

Medium-term economic growth projections remain below long-run averages of around 2% – National Treasury projects 1.6% in 2026, and RMB Research forecasts 1.5% in 2026 rising to 1.8% in 2027 and 1.9% in 2028. Risks remain to the downside, particularly given the inflationary impact of elevated oil prices following the Strait of Hormuz closure. Property market returns are unlikely to improve meaningfully if this level of economic growth is maintained.

South Africa's headline CPI moderated significantly from its post-COVID peak, averaging 3.2% year-on-year for the quarter to March 2026 – an improvement from 3.6% at December 2025. The March 2026 quarter-end reading was 3.1% year-on-year, reflecting early pass-through from elevated oil prices. RMB Research expects headline inflation to average 3.4% in 2026 and 2027, rising to 3.5% in 2028, with upside risks from the oil price shock following the Strait of Hormuz closure.

Against this backdrop, the MPC had reduced the repo rate by a cumulative 150bp from its post-COVID19 peak, bringing the prime lending rate to 10.25% from a high of 11.75% in May 2023. This easing cycle has provided a level of support to consumer spending, though the SARB paused at its March 2026 meeting given the upside inflation risks from the oil price shock, and subsequently increased the repo rate by 25bp at the June 2026 meeting.

The South African government 10-year bond yield – to which listed property yields are closely correlated – rose sharply during the quarter to March 2026, from 8.2% at the end of December 2025 to 9.2% at March 2026 (a quarterly increase of approximately 96 basis points), before recovering to 8.4% at the time of writing. This rise in bond yields was driven by the Middle East conflict and associated inflation expectations and had a direct negative impact on listed property valuations during the quarter.

In the South African equity markets, the quarter to March 2026 was challenging, with the ALSI returning -0.6% for the quarter as March selloffs reversed earlier gains. Over the twelve months to March 2026, the ALSI returned +33.6%, the FINI15 +29.0% and the RESI10 delivered strong positive returns for the twelve-month period.

CHAIRMAN AND CEO'S REPORT (continued)

SA REITs delivered a 12-month return of +28.7% to March 2026, though the quarter saw the sector fall -4.9% as the bond yield spike driven by the oil price shock weighed directly on listed property valuations.

The direct property market has continued to show solid performance. Castleview's own direct retail portfolio delivered NPI of R74.1 million for the year to March 2026, with the Willowbridge Shopping Centre (25% interest) successfully disposed of in March 2026 at R182.5 million. The MSCI South Africa Annual Property Index (calendar year 2025, the most recently available) showed standing investments delivering an ungeared return of 11.9%, comprising an income return of 8.5% and capital growth of 3.2%.

Rest of the World

The IMF has noted that the global economic landscape has shifted materially in the period to March 2026, driven primarily by the escalation of the Middle East conflict, the closure of the Strait of Hormuz and the associated energy price shock, all of which have prompted a significant reset in growth and inflation projections.

Most significantly, the closure of the Strait of Hormuz by Iran in March 2026 – through which roughly one-fifth of global oil and gas flows – triggered a surge in oil prices significantly above US$100/bbl. This represents a major supply shock to the global economy, driving up inflation expectations, weighing on consumer and business confidence, and dampening growth prospects across all regions.

The evolving nature of the conflict and the uncertainty around its duration and scope make it difficult to form a definitive baseline for economic projections. The IMF has accordingly presented a "reference forecast" predicated on disruptions fading by mid-2026, while noting that scenarios in which the conflict lasts longer or expands would result in materially weaker outcomes.

According to the IMF, the swift escalation of trade tensions and extremely high levels of policy uncertainty are expected to have a significant impact on global economic activity. Global growth is projected at 3.1% in 2026 and 3.2% in 2027 under the IMF's reference forecast (March 2026 WEO), revised downward by 0.2 percentage points for 2026 versus the January 2026 Update, reflecting disruptions from the Middle East conflict. Global headline inflation is expected to increase to 4.4% in 2026 and decline to 3.7% in 2027, marking upward revisions for both years. This has dampened the outlook for all asset classes, including property. Absent the war, global growth for 2026 would have been revised upward to approximately 3.4%.

CASTLEVIEW OPERATIONAL PERFORMANCE

JSE Listed Subsidiaries

(i) Emira Property Fund Ltd ("Emira")

Castleview now owns 60.4% of the voting rights and 64.8% of the economic rights in issue of Emira. At 31 March 2026 Emira represented 36.3% of the Group's NAV of R10.53bn.

Emira topped a very solid operational performance, with healthy transactional activity executing on its stated strategy of recycling South African assets into offshore investments.

Property sales for the financial year to 31 March 2026 amounted to R1.3bn, with a further R1.1bn under contract at year-end which have subsequently been transferred.

Dividend per share increased from 123.9 cents in the prior year to 129.01 cents (+4.1%).

Emira's LTV at 31 March 2026 equated to 30.2% (2025: 36.2%) as a result of disposals, whilst interest cover was 2.8x (2005: 2.28x) – both of which are well within lenders' covenant ratios.

Undrawn, available facilities were R1.89bn (2025: R1.04bn); cash on hand R1,570m and there will be another R1.1bn of sale proceeds post the transfer of certain additional buildings. Debt exposure has been 67% (2025: 87%) hedged.

NAV per share at March 2026 was R20.94 per share, up 1.3% on March 2025 of R20.67. Subsequent to year end, Emira announced the acquisition of a 23.6% stake in Octodec Investments Limited, a REIT listed on the JSE. This is in line with the Group's strategy of taking significant cornerstone positions in REITs which are well run and trade at a meaningful discount to NAV.

(ii) Collins Property Group Ltd ("CPP")

CPP is predominantly a South African logistics and industrial focused portfolio with total assets of R12.9bn and a net asset value of R5.8bn. Castleview holds 22.8% of the voting rights of CPP.

At March 2026 CPP represented R1.0bn or 9.4% of the Group's NAV of R10.53bn.

Salient details of CPP's reporting for the financial year to February 2026 showed that the portfolio continues to be well managed and performed ahead of budget:

- Distributable income of R406m advanced to 123 cps, growth of 13.0% on the prior year (FY2025: 109 cps), driven by an 8.0% improvement in operating profit, a R35 million reduction in finance charges and the recognition of a deferred tax asset. Total distributions of 117 cps were declared for the year at a 95% pay-out ratio. The total shareholder return for the year to February 2026 was 16.2% on NAV and 27.0% on share price.
- Net asset value per share strengthened 9.7% to R17.71 per share.
- LTV as determined by SA REIT Best Practice Recommendations declined to 49.5% (FY2025: 49.8%), remaining within covenant thresholds though still above the Board's long-term target of 40%. Weighted average cost of debt improved to 9.4% (FY2025: 9.7%).

CHAIRMAN AND CEO'S REPORT (continued)

- The portfolio vacancy dropped lower to an extremely competitive 1.7% (2025: 1.8%).

CPP had an active year, acquiring a portfolio of eight DIY tenanted properties in the Netherlands, as well as continuing with the development of two shopping centres in the Western Cape, totalling 36 100m².

(iii) SA Corporate Real Estate Ltd ("SA Corporate")

As at 31 March 2026 the Group's holding was 23.1%, representing R1.7bn or 15.8% of the Group's NAV.

Castleview considers this cornerstone stake in SA Corporate strategic and is positive about the operational performance of the company as well as its strategy, which has become more focused in recent years.

Castleview executives are actively engaging with the SA Corporate executives and SAC Board regarding ways in which the company can support SA Corporate's continued focused growth.

Indirect Investment

(i) EPP Community Properties JV B.V. ("EPP JV")

EPP JV is a joint venture Castleview has with EPP/Redefine Property Fund, with specific investment in twelve community retail centres, as well as three office properties in Poland.

The retail centres range from the smallest centre at 5 759m² to the largest 35 244m². The commercial centres range from 13 925m² to 35 272m². At 31 March 2026 EPPCP represented R3.2bn or 29.7% of the Group's NAV.

Notwithstanding the broader geopolitical uncertainty in Europe, the joint venture portfolio performed well for the quarter to March 2026. Polish total retail sales grew 8.7% year-on-year in March 2026, the strongest monthly reading in over twelve months, and EPP's tenant turnover grew 3% like-for-like versus March 2025. Portfolio footfall reached 2.9 million visits in March 2026, representing 4% year-on-year growth.

At March 2026 vacancies were very low – retail vacancy at 2.2% and total portfolio vacancy at 2.9%, being actively and well managed by our partners EPP. Six of the twelve retail assets maintained full occupancy at quarter-end, with the highest-priority vacancy assets (Park Rozwoju office at 9% and Galeria Tęcza at 12%) under active remediation with signed tenant deals in place.

Direct Property Investments

(i) South Africa Retail Centres

The direct retail property portfolio consists of 4 community retail centres. At March 2026 Direct Retail represented R502m or 4.7% of the Group's NAV.

Trading from retailers in their financial reporting has seen moderate increases, and we have seen the same trend in our centres with a total growth in turnover of 3.0% for a rolling 12-month period.

Renewals are being concluded at budgeted levels, and the number of non-renewals is declining.

Castleview's 25% undivided interest in Willowbridge Shopping Centre was successfully disposed of in March 2026 for R182.5 million, in line with the Group's strategy of recycling direct retail assets.

(ii) I Res Fund Proprietary Limited ("iRes")

Castleview has 85% of the equity in iRes. At 31 March 2026 iRes represented R375m or 3.5% of the Group's NAV.

Rental demand outperformed initial forecast rental and occupancy numbers. Occupancies for March 2026 were at 100% across the entire portfolio with occupancy at 97% for financial year. Rental recoverability was at 104% across the portfolio.

Demand for quality, affordable rental housing in the Western Cape remains robust, driven by an ongoing shortage of well-located residential stock in this market segment. The gradual easing of interest rates has begun to improve buyer affordability, supporting both rental demand and house sales activity.

Second-hand house sales activity has recovered materially, with improved volumes and property prices as the interest rate easing cycle supports buyer affordability. iRes has a balanced approach between rentals, sales and development to market that allows the fund to fully capitalise on the market shifts between high and low interest rate cycles, providing a robust business model that is counter cyclical. There were no new acquisitions during the year.

Le Coste Estate, the fund's newest complex, has been completed, contributing R2.3 million in its first partial year of operation with strong leasing momentum building into FY2027.

(iii) Residential Development

The development portfolio consists of 2 different development opportunities, which represented R106m or 1.6% of Castleview's NAV at year-end.

During the financial year, Nettleton Road erven and the last units in Hargrave Road Llandudno were disposed of.

At 31 March 2026, the remaining development assets are Higgo Road property and Quebec Road, Camps Bay.

CHAIRMAN AND CEO'S REPORT (continued)

FINANCIAL RESULTS

Total group assets increased by 5.3% from R23.6bn to R24.8bn as a result of the investment in SA Corporate, offset by the sale of investment properties held for sale in line with our strategy. Total borrowings increased by 3.8% from R10.9bn to R11.3bn.

Excluding non-controlling interests, the Group had a net asset value of R10.54bn (1 040 cents per share), a healthy increase of 12.2% from R9.39bn (954 cents per share). The loan-to-value ratio, net of cash, was 42.0%, down from 46.2% in March 2025.

Group revenue decreased marginally from R2.04bn to R1.88bn predominantly due to property sales. Property expenses decreased from R1.07bn to R1.03bn, resulting in net property income decreasing from R0.97bn to R0.85bn. Income derived from equity accounted investments increased from R528.2m to R709.4m owing to strong results in the Group's CPP, EPP and USA investments, and from the Group's increased exposure to SA Corporate.

Net fair value adjustments decreased from R1.87bn to R0.50bn as a result of property disposals and a reduction in the USA investment.

The Castleview Board has declared a final dividend for the financial year of 56.0614 cents per share, bringing the total dividend for the year to 67.1297 cents per share (2025: 38.56 cents).

DEBT FUNDING

Castleview boasts a consolidated debt book of R11.3bn split between direct and high-level funding of R5.4bn, and debt consolidated through our Emira investment of R5.9bn.

The Group has further indirect debt exposures through its equity accounted investments, significantly including Europe and the United States. The total all-in weight average cost of debt is 7.4% at the reporting period and the group has hedged or fixed 80.0% of its debt exposures.

Management is actively involved in managing the debt facilities of the Group by actively managing fund level debt finance while monitoring and providing oversight and guidance on investment level debt facilities. Debt is arranged, negotiated, or renegotiated by the management teams of the respective Group investments.

The total debt balance is diversified across various lenders, in facilities with varying terms and appropriate security, and managed for currency and interest rate risk. Debt expiries are actively monitored and managed to ensure that appropriate financing arrangements are in place to secure expiring facilities.

Covenants are monitored regularly and at the reporting date, there is no material breach in covenants.

GOVERNANCE AND SUSTAINABILITY

Castleview prides itself on its corporate governance and on the commitment of its leadership to both the business and maintenance of these high standards.

This philosophy, which it strongly adheres to, encompasses the financial performance and risk management of the group. Importantly it also extends to the social and environmental spheres and the impact that Castleview is able to have on society and the environment in general.

The daily interaction between Castleview and the occupants, users and stakeholders of its properties results in various interfaces in which the fund can positively impact on its stakeholders including impact on the environment, community events as well as fund raising for various charities.

PROSPECTS

Based on the current South African and global economic and interest rate outlook, the group's prospects for FY2027 are cautiously positive. The strong balance sheet position, improving operational metrics across the portfolio, and the accretive recycling of capital into quality assets provide a solid foundation. Key risks include a higher-for-longer interest rate environment driven by the oil price shock, rand weakness, and the pace of redeployment of surplus capital from disposal proceeds into income-generating assets.

Where possible, the Castleview Board will continue to drive net asset value and dividend growth through the various means at its disposal and working with the companies that comprise the group.

This forecast is the responsibility of the directors of Castleview and has not been reviewed or reported on by the company's external auditors.

James Templeton

James Templeton
CEO

CORPORATE GOVERNANCE REPORT

Castleview is committed to upholding good governance, the highest standards of ethics and transparency while pursuing value creation in the short, medium, and long term. The Board is the focal point and custodian of good corporate governance within the Group and accepts accountability to stakeholders for the provision of value-enabling governance appropriate for Castleview.

ETHICAL LEADERSHIP

Castleview is committed to maintaining the highest Ethical standards and conduct business with honesty and integrity. The Board provides ethical, effective, and responsible leadership and will act with independence and diligence in making decisions to achieve the Group's strategic objectives. The Group continues to live out its implemented code of ethics ("the Code") that stipulates, among other things, that:

- all stakeholders must act in good faith with skill and care;
- bribery in any form is not tolerated;
- conflicts of interest must be declared; and
- compliance with all relevant and applicable legislation is a non-negotiable.

The social and ethics committee ("SEC") is responsible for the oversight of the Group's ethics, although the Board remains accountable for the way this is discharged.

The Board confirms that it is not aware of any transgressions of the Code during the year and that no issues of non-compliance have arisen. No fines or prosecutions have been levied against the Group during the period under review.

The Board is satisfied that Castleview is:

- In compliance with all applicable Acts and regulations.
- Operating in compliance with the laws of establishment and its Memorandum of Incorporation

THE BOARD

Members

Executive directors

James Templeton (CEO)

Lida Le Roux (FD)

James Day

Independent non-executive directors

David Green (Chairman)

Gregg Bayly

Koketso Mabe

Ashraf Mohamed

Avesh Padayachee

Castleview's Board is constituted in terms of its MOI and in line with King V Report on Corporate Governance for South Africa, 2025 (King V). The majority of the Board are independent non-executive directors bringing diversity to board deliberations and constructively challenging management.

The responsibilities of the independent non-executive Chairman, the CEO, and the remaining directors are strictly separated to ensure that no single director has unfettered decision-making powers and that appropriate balances of power and authority exist on the Board. The independent non-executive directors contribute a wide range of industry skills, knowledge, and experience to the Board's decision-making processes. Ultimate control of the Group rests with the Board, while the executives are responsible for the proper execution of the Group strategy. To achieve this, the Board determines the objectives of the Group and sets the philosophy for investments, performance, and ethical standards. Quarterly board meetings are held with additional meetings convened where required.

The Group's executive directors do not have fixed-term contracts. There is no restraint of trade period in place in respect of executive directors. In terms of the company's MOI, one-third of the non-executive directors must be re-elected annually by shareholders at the annual general meeting.

The Board welcomes Mr Koketso Mabe as an independent non-executive director on 5 December 2025. The Board is confident that his skills will meaningfully enhance the Board's performance for the benefit of Castleview's shareholders.

CORPORATE GOVERNANCE REPORT (continued)

FUNCTIONS AND RESPONSIBILITIES OF THE BOARD

The Board assumes collective responsibility for strategy, policy, oversight and accountability. With this in mind a formal board charter is in place that sets out the roles and responsibilities of the Board and individual directors aligned with the provisions of relevant statutory and regulatory requirements.

The Board confirms that it is responsible for ensuring the following functions as set out in the Board charter:

- act as the focal point for, and custodian of, corporate governance by managing its relationship with management, the shareholders, and other stakeholders of the Group along sound and ethical corporate governance principles;
- steer and set direction with regard to both the Group's strategy and the way in which specific governance areas are to be approached, addressed, and conducted;
  - approve policy and planning that give effect to the Group strategy;
  - oversee and monitor implementation and execution of the strategy by management;
  - ensure accountability for organisational performance through reporting and disclosures;
  - oversee and monitor that the Group is and is seen to be a responsible corporate citizen by having regard to not only the financial aspects of the business of the company but also the impact that business operations have on the environment and the society within which it operates;
  - consider the Group's strategy against the six capitals;
  - exercise ongoing oversight of the management of ethics within Castleview that promotes ethical behaviour within the Group;
  - approve the Group's financial objectives, including capital expenditure, treasury, capital, and funding proposals;
  - appreciate that strategy, risk, performance, and sustainability are inseparable;
  - provide effective leadership on an ethical foundation;
  - ensure that the Group has an effective independent audit and ARC;
  - be responsible for the governance of risk;
  - oversee and be responsible for the governance of information and technology within the Group;
  - monitor the Group's compliance with applicable laws and consider adherence to non-binding rules, codes and standards;
  - ensure that there are effective risk-based internal controls and audit processes;
  - adopt a stakeholder-inclusive approach and consider stakeholders' perceptions of the Group's reputation;
  - review and oversee the integrity of the Group's integrated annual report and the relevant disclosures in terms of King V reporting;
  - act in the best interests of the Group by ensuring that individual directors adhere to legal standards of conduct; are permitted to take independent advice in connection with their duties and disclose real or perceived conflicts to the Board and deal with them accordingly;
- Directors are expected to devote sufficient time and effort to prepare for meetings in order to participate fully and frankly in Board discussions and bring the benefit of their particular knowledge, experience, skills, and abilities to bear;
  - review the succession plan for its directors, including the Chairperson and CEO; and
  - approve the Group's Governance Framework that articulates and gives effect to its direction on relationships and the exercise of authority across the Group.

The Board's annual agenda plan is designed to ensure that sufficient time is allocated to address all necessary matters. Agendas are adjusted throughout the year to prioritise relevant issues and ensure focused consideration of strategic priorities.

INDEPENDENCE OF THE BOARD

In terms of their fiduciary duties, directors should act independently in exercising their judgement and fulfilling their duties and should not have their discretion fetter in any way. Accordingly, the Group ensures the independence of the Board through the following practices:

- appointment of an independent non-executive director as Chairman;
- clear separation of the roles of Chairman and CEO;
- appointment of a majority of independent non-executive directors;
- the ARC is comprised of only independent non-executive directors, while the Remcom and SEC comprise a majority of independent non-executive directors;
- the ARC, Invcom, and Remcom are chaired by independent non-executive directors;
- no service contracts are in place in respect of non-executive directors; and
- all directors have access to the advice and services of the company secretary, and with prior agreement from the Chairman, all directors are entitled to seek independent professional advice concerning the affairs of the Group at the Group's expense.

CORPORATE GOVERNANCE REPORT (continued)

ATTENDANCE AT MEETINGS

Meeting attendance is recorded in the table below.

CASTLEVIEW BOARD MEETING ATTENDANCES FOR THE YEAR ENDED 31 MARCH 2026

	Name	Date 20 June 2025	Date 29 August 2025	Date 28 November 2025	Date 27 March 2026	Total

1	JWA Templeton	✓	✓	✓	✓	4/4
2	AA Le Roux		✓	✓	✓	3/3
3	JPA Day	✓	✓	✓	✓	4/4
	Independent non-executive directors					
4	DJ Green (Chairman)	✓	✓	✓	✓	4/4
5	GC Bayly	✓	✓	✓	✓	4/4
6	KM Mabe				✓	1/1
7	MA Mohamed	✓	✓	✓	✓	4/4
8	A Padayachee	✓	✓	✓	✓	4/4

The independence of the independent non-executive directors was assessed, and all were deemed to meet the requirements of independence in terms of the recommendations of King V. The continued independence of these directors will be annually evaluated and confirmed.

NOMINATIONS

The Board seeks to construct an effective, robust, diversified, and complementary Board, the capability of which is appropriate in nature, complexity, and strategic demands of the business. The Board actively considers the structure, size, and composition of the Board and its Committees when contemplating new appointments and succession planning.

DIRECTORS' PERSONAL INTERESTS

A full list of directors' interests is maintained, and directors, at the beginning of each Board meeting, are required to confirm that the list is correct. Directors recuse themselves from any discussion and decision in which they have a material financial interest.

INVESTMENT COMMITTEE

Members: David Green (Chairman), Gregg Bayly, Avesh Padayachee, Koketso Mabe

Invitees: CEO, FD and the company secretary

The members of this Investment Committee ("Invcom") have extensive business experience and technical expertise in real estate, renewable energy, and finance.

The Invcom considers all acquisitions, disposals, and capital expenditure for recommendation to the Board.

The Invcom did not meet during the financial period under review.

REMUNERATION COMMITTEE

Members: Avesh Padayachee (Chairman), Ashraf Mohamed

Invitees: CEO, FD and the company secretary

The Remuneration Committee ("Remcom") met once during the year.

The Remcom is a committee of the Board and is governed by terms of reference as approved by the Board. These terms of reference are reviewed on an annual basis.

CORPORATE GOVERNANCE REPORT (continued)

REMUNERATION REPORT AND POLICY

The Remcom is responsible for the Group's reward philosophy, policy, and remuneration mix and the implementation thereof. The Remcom ensures the remuneration policy is aligned with the Group's strategic objectives and goals.

The Group is committed to being compliant with remuneration best practices, in which remuneration packages and incentives are regularly evaluated against market surveys.

The Group is managed by Castleview Asset Managers (Pty) Ltd ("CAM"), and the CEO, Executive Director and asset management staff are employed and remunerated by CAM. The asset management agreement requires CAM to perform in line with the agreed performance criteria. The remuneration committee is satisfied that CAM has implemented a remuneration structure that creates a performance-based culture by adopting remuneration policies and practices with regard to executives and employees, aligning performance with the creation of sustainable returns to shareholders while meeting the needs of other stakeholders.

The Financial Director, property management and administrative staff are employed by the Group. These individuals are managed by the Group, and their employment contracts, salaries, and incentives are also determined by the Group.

FAIR AND RESPONSIBLE REMUNERATION

The Board is mindful of the pay gap ratio in comparison to highly skilled executives and accordingly implements a fair and reasonable approach to executive remuneration whilst considering overall employee remuneration.

The Group is committed to ensuring that the remuneration strategy is fair and reasonable at all levels.

The Group actively benchmarks, monitors and reviews the remuneration policy to ensure that the right pay mix is applied and all employees are remunerated competitively.

The Group takes proactive steps to identify any discrepancies in remuneration paid to employees at the same level and with equal experience.

Through CAM, the Group's current remuneration structure consists of a mix of guaranteed remuneration and variable performance-related pay, which is at risk. Guaranteed remuneration constitutes the employee's total cost to company package.

The Remcom will continue to monitor the appropriateness of the remuneration policy and how it is applied.

ENGAGEMENT WITH STAKEHOLDERS

The Group welcomes engagement with shareholders on remuneration issues to inform the voting process at the annual general meeting. In line with King V, the Group is required to engage directly with shareholders should the remuneration policy, the remuneration report, or both be voted against by 25% or more votes exercised. Through this engagement process, management will endeavour to determine reasons for the dissenting votes and address legitimate objections, and take reasonable measures to address shareholder concerns. At the 2025 annual general meeting, the Group shareholders approved the remuneration policy and the remuneration report, both by 100% of the voting rights exercised in respect of such resolutions.

REMUNERATION REPORT

The Remcom confirms that the CAM's remuneration structure, with its policies and procedures, has been consistently applied in the year under review.

The property and administrative staff employed by the Group receive annual increases effective in April of each calendar year.

There was no short-term incentive plan in place for the period under review.

There was also no long-term incentive plan in place for the period under review.

For emoluments paid to directors during the 2026 financial period, please refer to note 24 to the consolidated financial statements. The proposed emoluments of the non-executive directors for the 2027 financial period are set out in the table below.

The Group remunerates the non-executive directors. Other than fees paid to CAM in respect of asset management services and the company secretary in respect of company secretarial services, the company has not entered into any contracts relating to directors and/or managerial remuneration, secretarial and technical fees, and restraint payments.

Additional disclosure required under section 30B of the Companies Act*

CORPORATE GOVERNANCE REPORT (continued)

SOCIAL AND ETHICS COMMITTEE

Members: James Templeton (Chairman), David Green and Avesh Padayachee

The social and ethics committee ("SEC") is a statutory committee focused on monitoring compliance with labour legislation as well as corporate social responsibilities, corporate citizenship, the impact of the Group's activities on the environment, health and safety, and customer relations. Despite being a statutory committee, it is constituted by the Board and fulfils the required functions on behalf of the company. A charter governs the SEC's responsibilities and duties.

SOCIAL AND ETHICS COMMITTEE REPORT

The Group's SEC initiatives are extensive and comprehensive. They range from improving environmental performance, particularly at the Emira Property Fund and EPP Community Properties level, to addressing social issues at every level within the Group, as well as governance matters, where continued improvements have been achieved.

Social and economic development

Monitoring the social and economic development of the Group, including the Group's standing in terms of the goals set out in the United Nations Global Compact Principles and the Organisation for Economic Co-operation and Development's recommendations regarding corruption.

Ethical conduct

Reviewing and approving the Group's code of conduct and all policies and procedures relating thereto.

Good corporate citizenship

Considering sponsorship, donations, and charitable giving to the community in which Castleview operates.

Since listing, the Group has supported Excelsior Primary, a school located in Mount Croix, Gqeberha, which is in the immediate vicinity of Pier 14 Shopping Centre, with funding for various improvements, mainly to sporting facilities.

The Group's graduate recruitment and training initiative yielded positive outcomes during the reporting period, with the two graduates initially appointed on 12-month contracts by CAM subsequently transitioning into permanent roles within the business. This outcome supports the Group's objectives of developing internal capability, retaining talent and contributing to sustainable skills development.

Sustainability

Monitoring employment relationships and the Group's contribution to employees' self-development.

Monitoring workplace health and safety issues.

Consideration of the top sustainability issues as identified by management.

Stakeholder engagement

Monitoring the Group's activities regarding consumer relationships and compliance with consumer protection law.

Consideration of stakeholder engagement.

Attendance at meetings

During the 2026 financial year, the SEC met on one occasion.

Meeting attendance is recorded in the table below.

James Templeton
Social and ethics committee Chairman

CORPORATE GOVERNANCE REPORT (continued)

COMPANY SECRETARY

The Board has direct access to the company secretary, Statucor Proprietary Limited, who provides guidance and assistance in line with the requirements outlined in the Companies Act, King V, and the JSE Listings Requirements. The independence, competence, qualifications, and experience of the company secretary is subject to annual evaluation by the Board.

For the period under review, the Board considered the competence, qualifications, and experience of the company secretary and is satisfied that the company secretary is deemed fit to continue in the role as company secretary for the Group. The company secretary's relationship with the Board has been assessed and is considered to be at arm's-length.

INFORMATION TECHNOLOGY GOVERNANCE

The Board is ultimately responsible for IT governance. The financial director oversees the information technology function, attends the executive committee meetings, and reports to the CEO. The risks and controls over information technology assets and data are considered by the ARC.

DEALING IN SECURITIES BY THE DIRECTORS

Dealing in the Group's securities by directors and Group officials is regulated and monitored as required by the JSE Listings Requirements and the Group's policy. The Group maintains a closed period from the end of a financial reporting period to the date of publication of the financial results, and any other period when the Group is under a cautionary announcement.

PROMOTION OF ACCESS TO INFORMATION ACT

There were no requests for information lodged with the Group in terms of the Promotion of Access to Information Act, No. 2 of 2000, during the period under review.

DIVERSITY POLICY

The Group is committed to actively managing diversity as a means of enhancing the company's performance by recognising and utilising the contribution of diverse skills and talent of its directors. Diversity may result from a range of factors, including age, gender, ethnicity, cultural background, race, or other personal factors.

The policy applies to the Board. It does not apply to diversity in relation to employees of the Group, which is covered by the company's employment equity policy, according to South African labour legislation.

The SEC will review the policy annually, which will include an assessment of the effectiveness of the policy. The Board has not set any voluntary targets in relation to the year ending 31 March 2027.

RISK MANAGEMENT

The Board retains overall responsibility for risk management and for the definition of the Group's overall risk strategy and tolerance, having considered the recommendations of the audit and risk committee.

Rank	Risk	Impact	Mitigation Strategies
1	**Financing: Equity and Debt**		
	Breach of debt covenants – LTV and DSCR	Being placed in breach of loan agreements (senior + mezzanine) with the associated consequences such as financiers taking over the position, thereby placing other loans in default, with substantial equity losses to Castleview shareholders.	Monitoring of debt covenants; monitoring of share loan margin limits; early negotiations on expiring debt facilities; diversification of lenders; availability of cash/undrawn facilities ("war chest") to use immediately in the event of a pending breach
	Interest rate risk	Increased cost of borrowings will reduce shareholder value	1. Maintain appropriate level of fixed interest rates and hedging, 2. Monitor swap rates for appropriate time to enter into swaps/caps
	Inability to roll over bank debt	Inability to secure roll over of existing facility, resulting in equity needing to be issued to repay loans	Early negotiations on renewals
	Failure to secure funds for acquisitions	Inability to grow the portfolio	Regular interaction with investors and bankers to ensure the availability of equity and/or debt for funding of acquisitions
	Further requirements from Castleview shareholders/ lenders for pay back of cash	Requirement from Castleview to raise cash via sales, new debt, new equity	Ongoing discussions to increase debt facilities; sourcing cash via subsidiaries in the form of dividends
	Mismatch of EPPCP debt funding in Euro's, which matches tenants' Euro obligations however their turnover is in Polish Zloty	Inability to sufficiently service Euro linked interest on loans	Limited options to mitigate this risk; there is the option of entering into swaps, however these are expensive which currently outweighs the risk of such an eventuality
	Cashflow from DL Invest investment: inability of DL be unable the pay annualised, escalating 7.2% coupon to Emira	This would place downward pressure on cashflows from Emira for Castleview, with resultant negative impact on serviceability of Castleview debt	Shareholder agreement at DL Invest level has recourse for Emira should DL Invest not pay the coupon. Emira's interest cover is greater than 2 times, so provides for a level of comfort
2	**Operations/Finance**		
	Eskom partial/entire grid shutdown	Inability for tenants to trade, conduct their business, resulting in rentals becoming unaffordable, tenant default, reduced rental income and resultant default on debt repayment	Installation of alternative power generation facilities at Castleview properties – including solar and wind
	Vacancies and rental default	Reduced profitability and returns to stakeholders Tenant defaults, higher vacancies, increased spend on portfolio to attract tenants Declining property valuations, reduced net asset values and risk of breach of financial covenants	1. Strong focus on tenant relationships to ensure retention 2. Targeted leasing strategy 3. Early renewal negotiations 4. Effective credit control and legal procedures for defaulting tenants
	Looting and violence in city centres and townships across South Africa	Damage to shopping centres requiring payment for rebuilding and repairs; reduced footfall and spending for fear of the violence	Increased security when these events are anticipated, evacuation and lockdown of centres if appropriate, building insurance including SASRIA cover for such events

RISK MANAGEMENT (continued)

Rank	Risk	Impact	Mitigation Strategies
2	**Operations/Finance (continued)**		
	Impact of war in Ukraine spreading to Poland	Risk that centres are damaged if war is extended into Poland; meaningful loss in value	Short of selling entire/portion of Polish exposure, very little that Castleview can do other than maintain insurance cover where possible
	Municipal and Utility under performance, Eskom financial and operational crisis	Deterioration in services provided (water, rates, refuse, electricity) by local municipality would negatively impact on centre's ability to cater to tenants, Eskom severe operational; potential worst case for shutdown of entire national electricity grid	1. Private landlords are increasingly becoming less reliant on municipal infrastructure e.g. private waste removal 2. Installation of electricity generating infrastructure at landlord's expense
	Material misstatement of financials including AFS, Integrated Report and forecasts	Financial reports needing to be corrected, resubmitted and published; reputation damage as a result of missing forecasts	Increased, dedicated resources to Castleview financial team; appointment of qualified, independent auditors and consultants in the preparation and publication of financials
	Overall property management of the portfolio risk: Rental income, municipal expenses and dealing with counsel, lease management and contractual obligations	General underperformance of the portfolio of not being optimally property and asset managed	Appointment of high quality property managers, maintenance and financial staff. Intensive asset management
	Recurrence of COVID-19	Significantly increased operational risk of vacancies and tenant default due to COVID-19 induced government shutdown of the economy	The threat of COVID-19 has reduced globally; mitigation measures that were in place between 2020 and 2022 have been tried and tested, would be reinstated
	Impact of informal settlements on investment properties in SA, particularly in Cape Town	Degradation of the immediate node in which property is located; lower tenant retention; loss in property value	Employment of cleaning and security companies; engagement with municipality/ mayoral office
	Development risk	Poor performance of developments when compared to expected return	1. Experienced professional team; 2. On-site supervision by Centre and Ops managers; 3. On-site OHS consultant; 4. Project insurance; 5. Monthly asset management meetings with professional team
3	**Investment property portfolio**		
	Valuation Risk for investment properties in all sectors	Risk of LTV default on loans; reduction in NAV for shareholders	1. Continued good performance by asset and property managers, including occupancies and costs control 2. Good operating performance will reduce risk
	Acquisition Risk	Financial performance of properties purchased is not in line with expectations	1. Comprehensive due diligence performed by asset managers 2. Technical report carried out by external consultants
	Inability to source suitable investment opportunities	Inability to grow the portfolio	1. Regular interaction with key people in the industry 2. Visits to possible opportunities if in different countries

RISK MANAGEMENT (continued)

Rank	Risk	Impact	Mitigation Strategies
3	**Investment property portfolio (continued)**		
	Damage to investment property	Financial loss to the company and reduced asset value	1. Comprehensive insurance policy based on replacement value of investment property 2. Regular review of insurance policy and insured values
	Disposals Risk	Inability to repay debt, or return capital to shareholders	1. Continued good performance by asset and property managers, including occupancies and costs control 2. Good operating performance will increase the likelihood on asset sales
4	**Governance & Compliance**		
	Non-compliance with regulations e.g. JSE Listings Requirements	Suspension or termination of the company's listing	Active monitoring by corporate sponsors and company secretary
	Non-compliance with REIT regulations	Payment of corporate and capital gains tax	Advice from SA's best tax lawyers in order to continue to with compliance
	Non-compliance with Occupational Health & Safety Act	Injuries or death of employees, customers at malls	Experienced staff on-site and well-established processes in place
	Non-compliance with Popia	Fines or jail time for serious offences	Experienced advisers and processes in place
	Non-optimal/drop in BEE Rating	Inability to retain tenants, attract investment flows	Consider BEE scorecard and areas in which improvements can be made
	ESG Risk	Inability to attract new capital	Adherence to JSE Listing Requirements disclosure. Subsidiaries and Associates all have suitable ESG plans in place
	Reputational risk	Loss of investor confidence and unit price volatility	1. Regular communication with stakeholders 2. Corporate sponsors (Java Capital) regular interaction and advice if necessary
5	**Skills and systems**		
	Loss or operational inadequacy of key staff and advisers	Reduced operational capability and consequential impact on shareholder value	1. Relationships with key advisers governed by appropriately termed contracts 2. Ability to replace advisers in the event of failure 3. Attractive remuneration and working environment in place to encourage retention of key staff 4. Succession planning
	Information technology ("IT") fraud and cyber security	Loss of revenue as a result of loss of data Impact on the company's reputation in the event that the data is not recovered promptly	1. Support of appropriately skilled IT resources and contractors 2. Subsidiaries and Associates have suitable, separate protection measure in place
6	**Fraud**		
	Fraud in Castleview's business operations – consolidated and investments	Loss of cash, assets; negative impact on reputation, reduced ability to raise equity and debt	Authority limits in place for Castleview staff; separate loading and approval of payments out of Castleview; internal and external audits on regular basis
7	**Tax**		
	Financial impact on CVW of changes in tax legislation	Higher taxes result in possible negative impact on distributable income; adverse opinion from SARS could result in deferred tax asset on balance sheet being reduced.	Consultation with the best tax advisers to assist in reducing the risk and financial consequences.

KING V™ PRINCIPLES

STATEMENT BY THE GOVERNING BODY ON THE REALISATION OF THE GOVERNANCE OUTCOMES

King V™, launched by the Institute of Directors South Africa (IoDSA) on 31 October 2025, is effective for financial years commencing on or after 1 January 2026. The Group applied the principles and practices of King IV™ for the 2026 financial year. As part of the transition from King IV to King V, this Disclosure Framework has been prepared in accordance with King V and provides insight into the Group's progress in meeting the King V governance outcomes.

The disclosures set out below explain how the Board has applied the relevant King V principles during the year under review. In applying and explaining these principles, the Board considered the size, nature, and complexity of the Group and applied the recommended practices in a manner considered appropriate to Castleview's governance arrangements, operating model, and stakeholder context. These disclosures should be read together with the broader corporate governance section of this integrated report and the Board's overall assessment of the governance outcomes achieved during the year.

Having considered the governance arrangements, practices, and disclosures set out below, the Board is satisfied that Castleview has applied the relevant governance principles, as adopted by the Group and, where appropriate, adapted and applied proportionately to the Group's size, nature, and complexity. Accordingly, the Board is satisfied that these arrangements have supported ethical culture, performance and value creation, conformance and prudent control, and legitimacy during the year under review.

APPLICATION OF THE KING V PRINCIPLES

Leadership	
Principle 1	**The governing body leads ethically and effectively as the focal point of corporate governance in the organisation.** The Board applies this principle through a formal Board Charter, a clear separation of the roles of Chairperson and CEO, scheduled Board meetings, and defined delegations to management, applied in a manner commensurate with its size, nature, and complexity. Standards of conduct, independence, conflicts of interest, and accountability are formally documented and applied, and oversight of ethics is delegated to the Social and Ethics Committee while accountability remains with the Board. The Board is committed to driving the strategy and operations of Castleview, based on an ethical foundation, to support a sustainable business, acting in the best interest of Castleview, while considering the economy, society as a whole, environment and its stakeholders. The Board is satisfied that these arrangements give effect to ethical and effective leadership. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 13 to 19.
Organisational ethics and responsible corporate citizenship	
Principle 2	**The governing body governs the ethics of the organisation in a way that enables an ethical culture and responsible corporate citizenship.** The Board determines and sets the tone of Castleview's values, including principles of ethical business practice, human rights considerations and the requirements of being a responsible corporate citizen and through the Social and Ethics Committee approves the Company's code of ethics. Management has been delegated the responsibility for implementation and execution of the code of ethics and the Board through the Social and Ethics Committee exercises ongoing oversight of the management of ethics and ensuring it is integrated in the operations of Castleview. The ethics code guides interaction with all stakeholders of Castleview and addresses the key ethical risks. The Board is satisfied that these arrangements give effect to an ethical culture and responsible corporate citizenship. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 13, 18 and 19.

KING V™ PRINCIPLES (continued)

APPLICATION OF THE KING V PRINCIPLES

Strategy and performance

Principle 3

The governing body ensures that the organisation's purpose, strategy, and business model support performance that creates sustainable value within the organisation's economic, social, and environmental context.

The Board applies this principle by approving the Group's strategy, overseeing implementation by management, and monitoring performance against strategic objectives, as adapted to the size, nature, and complexity of the Group. In doing so, the Board considers the operating environment, capital allocation, funding profile, key risks, and the Group's broader economic, social, and environmental context, with support from the Investment Committee in relation to acquisitions, disposals, and capital expenditure.

The Board is satisfied that these arrangements give effect to sustainable value creation. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 7 to 14 and 18 to 22.

Reporting

Principle 4

The governing body ensures that external reports issued by the organisation enable stakeholders to make informed assessments of how the organisation creates, preserves, and erodes value within its economic, social, and environmental context over the short, medium, and long term.

The integrated annual report provides a consolidated view of Castleview's financial, social and environmental performance, prospects and strategy in the context of our operating environment to enable stakeholders to make an informed assessment of the Group's value creation in the short, medium and long-term.

The Board applies this principle by approving the integrated report and annual financial statements, supported by oversight from the Audit and Risk Committee. Reporting is prepared with reference to IFRS® Accounting Standards, the Companies Act, the JSE Listings Requirements, King V, and the integrated reporting framework, and materiality is applied in determining report content.

The Board is satisfied that these arrangements give effect to transparent and reliable reporting. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 2 to 4 and 33 to 34.

Composition of the Board

Principle 5

The governing body ensures that its composition is balanced with respect to the mix of competencies, diversity, and independence that enables it to discharge its obligations objectively and effectively.

The Board applies this principle through a composition that includes a majority of independent non-executive directors, an independent non-executive Chairperson, and separate Chairperson and CEO roles, applied in a manner commensurate with its current Board structure. The independence of independent non-executive directors is assessed annually, directors' interests are declared and managed, and a Board diversity policy is in place.

The Board is satisfied that its composition provides an appropriate balance of independence, skills, experience, and diversity. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 5, 7 and 14 to 17.

Committees of the Board

Principle 6

The governing body ensures that arrangements for delegation to committees and individuals within its own structures promote the objective and effective discharge of its obligations.

Committees have been established to assist the Board in discharging its responsibilities. The committees of the Board comprise of an Audit and Risk Committee, a Social and Ethics Committee, Investment Committee and a Remuneration Committee.

The committees are appropriately constituted and members are appointed by the Board. External advisors, executive directors and members of management attend committee meetings by invitation. Formal terms of reference have been adopted by each committee and will be reviewed on an annual basis.

The Board is satisfied that these arrangements give effect to effective delegation within its structures. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 5, 15 to 19 and 33 to 34.

KING V™ PRINCIPLES (continued)

APPLICATION OF THE KING V PRINCIPLES

Appointment and delegation to management

Principle 7	**The governing body ensures that the appointment and delegation to management promote operational effectiveness and that the respective roles and decision-making powers of the governing body and management are clearly defined.** The Board applies this principle through a formal delegation of authority framework, defined CEO role responsibilities, Board oversight of CEO performance and succession planning for the CEO position, applied in a manner commensurate with its management structure. The Board also has direct access to the company secretary, whose independence, competence, qualifications, and experience are assessed annually. The Board is satisfied that these arrangements give effect to role clarity and effective delegation to management. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 13 to 14 and 19.

Risk governance

Principle 8	**The governing body governs risk in a way that enables the organisation to sustain and optimise its strategy and objectives.** The Board has direct responsibility for the governance of risk and approves Castleview's risk policy that gives effect to its set direction on risk. The Board is responsible for the approval of the risk profile and financial risk appetite and tolerance levels, ensuring that risks are managed within these levels. Management continuously identifies, assesses, mitigates and manages risks within the existing operating environment. Mitigating controls are put in place to address these risks. To support the Board in ensuring risk management oversight, the Audit and Risk Committee is responsible for ensuring effective monitoring of the relevant top risks. The Board is satisfied that these arrangements give effect to effective risk governance. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 20 to 22 and 33 to 34.

Compliance governance

Principle 9	**The governing body governs compliance with applicable laws and adopted policies, non-binding rules, codes, and standards in a way that promotes ethics and responsible corporate citizenship.** The Board applies this principle through compliance responsibilities delegated to management, supported by legal compliance processes, company secretarial support, and oversight by the Social and Ethics Committee and the Audit and Risk Committee, applied proportionately to its legal and regulatory context. Compliance with applicable laws, regulations, the JSE Listings Requirements, and REIT-related obligations is monitored on an ongoing basis. The Board is satisfied that these arrangements give effect to effective compliance governance. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 13, 18 to 22 and 31 to 34.

Technology and information governance

Principle 10	**The governing body governs data, information, and technology in a way that enables the organisation to sustain and optimise its strategy and objectives.** The Board is ultimately accountable for the governance of information technology management and has delegated this responsibility to the Audit and Risk Committee. Assurance is sought to ensure that the information management controls in place are effective and that any risk identified is addressed. The information management strategy is aligned to Castleview's business needs and sustainability objectives. Measures to ensure compliance to all relevant laws, information security and the protection of personal information are in place. The Board is satisfied that these arrangements give effect to the governance of data, information, and technology. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 20 to 22 and 31 to 34.

KING V™ PRINCIPLES (continued)

APPLICATION OF THE KING V PRINCIPLES

Remuneration governance	
Principle 11	**The governing body ensures that the organisation remunerates fairly, responsibly, and transparently to promote sustainable value creation by the organisation within its economic, social, and environmental context.** The Board believes that Castleview has an appropriate rewards strategy for the current size of the company. The adopted policy ensures competitive and appropriate rewards outcomes for the employees of the company. The remuneration report, including the remuneration report and the remuneration policy, is set out in the integrated annual report. Given the size of the company and the functions performed by the asset manager, the Remuneration Committee currently only has 2 members. The Board is satisfied that these arrangements give effect to fair, responsible, and transparent remuneration. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 16 to 17.
Assurance	
Principle 12	**The governing body ensures that assurance functions and services promote an effective internal control environment and safeguard the integrity of external reports issued by the organisation.** The Board applies this principle through oversight by the Audit and Risk Committee, review of internal financial controls, and reliance on external audit assurance over the annual financial statements, applied proportionately to its assurance requirements. The Committee reviews key financial reports, assesses auditor independence, considers the going concern assessment, and recommends the annual financial statements and integrated report to the Board for approval. The Board is satisfied that these arrangements give effect to effective assurance. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 19 to 34.
Stakeholders	
Principle 13	**The governing body adopts a stakeholder-inclusive approach in the execution of its duties in the long-term best interests of the organisation within its economic, social and environmental context over time.** The Board applies this principle through a stakeholder-inclusive governance approach supported by structured engagement with shareholders, financiers, business partners and suppliers, tenants, valuers, regulators, industry associations and communities, applied proportionately to its stakeholder profile. Stakeholder matters are monitored through the Group's governance structures and communicated through defined channels, including meetings, reporting, SENS announcements, the integrated report, and the AGM. The Board is satisfied that these arrangements give effect to a stakeholder-inclusive approach. Accordingly, the Board is satisfied that the objective of this principle has been achieved. Refer to pages 7, 8 and 20 to 22.

GROUP CONSOLIDATED FINANCIAL STATEMENTS 2026

castleview

CONTENTS

Published

26 June 2026

The consolidated financial statements for the year ended 31 March 2026 have been audited by Moore Cape Town Inc., in compliance with the applicable requirements of the Companies Act of South Africa (Act 71 of 2008). The consolidated financial statements were prepared internally under the guidance of Lida le Roux CA(SA), the Financial Director.

RESPONSIBILITY STATEMENT OF THE CHIEF EXECUTIVE AND FINANCIAL DIRECTOR

In compliance with paragraph 5.9 of the JSE Listings Requirements

FOR THE YEAR ENDED 31 MARCH 2026

Each of the directors, whose names are stated below, hereby confirm that

(a) the consolidated financial statements set out on pages 40 to 105, fairly present in all material respects the financial position, financial performance and cash flows of the issuer in terms IFRS® Accounting Standards;

(b) to the best of our knowledge and belief, no facts have been omitted or untrue statements made that would make the consolidated financial statements false or misleading;

(c) internal financial controls have been put in place to ensure that material information relating to the issuer and its consolidated subsidiaries has been provided to effectively prepare the financial statements of the issuer;

(d) the internal financial controls are adequate and effective and can be relied upon in compiling the financial statements, and we have fulfilled our role and function as executive directors with primary responsibility for implementation and execution of controls;

(e) where we are not satisfied, we have disclosed to the audit and risk committee and the auditors any deficiencies in design and operational effectiveness of the internal financial controls, and have remediated the deficiencies; and

(f) we are not aware of any fraud involving directors.

James Templeton

JWA Templeton
Chief Executive Officer

AA le Roux
Financial Director

Cape Town
26 June 2026

CERTIFICATE BY COMPANY SECRETARY

In terms of section 88(2)(e) of the Companies Act of South Africa, 71 of 2008, as amended (the Companies Act), I declare that, to the best of my knowledge, for the year ended 31 March 2026, Castleview Property Fund Limited has lodged with the Companies and Intellectual Property Commission all such returns as are required of a public company in terms of the Companies Act and that such returns are true, correct and up to date.

AJ Rich
On behalf of Statucor Proprietary Limited
(Company secretary)

26 June 2026

DIRECTORS’ RESPONSIBILITIES AND APPROVAL

The directors are required in terms of the Companies Act of South Africa (Act 71 of 2008) (‘the Companies Act’) to maintain adequate accounting records and are responsible for the content and integrity of the consolidated financial statements and related financial information included in this report. It is their responsibility to ensure that the consolidated financial statements fairly present the state of affairs of the Group at the reporting period date and the results of its operations and cash flows for the period then ended, in conformity with IFRS® Accounting Standards and the Companies Act.

The consolidated financial statements are prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, the Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, the JSE Listings Requirements and the Companies Act, and are based on appropriate accounting policies applied throughout the Group and supported by reasonable and prudent judgements and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the Group and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the board of directors set standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. The internal financial controls are monitored throughout the Group and all employees are required to maintain the highest ethical standards in ensuring the Group’s business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the Group is on identifying, assessing, managing and monitoring all known forms of risk across the Group. While operating risk cannot be fully eliminated, the Group endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal financial control provides reasonable assurance that the financial records may be relied on for the preparation of the consolidated financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The directors have reviewed the Group’s cash flow forecast for the period to 30 June 2027 and, in light of this review and the current financial position, are satisfied that the Group has, or has access to, adequate resources to continue in operational existence for the foreseeable future.

The external auditors are responsible for independently auditing and reporting on the consolidated financial statements. The consolidated financial statements have been examined by the external auditors and their report is presented on pages 35 to 39.

The consolidated financial statements set out on pages 40 to 105, which have been prepared on the going concern basis, were approved by the board of directors on 26 June 2026 and were signed on their behalf by:

James Templeton

JWA Templeton
Chief Executive Officer

AA le Roux
Financial Director

Cape Town
26 June 2026

DIRECTORS' REPORT

The directors have pleasure in submitting their report on the consolidated financial statements of Castleview Property Fund Limited ("Castleview" or "the Group") for the year ended 31 March 2026.

NATURE OF BUSINESS

Castleview is a property investment entity incorporated in South Africa with interests in the property holding industry. The company does not trade, and all of its activities are undertaken through its principal subsidiaries. The Group operates in South Africa. The JSE granted Castleview a listing of all its issued ordinary shares in the "Retail REITs" sector on the AltX of the JSE under the abbreviated name "Castleview", JSE share code "CVW" and ISIN: ZAE000251633 with effect from 20 December 2017.

Castleview currently holds strategic investments across certain property-related entities indirectly and directly. There have been no material changes to the nature of the Group's business from the prior reporting period.

REVIEW OF FINANCIAL RESULTS AND ACTIVITIES

The consolidated financial statements have been prepared in accordance with IFRS® Accounting Standards and the requirements of the Companies Act of South Africa (Act 71 of 2008) ('the Companies Act'). The accounting policies have been applied consistently compared to the prior reporting period.

Full details of the financial position, results of operations and cash flows of the Group are set out in the consolidated financial statements.

DIVIDENDS

A final gross dividend of 56.0614 cents per share cents per share was approved by the board of directors on 19 June 2026 in respect of the year ended 31 March 2026.

In accordance with the Company's status as a REIT, the dividend declared meets the requirements of a qualifying distribution for the purposes of section 25BB of the Income Tax Act No 58 of 1962 (as amended). Castleview uses distribution per share as the relevant measure of financial performance for the purposes of trading statements in terms of the JSE Listings Requirements.

DIRECTORS' REPORT (continued)

INVESTMENTS IN SUBSIDIARIES

Details of interests in subsidiaries are disclosed in note 23 of the consolidated financial statements.

COMPLIANCE

The directors confirm that the Group is in compliance with the provisions of the Companies Act and that Castleview has operated in conformity with its Memorandum of Incorporation ('MOI') for reporting period.

EVENTS AFTER REPORTING PERIOD

The directors are not aware of any other material events which occurred after the reporting date and up to the authorisation date of the consolidated financial statements other than those disclosed in note 26 of the consolidated financial statements.

GOING CONCERN

The directors believe that the Group has adequate financial resources to continue in operation for the period to 30 June 2027 and accordingly the consolidated financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the Group is in a sound financial position and that it has access to sufficient borrowing facilities to meet its foreseeable cash requirements. The directors are not aware of any material changes that may adversely impact the Group. The directors are also not aware of any non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the Group.

SOLVENCY AND LIQUIDITY TEST

The directors have performed the required solvency and liquidity tests required by the Companies Act in all relevant instances during the reporting period, including prior to the interim and final dividend declarations.

AUDITORS

At the upcoming annual general meeting, the shareholders will be requested to re-appoint Moore Cape Town Inc. as the independent external auditors of Castleview and to confirm Mr Pierre Johannes Conradie CA(SA)(RA) as the designated lead audit partner for the 2027 reporting period.

COMPANY SECRETARY

The company secretary is Statucor Proprietary Limited.

Postal address:	P.O. Box 3883 Cape Town 8000
Business address:	6th Floor 119-123 Hertzog Boulevard, Foreshore Cape Town 8001

AUDIT AND RISK COMMITTEE REPORT

The audit and risk committee ("ARC") have pleasure in presenting their report to the board of directors ('the Board').

AUDIT AND RISK COMMITTEE

Members: Gregg Bayly (Chairperson), Ashraf Mahomed and Avesh Padayachee

Invitees: The remaining Board members, executive directors, company secretary, internal auditors and the external auditors

The ARC comprised independent non-executive directors. All appointed directors satisfied the requirements of section 94(4) of the Companies Act and King V™ recommendations. The Board satisfied itself that the committee was adequately skilled, and all members possessed the appropriate financial and related qualifications, skills, and financial expertise and experience required to discharge their responsibilities.

The ARC is an independent statutory committee and has the cooperation of all directors, management, and staff in order to perform its duties, and has had access to all the required documentation in order to fulfil its tasks. The ARC is satisfied that financial reporting met its required standards during the reporting period.

Role of the ARC

The role of the ARC is split into two main categories:

i) Audit

The role of the ARC is to provide independent oversight of the effectiveness of the internal financial controls and the system of internal controls to assist the Board in ensuring and monitoring the integrity of the Group's Consolidated Annual Financial Statements and related external reports. The ARC further oversees the effectiveness of Castleview's external and internal assurance functions and services that contribute to ensuring the integrity of the Group's financial and integrated reporting.

Responsibilities include:

- The review and checking of all financial reports including the integrated report;
- The evaluation of internal financial controls;
- Following an evaluation and assessment of the external auditor and the designated audit partner, making recommendations to shareholders regarding the appointment or reappointment of the independent external auditor, as well as the suitability for such appointment and independence of the external auditor and audit partner;
- The monitoring and evaluation of all external and internal audit work in terms of the combined assurance model;
- Ensure that appropriate financial reporting procedures have been established and are operating;
- Ensure that the Group's financial performance is properly reported on and monitored, including reviewing the annual and interim accounts, results announcements, integrated annual reporting process, internal control systems and procedures, and accounting policies;
- Review of the JSE's Pro-Active Monitoring Reports;
- Ensure that the ARC fulfils its role in the corporate governance framework, including compliance with the company's MOI and King V™ requirements.

ii) Risk

Castleview's risk management policy is in accordance with industry practice and specifically prohibits the Company from entering into any derivative transactions that are not in the normal course of business.

The role of the ARC is to assist the Board in setting the direction for the manner in which risk is managed and addressed while adopting a stakeholder-inclusive approach. It also has to ensure that the Group has implemented an effective policy and plan for risk management and compliance encompassing the opportunities and associated risks to be considered when developing strategy, and the potential positive and negative effects of the same risks on the achievement of the Group's strategic objectives.

Responsibilities include:

- review the Group's risk framework and policy and assess and monitor its implementation;
- review specific risks such as insurance, litigation, and health and safety;
- oversee a policy on the management of technology and information and monitor the responses to developments in technology;
- oversee that the executive team has identified and assessed all the risks and opportunities for the Group in relation to all aspects of its business.

Activities during the reporting period

The ARC has fulfilled its function and responsibilities, as mentioned above, and has executed its duties during the year under review, complying with its legal, regulatory, and other responsibilities in accordance with its terms of reference. The Board did not assign any additional responsibilities to the committee.

AUDIT AND RISK COMMITTEE REPORT (continued)

The ARC has satisfied itself of the appropriateness, expertise, and experience of the financial director and the finance function, as well as the adequacy of resources and experience of senior members of management responsible for the financial function.

In accordance with paragraph 5.7(h) of the JSE Listings Requirements, the ARC is required to review the independence of the external auditors, Moore Cape Town Inc. In this regard, the ARC is satisfied that the external auditor is independent. Following the review by the ARC of the annual consolidated financial statements of the Group for the year ended 31 March 2026, the ARC is of the view that, in all material respects, they comply with the relevant provisions of Castleview's MOI, Companies Act, and IFRS® Accounting Standards and fairly present the Group's financial position at that date and the results of operations and cash flows for the reporting period ended 31 March 2026.

The ARC has also satisfied itself of the integrity of the remainder of the integrated report. Having achieved its objectives, the ARC has recommended the integrated report for the reporting period ended 31 March 2026 for approval by the Board. The Board has subsequently approved the integrated report, which will be open for discussion at the forthcoming annual general meeting.

The ARC has reviewed a documented assessment, including key assumptions prepared by management, of the going concern status of the Group. The Board's statement on the going concern status of the Group, which is supported by the ARC, appears later in this integrated annual report.

GC Bayly

ATTENDANCE AT MEETINGS

During the reporting period ending 31 March 2026, the ARC met on four occasions, and meetings were scheduled in line with Castleview's financial reporting cycle.

Meeting attendance is recorded in the table below.

AUDIT AND RISK COMMITTEE MEETING ATTENDANCES FOR THE YEAR ENDED 31 MARCH 2026

	Name	Meeting 20 June 2025	Meeting 29 August 2025	Meeting 28 November 2025	Meeting 27 March 2026	Total
1	GC Bayly (Chairman)	✓	✓	✓	✓	4/4
2	MA Mohamed	✓	✓	✓	✓	4/4
3	A Padayachee	✓	✓	✓	✓	4/4

INDEPENDENT AUDITOR'S REPORT

To the shareholders of Castleview Property Fund Limited

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

We have audited the consolidated financial statements of Castleview Property Fund Limited (the "Company") and its subsidiaries (the "Group") set out on pages 40 to 105, which comprise the Consolidated Statement of Financial Position as at 31 March 2026; and the Consolidated Statement of Profit or Loss and Other Comprehensive Income; the Consolidated Statement of Changes in Equity; and the Consolidated Statement of Cash Flows for the year then ended; and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Castleview Property Fund Limited and its subsidiaries as at 31 March 2026, and its consolidated financial performance and consolidated cash flows for the year then ended, in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the group, in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code), as applicable to audits of financial statements of public interest entities, and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

In terms of the IRBA Rule on Enhanced Auditor Reporting for the Audit of Financial Statements of Public Interest Entities, published in Government Gazette No. 49309 dated 15 September 2023 (EAR Rule), we report:

Final Materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the final materiality for the consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate on the consolidated financial statements as a whole.

	Consolidated financial statements
Final materiality	R375 000 000
How we determined it	2.9% of net assets were used and reduced by qualitative factors
Rationale for materiality benchmark applied	We chose net assets as the benchmark for the statement of financial position as this is the main driver of the business operations and what is the most significant driver for equity and financial stakeholders.

Group Audit Scope

We tailored the scope of our audit to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, considering the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

We performed risk assessment procedures to determine which of the group's components are likely to include risks of material misstatements to the consolidated financial statements and which further audit procedures to perform at these components to address these risks. Our judgements included assessing the size of the components and the nature of assets, liabilities and transactions within the components as well as specific risks.

The group consists of 19 components of which 1 is the holding company, 13 are subsidiaries and 5 components are equity accounted investments. We performed full scope audits for 12 of the South African components. In addition, where required, we have performed independent review procedures for all other components and placed reliance on component auditors for the audit of Emira Property Fund Limited as well as 1 of the equity accounted investments. On a sample basis, we performed substantive procedures on material balances relating to equity accounted investments, at a group level.

INDEPENDENT AUDITOR'S REPORT (continued)

Where the audit work was conducted by the component auditors, we determined the appropriate level of involvement necessary to ensure that sufficient appropriate audit evidence was obtained to support our opinion on the consolidated financial statements as a whole. We assessed the competence, knowledge and experience of the component auditors and evaluated the procedures performed on the significant audit areas to assess the adequacy thereof in pursuit of our audit opinion on the consolidated financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In terms of the EAR Rule, we are required to report the outcome of audit procedures or key observations with respect to the key audit matters, and these are included below.

Key audit matter	How our audit procedures addressed the key audit matter
Valuation of investment property (Group) **Refer to note 5 – Investment Property and note 22 – Measurement of fair value – Investment Property**	
Investment property measured at fair value pertains to group's most significant asset category and includes various judgmental areas due to the complexity and subjectivity involved in determining the property's fair values. Relevant accounting standards impacting this risk area have been assessed in accordance with IFRS 13, IFRS 5 and IAS 40. The investment property portfolio for the group has a total carrying value of R8.8 billion. Refer to the following accounting policies and notes to the consolidated financial statements for details: • Note 2 Material Accounting policies: Investment property, Non-current assets held for sale and Significant Accounting Estimates and Assumptions – Investment Property • Note 5 Investment Property and Non-current assets held for sale • Note 22 Measurement of fair value – Investment Property We considered the valuation of investment property a key audit matter as the valuation of investment properties is subjective in nature given that the inputs into the valuation methods are inherently judgmental and highly sensitive. The magnitude of the balance of the investment property recorded in the consolidated statements of financial position, as well as the changes to the fair value relating to the investment property portfolio recorded in the consolidated statements of profit or loss and other comprehensive income. Property valuations are performed at each reporting period and the following inputs are used in the determination of the fair value of investment property such as rental escalations, discount rates, capitalisation rates, vacancy rates, weighted average yields, rental growth rates and projected net cash flows from each investment property. These assumptions introduce inherent uncertainties that may impact the accuracy of fair value estimates. These inputs are judgmental and determined by management based on unique property specific information and current market conditions. In the current period the inputs into the valuations remain more susceptible to change as a result of the current market conditions. All property values have been assessed using the discounted cash flow (DCF) valuation method or the income capitalisation method. By incorporating these assumptions, the valuers provide a fair value estimate that reflects the market dynamics and inherent risks associated with the valuation of investment properties.	We have performed the following procedures, amongst others, to address the key audit matter: We obtained an understanding of the approach followed by management and the independent valuers in respect of the valuation of the group's investment property portfolio (which included those properties classified as held for sale) through discussions with both management and the independent external valuators. This includes the process around preparing budgets that drive the cash flows used in valuations. We have inspected the cash flows produced by the entity and assessed them for reasonability. We assessed the competence, capabilities, and objectivity of the external valuators engaged by management and considered their expertise. We evaluated the design, implementation and effectiveness of the control and conducted a test of control to evaluate the group's control over the review of investment property valuations received from the external valuators. We made use of our valuation expertise in our assessment of the reasonability of the valuation methodologies and the assumptions applied based on our knowledge of the industry and the markets in which the group operates (such as SAPOA rates and Rhode report). On a sample basis, we performed the following procedures: We inspected the external valuation reports and assessed whether the valuation approach for each of these properties was in accordance with IFRS Accounting Standards and suitable for use in determining the fair value for the purpose of the consolidated financial statements. We evaluated significant inputs such as rental escalations, discount rates, capitalisation rates, vacancy rates, weighted average yields, rental growth rates and projected net cash flows from each investment property against appropriate market information and historical information in order to assess whether they were within a reasonable range. We evaluated the disclosures relating to investment property to ensure compliance with IFRS Accounting Standards and the Johannesburg Stock Exchange listing requirements.

Key audit matter	How our audit procedures addressed the key audit matter
Valuation of Investment in DL Invest at Fair Value (Group) **Refer to note 7 – Investments at fair value 22 – Measurement of fair value – Financial assets at fair value through profit or loss**	
The investment is measured at fair value through profit or loss, with a total fair value of €176 798 169 (R3 467 736 971) as at 31 March 2026. The valuation of this investment is considered a key audit matter due to: • The magnitude of the investment to the financial statements; • The complexity of the contractual arrangements, including subscription and option agreements; • The valuation of the investment is subjective in nature given that the inputs into the valuation method are inherently judgmental and highly sensitive which introduce inherent uncertainties that may impact the accuracy of fair value estimates. • The significant judgment involved in key assumptions such as discount rates, forecasted cash flows, and the application of redemption and call option terms. • Determine the classification of the investment in terms of the IFRS Accounting Standards. The valuation was performed by an independent expert using discounted contractual future cash flows using a discount rate that incorporates various market and entity-specific risk factors.	We have performed the following procedures, amongst others, to address the key audit matter: We obtained an understanding of the approach followed by management and the independent expert in respect of the valuation of the investment in DL Invest. We inspected all the relevant signed agreements between Emira and DL Invest to understand the structure, substance of the Linked Units and associated rights. In addition, we performed the following procedures: • Inspected the valuation methodology applied by the independent expert, i.e. discounted future cash flow method and assessed whether the valuation approach was in accordance with IFRS Accounting Standards and suitable for use in determining the fair value for the purpose of the consolidated financial statements. • Evaluated the reasonableness of key assumptions used in the valuation, including the discount rate, which incorporated the Polish risk-free rate, equity risk premium, beta for Polish real estate companies, and credit risk premium. • Assessed whether the valuation appropriately reflected the terms of the Option Agreement, including the Call Option and Redemption Option mechanisms and the occurrence of any Redemption Trigger Events. • Considered whether the net asset value of DL Invest exceeded Emira's investment amount by at least 200%, as stipulated in the Investment Agreement. • Assessed the competence, capabilities, and objectivity of the external valuators engaged by management and considered their expertise. • Assessed whether the investment was appropriately classified and allocated in accordance with the applicable financial reporting framework. • Reviewed the financial statement disclosures to assess compliance with IFRS 9 and IFRS 13, including the fair value hierarchy classification, valuation techniques, and sensitivity analysis. • Evaluated whether the disclosures provided sufficient transparency regarding the nature of the investment, the contractual terms, and the valuation inputs and assumptions.

INDEPENDENT AUDITOR'S REPORT (continued)

Other information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Castleview Property Fund Limited Integrated Report 2026" and in the document titled "Castleview Property Fund Limited Group Financial Statements for the year ended 31 March 2026", which includes the Directors' Report, the Audit and Risk Committee Report and the Certificate by Company Secretary, as required by the Companies Act of South Africa and the supplementary information as set out on pages 106 to 117. The other information does not include the consolidated financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Consolidated Financial Statements

The directors are responsible for the preparation and fair presentation of the consolidated financial statements, in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT (continued)

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report, unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Audit tenure

In terms of the IRBA Rule published in Government Gazette No. 39475 dated 4 December 2015, we report that Moore Cape Town Inc. has been the auditor of Castleview Property Fund Limited for 2 years.

Disclosure of Fee-related Matters

In terms of the EAR Rule, we disclose the following fee-related matters:

Fee	**Value**
• Fees paid or payable to the audit firm for the audit of the group's financial statements	R3 427 720
• Fees paid or payable to the audit firm for other services:	
– Agreed upon procedures	R8 700
– Other non-assurance services	R50 000
• Fees paid to Moore Infinity Incorporated for services provided to any related entities of the audit client:	
– Audits of the financial statements of the subsidiaries	R4 741 170
– Agreed upon procedures	R190 000
– Other non-assurance services.	R50 000

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL INFORMATION

Castleview Property Fund Limited, its subsidiaries and equity-accounted investments (together the "Group") hold a major portfolio of investment properties in South Africa together with offshore investments in the United States of America (the "USA" or "US") and Poland. Castleview is listed as a REIT on the Alternative Exchange ("AltX") on the JSE.

The consolidated financial statements include the financial statements of Castleview Property Fund Limited and its subsidiary companies and the share of profit or loss and other comprehensive income and share of net assets of equity-accounted investments.

These consolidated financial statements ("the financial statements") have been approved for issue by the Board of Directors of the Company on 26 June 2026. The shareholders do not have the power to amend the financial statements after issue.

These financial statements were compiled under the supervision of AA le Roux CA(SA), the Financial Director.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

2.1 Basis of preparation

Statement of compliance

These financial statements have been prepared in accordance with IFRS® Accounting Standards as issued by the International Accounting Standards Board ("IASB") ("IFRS Accounting Standards"), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, JSE Listings Requirements and the requirements of the Companies Act of South Africa, No. 71 of 2008.

Preparation of the financial statements

The financial statements have been prepared under the historical cost convention except for investment property and certain financial assets and financial liabilities (including derivative instruments), which are measured at fair value through profit or loss. Refer to note 22.

The financial statements are presented in Rand and are rounded to the nearest thousand, unless otherwise stated.

The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period in which the assumptions were changed. Management believes that the underlying assumptions are appropriate. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 2.16.

New and amended standards and interpretations

During the current reporting period, no amended standards and interpretations had a material impact on the Group 's accounting policies or the amounts recognised in the financial statements.

New and amended standards applicable to the Group but not yet effective

At the authorisation date of these financial statements, new and amended accounting standards have been published but are not yet effective and have not been early adopted by the Group. The following standards and amended standards are applicable to the Group and are not expected to have a material impact on the Group, except where indicated otherwise, and will be adopted in the reporting period applicable as per the table below:

Standard	Effective date*	Expected impact
Amendments to IFRS 9 and IFRS 7: Classification and Measurement of Financial Instruments	1 January 2026	Unlikely that there will be a material impact.
Annual improvements to IFRS Accounting Standards — Volume 11: • Amendments to IFRS 7 Financial Instruments: Disclosures • Amendments to IFRS 9 Financial Instruments • Amendments to IFRS 10 Consolidated Financial Statements • Amendments to IAS 7 Statement of Cash Flows	1 January 2026	Unlikely that there will be a material impact.
IFRS 18 Presentation and Disclosure in Financial Statements**	1 January 2027	Expected material impact**

* *Periods beginning on or after.*

** *IFRS 18 will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 01 January 2027. The new standard introduces the following key new requirements:*

- *Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly defined operating profit subtotal. Entities' net profit will not change.*
- *Management-defined performance measures (MPMs) are disclosed in a single note in the financial statements.*
- *Enhanced guidance is provided on how to group information in the financial statements.*
- *In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method.*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.2 Consolidation

Subsidiaries

The consolidated financial statements incorporate the separate financial statements of the company and all subsidiaries. Subsidiaries are entities which are controlled by the Group.

The Group has control of an entity when it is exposed to or has rights to variable returns from involvement with the entity and it has the ability to affect those returns through its power over the entity.

The results of subsidiaries are included in the consolidated financial statements from the date on which control commences to the date on which control ceases.

Transactions eliminated on consolidation

All intra-Group transactions, balances, and unrealised gains on transactions between group companies are eliminated in full on consolidation. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Non-controlling interests

Non-controlling interests are measured initially at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Investment in associates and joint ventures

The Group's interests in equity-accounted investees comprise interests in associates and joint ventures. Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over these policies. Interests in associates are accounted for using the equity method.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have benefits derived from the net assets of the joint arrangement. Interests in joint ventures are accounted for using the equity method.

The profits and losses, assets and liabilities of associates and joint ventures are incorporated in these consolidated financial statements using the equity method of accounting for Group, except when the investment is classified as held-for-sale.

Under the equity method the investment is initially recognised at cost and thereafter the carrying amount is adjusted to recognise the Group's share of the post-acquisition profits or losses of the investee after the date of acquisition, distributions received and any impairment adjustments that are required. The share of profits or losses are recognised in profit or loss. The cumulative post-acquisition movements are adjusted against the carrying amount of the investments.

The financial statements of associates used in applying the equity method are prepared as of the same reporting date as the Group, unless it is impracticable to do so. Where the reporting date of an associate differs from that of the Group, the most recent available financial statements of the associate are used, provided that the difference in reporting dates does not exceed three months.

Appropriate adjustments are made for the effects of significant transactions or events occurring between the reporting date of the associate and that of the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.3 Foreign currency

Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in South African Rand, the Group's functional and presentation currency.

Foreign currency transactions

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at reporting date exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings, and cash and cash equivalents are presented net profit or loss within finance income or finance costs. All other foreign exchange gains and losses are presented net in profit or loss.

Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to the Group's presentation currency (Rand) at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Rand at exchange rates at the dates of the transactions (an average rate per month is used). Foreign currency differences related to foreign operations are recognised in other comprehensive income and accumulated in equity in the foreign currency translation reserve.

When the Group disposes only part of its interest in a subsidiary (a foreign operation) while retaining control, the relevant proportion of the cumulative amount is re-attributed to non-controlling interest. If control is not retained, the cumulative amount in the foreign currency translation reserve related to the relevant foreign operation is reclassified to profit or loss as part of the gain or loss on disposal.

2.4 Investment property

Property, comprising both freehold and leasehold land and buildings, that is held for long-term rental yields or for capital appreciation, or both, is classified as investment property. Investment property is recognised initially at cost, including transaction costs.

Borrowing costs incurred for the purpose of acquiring, developing or producing qualifying investment property are capitalised as part of its cost.

After initial recognition, investment property is measured at fair value which is adjusted for the carrying amounts of straight-lining of rental income adjustments, tenant installations and unamortised upfront lease costs which are recognised as separate assets, so that these separately recognised assets are not double counted. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If this information is not available, the Group uses alternative valuation methods, such as recent prices on less active markets or discounted cash flow projections. Valuations are performed at reporting date by professional valuers who hold recognised and relevant professional qualifications and have recent experience in the location and category of the investment property being valued. These valuations form the basis for the carrying amounts in the financial statements. Investment property that is being redeveloped for continuing use as investment property or for which the market has become less active continues to be measured at fair value.

Tenant installations and lease commissions are measured at cost less accumulated amortisation on a straight-line basis over the term of the lease.

Fair value measurement on property under development is only applied if the fair value is considered to be reliably measurable.

It may sometimes be difficult to reliably determine the fair value of the investment property under development. In order to evaluate whether the fair value of an investment property under development can be determined reliably, management considers the following factors, among others:

- The provisions of the development contract
- The stage of completion
- Whether the project/property is standard (typical for the market) or non-standard
- The level of reliability of cash inflows after completion
- The development risk specific to the property
- Past experience with similar developments

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.4 Investment property (continued)

The fair value of investment property reflects, among other things, rental income from current leases and assumptions about rental income from future leases in light of current market conditions. The fair value also reflects on a similar basis, any cash outflows that could be expected in respect of the property.

Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

The fair value of investment property does not reflect future capital expenditure that will improve or enhance the property and does not reflect the related future benefits from this future expenditure other than those a rational market participant would take into account when determining the value of the property.

Changes in fair values are recognised in profit or loss.

Investment properties are derecognised either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal.

Where the Group disposes of a property at fair value in an arm's length transaction, the carrying amount immediately prior to the sale is adjusted to the transaction price, and the adjustment is recognised in profit or loss within net fair value adjustments.

2.5 Inventory

Inventories are stated at the lower of cost and net realisable value. Cost includes all expenses directly attributable to the development process as well as suitable capitalisable costs, including borrowing costs.

Transfers from investment properties to inventories occur when there is a change in intention regarding the use of the property from an intention to hold for rental income or capital appreciation purposes to an intention to develop and sell. The transfer price is recognised as the fair value of the property as at the date of transfer. Development activities commence immediately after transfer.

2.6 Fair value measurements

The Group measures financial instruments such as derivatives and investment property at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities, for which fair value is measured or disclosed in the financial statements, are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.6 Fair value measurements (continued)

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

2.7 Financial instruments

Initial recognition, measurement and classification

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial assets are classified at initial recognition as either measured at amortised cost or at fair value through profit or loss. Financial liabilities are classified as measured at amortised cost or at fair value through profit or loss.

The classification of financial assets is based on the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset. Financial assets with embedded derivatives are assessed in their entirety when determining whether their cash flows meet the solely payments of principal and interest ("SPPI") criterion.

Financial assets at amortised cost

Financial assets are held at amortised cost if the cash flows are SPPI, and interest is a consideration for the time value of money and credit risk only.

The Group's financial assets at amortised cost comprise "trade receivables", "loans receivable" and "cash and cash equivalents" in the statement of financial position.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading and if the cash flows of the financial instruments are not SPPI and do not meet the requirements to be classified at amortised cost.

The Group's financial assets at fair value through profit or loss comprise "investments at fair value" and "derivative financial assets" in the statement of financial position.

This includes:

- Investment in B preference shares in Inani, which are classified as equity instruments for the Group as they represent a residual interest in the net assets of the issuer;
- Investment in linked units issued by DL Invest Group S.A., which exhibit characteristics of both debt and equity instruments due to redemption features and exposure to variable returns. These instruments do not meet the criteria for measurement at amortised cost or at fair value through other comprehensive income and are therefore measured at fair value through profit or loss.

Subsequent to initial recognition, these financial assets are measured at fair value, with all gains and losses, including interest, dividends and foreign exchange movements, recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.7 Financial instruments (continued)

Financial liabilities at amortised cost

The Group's financial liabilities at amortised cost comprise "trade payables", "other financial liabilities" and "borrowings" in the statement of financial position.

Tenant deposits received are recognised as financial liabilities at amortised cost, as they represent contractual obligations to refund amounts to tenants. These deposits are typically held as security for the condition of the property at the end of the lease term or for lease payments of between 1 and 12 months and are included in trade payables.

Subsequent to initial recognition, financial liabilities at amortised cost are measured using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition, as well as fees and costs that are integral to the financial liability. The amortisation (interest expense) is recognised in profit or loss as part of finance costs.

Financial liabilities at fair value through profit or loss

The Group financial liabilities at fair value through profit or loss comprise "derivative financial liabilities" (refer to note 2.16), and are subsequently measured at fair value, with changes recognised in profit or loss.

Financial guarantees

Financial guarantee contracts are recognised as financial liabilities at the time the guarantee is issued. The fair value of a financial guarantee contract is the present value of the difference between the net contractual cash flows required under a debt instrument, and the net contractual cash flows that would have been required without the guarantee. The present value is calculated using a risk free rate of interest.

At each reporting date financial guarantees are measured at the higher of:

- The amount of the loss allowance; and
- The amount initially recognised less cumulative amortisation, where appropriate.

The amount of the loss allowance at each reporting date is initially equal to 12-month expected credit losses. However, where there has been a significant increase in the risk that the specified debtor will default on the contract, the calculation is based on lifetime expected credit losses.

Expected credit losses for a financial guarantee contract are the cash shortfalls adjusted by the risks that are specific to the cash flows.

Cash shortfalls are the difference between:

- The expected payments to reimburse the holder for a credit loss that it incurs; and
- Any amount that the Group expects to receive from the holder, the debtor or any other party.

Derivatives and hedge accounting

Derivatives financial assets and liabilities are classified as financial assets at fair value through profit or loss and comprise mainly interest-rate swaps, interest-rate caps, cross-currency interest-rate swaps, and forward foreign exchange contracts. The Group uses derivative financial instruments to hedge its exposure to interest-rate and foreign exchange rate risk arising from financing and investing activities (generally referred to as an economic hedge).

De-gearing and disposal underwrite

The Group has entered into de-gearing and disposal underwriting arrangements with Inani Prop Holdings (Pty) Ltd ("Inani"). These arrangements are contractually linked and were entered into as part of a single commercial restructuring transaction. In terms of these arrangements, the Group may be required to subscribe for B preference shares (de-gearing underwrite) or acquire underlying properties at predetermined prices (disposal underwrite).

The arrangements are assessed in substance as linked transactions and accounted for as a single financial instrument. The combined underwrite is recognised and measured as a derivative financial instrument as its value changes in response to changes in the fair value of the underlying properties and settlement occurs at a future date. Refer to note 2.16.

Accordingly, the de-gearing and disposal underwrite is initially recognised at fair value and subsequently measured at fair value through profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.7 Financial instruments (continued)

Cash flow underwrite

The Group has entered into a cash flow underwrite arrangement in relation to its investment in B preference shares issued by Inani.

In terms of this arrangement, the Group may be required to provide funding to Inani in the event of specified cash flow shortfalls within Inani. Any amounts advanced to Inani are settled through the subscription for additional Inani B preference shares.

The accounting treatment of the underwrite is assessed with reference to the nature of the underlying instrument received on settlement.

Where the B preference shares are determined to be equity instruments in terms of IAS 32, the underwrite gives rise to an obligation to acquire additional equity instruments at a future date, contingent on the occurrence of specified events. In these circumstances, the arrangement is classified as a derivative financial instrument as: its value varies based on an underlying variable, being the cash flow performance of Inani. it requires little or no initial net investment and it is settled at a future date.

Accordingly, the cash flow underwrite is recognised as a derivative financial instrument and is initially recognised at fair value and subsequently measured at fair value through profit or loss.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on financial assets measured at amortised cost and lease receivables at reporting date. While cash and cash equivalents are classified and measured at amortised cost, and are also subject to these impairment requirements, they are considered to have low credit risk, and the expected credit loss is mitigated through the Group's credit risk management policy.

Expected credit losses ("ECLs") are measured as a probability-weighted estimate of credit losses, being the difference between the contractual cash flows due in accordance with the contract and all cash flows expected to be received, discounted at an approximation of the original effective interest rate. The expected cash flows include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade and other receivables, the Group has elected to apply the simplified approach in calculating the loss allowance. Accordingly, ECLs are recognised based on lifetime ECLs at each reporting date. These are estimated using a provision matrix with reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors specific to the debtor, general economic conditions of the industry in which the debtor operates, and forward-looking information.

Receivables are written-off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, when the counterparty has been placed under liquidation, has entered into bankruptcy proceedings, or the failure of a debtor to engage in a repayment plan with the Group. Receivables written off may still be subject to enforcement activities under the Group recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

The Group recognises a loss allowance for expected credit losses on financial assets measured at amortised cost, including trade receivables and loans receivable. The carrying amount of these assets is reduced through a corresponding loss allowance account.

If in a subsequent period the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed, to the extent that the carrying amount of the asset does not exceed its amortised cost had impairment not been recognised at the reversal date. Any subsequent reversal of an impairment loss is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.8 Income tax

Income tax expense comprises current and deferred tax and is recognised in profit or loss.

Current tax

Current tax is the expected tax payable or receivable on taxable income, after deducting the qualifying distribution for the period of assessment, using tax rates that have been enacted or substantively enacted by the reporting date and include adjustments for tax payable in respect of previous years. In accordance with the Group's REIT status, dividends declared are treated as a qualifying distribution in terms of section 25BB of the Income Tax Act, No 58 of 1962 (as amended).

Deferred tax

Deferred tax is provided for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises:

- From the initial recognition of goodwill in a business combination;
- From the initial recognition of other assets and liabilities in a transaction which is not a business combination and affects neither accounting profit nor taxable income and does not give rise to equal taxable and deductible temporary differences; or
- Differences related to investments in subsidiaries, joint ventures, and associates, to the extent that it is probable that they will not reverse in the foreseeable future and the Group is able to control the reversal.

Deferred tax assets are recognised for unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which it can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. These reductions are reversed when the probability of future taxable profits improves.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

No deferred tax was recognised on the fair value adjustments to investment property and investments in REITs. These assets are realised through sale and as such do not attract capital gains tax in terms of section 25BB of the Income Tax Act. Deferred tax is not recognised for temporary differences that will form part of future qualifying distributions.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax assets and liabilities and they relate to income tax levied by the same authority on the same taxable entity, or on different tax entities, but they intend to settle current tax assets and liabilities on a net basis or their tax assets and liabilities will be realised simultaneously.

2.9 Revenue

Revenue includes rental income from the property investments and operating cost recoveries from tenants, but excludes value added tax. Rental income from operating leases is recognised on a straight-line basis over the lease term. When the Group provides incentives to its tenants, the cost of incentives is recognised over the lease term, on a straight-line basis. The amount not yet recognised is capitalised as a straight-lining of revenue rental adjustment asset, which forms part of the value of investment property.

The Group acts as a principal when recovering operating costs from tenants.

Distribution income and dividend revenue received from property investments and subsidiaries is recognised when the Group's right to receive payment has been established.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.10 Distributions payable to shareholders

The Group has an obligation to distribute the net amount available for distribution to its shareholders.

Distributions payable are recognised as a liability once the amount for distribution has been determined and declared by the Board. Distributions exclude items arising as a result of:

- The unrealised fair value adjustments to investment properties
- The unrealised gains and losses in respect of the fair valuing of financial assets through profit or loss
- The income arising from straight-lining of lease income
- Estimated credit losses on loans receivable
- Unrealised foreign exchange differences.

2.11 Leases

Lessor accounting

The Group acts as a lessor over all its leases in respect of investment property. These leases are classified as operating leases at lease inception. The Group recognises lease payments received under an operating lease as income on a straight-line basis over the lease term as part of revenue.

The Group makes payments to agents for services in connection with negotiating lease contracts with the Group's lessees. The letting fees are capitalised to unamortised upfront lease costs and amortised over the lease term.

Lessee accounting

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is measured at the initial amount of the lease liability, adjusted for any lease payments made in advance, plus any initial direct costs incurred less any lease incentives received. A right-of-use asset in relation to leased land is recognised as investment property. Right-of-use asset recognised as investment property is subsequently measured at fair value.

The lease liability is initially measured at the present value of the future lease payments discounted using the interest rate implicit in the lease and if not readily determinable, the Group's incremental borrowing rate. Lease payments included in the measurement of the lease liability comprise:

- Fixed payments; and
- Variable lease payments dependent on an index or a rate, initially measured using the index or rate as at the lease commencement date.

Variable lease payments that are not based on an index or a rate are excluded from the measurement of the lease liability and are recognised in profit or loss in the period in which the event or condition that triggers those payments occurs.

The lease liability is subsequently measured at amortised cost using the effective interest method.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, if the Group changes its assessment of whether it will exercise an extension or termination option or where a variable payment becomes fixed. Where the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the underlying right-of-use asset, or is recognised in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

2.12 Finance income and finance costs

Finance income and finance costs are recognised in profit or loss using the effective interest method, except for borrowing costs relating to qualifying assets, which are capitalised as part of the cost of that asset. Interest income received from loans granted to equity-accounted investees is presented as part of profit from equity-accounted investees.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or financial liability.

The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.13 Investment properties and equity-accounted investments held-for-sale

Investment properties and/or equity-accounted investments are classified as held-for-sale when their carrying amount is to be recovered through a sale transaction and a sale is considered highly probable. Investment properties and/or equity-accounted investments held for sale are measured at fair value, with subsequent gains or losses recognised in profit or loss.

2.14 Employee benefits

Short-term employee benefits

Short-term employee benefits are recognised as employee benefit expense and accrued when the associated services are rendered by the employees of the Group.

Defined contribution plans

The defined contribution plan is a post-employment benefit plan under which the Group pays contributions to a separate entity and has no legal or constructive obligation to pay further amounts if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

The contributions are recognised as a defined contribution plan expense when the related services have been rendered.

Short-term incentive

The Group recognises a liability and an expense for bonuses where contractually obliged or where there is a past practice that has created a constructive obligation.

2.15 Earnings, distributable earnings and distribution per share

Earnings per share

The Group presents basic earnings per share and headline earnings per share for its shares.

Basic earnings per share is calculated by dividing the profit attributable to equity holders by the weighted average number of shares in issue during the year.

Headline earnings per share is calculated by dividing the headline earnings attributable to equity holders by the weighted average number of shares in issue during the period, in compliance with circular 1/2023 SAICA.

Distribution per share

Distribution per share is calculated by dividing the dividend declared by the Board by the total number of shares in issue at reporting date.

2.16 Significant judgements and estimates

Significant judgements and estimates

In preparing these financial statements, management has made judgements and estimates that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates, assumptions and judgements are reviewed on an ongoing basis and are based on historical experience, and estimates and assumptions are adjusted for current market conditions, and other factors, where applicable. Revisions to estimates are recognised prospectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.16 Significant judgements and estimates (continued)

Assumptions and estimation uncertainty

Information about assumptions and estimation uncertainties at the reporting date that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next reporting period are as follows:

Investment properties

The valuation of investment properties was determined principally using discounted cash flow projections, based on estimates of future cash flows, supported by the terms of any existing lease contracts and by external evidence such as current market rentals for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows. In light of the continued pressured and negative macro-economic conditions, as well as the poor outlook, the Group has maintained its discount rates and exit capitalisation rates and has also adjusted the majority of its valuation inputs (void periods, market rentals, rental growth rates, and perpetual vacancy rates).

The portfolio's discount and exit capitalisation rates are within the most recent ranges published by SAPOA. Note 22 provides a detailed analysis on the Group's valuation inputs and metrics.

The future rental rates were estimated depending on the actual location, type and quality of the properties and taking into account market data and projections at the valuation date, as well as the length of vacant periods following the expiry of existing lease agreements.

For further detail and sensitivity analysis, refer to notes 5 and 22.

Investment in DL Invest Group S.A

The valuation of the investment in DL Invest Group S.A. (refer to note 7) was determined using the income approach which is based on the estimated future cash flows that have been discounted back to the present value, using an appropriate discount rate.

For details on the fair value determination and assumptions applied, refer to note 22.

Investment in Inani B preference shares

The valuation of the investment in Inani B preference shares (refer to note 7) was determined with reference to the underlying equity value of Inani.

For details on the fair value determination and assumptions applied, refer to note 22.

Loans receivable at amortised cost

In measuring the ECLs on loans receivable, the Group apply the general approach, which requires a 12-month loss allowance and an assessment of changes in credit risk since initial recognition. This process involves the application of significant judgement and estimation in determining the inputs to the ECL model.

Key areas of judgement and estimation include assessing the risk of default and expected loss rates, informed by historical data, prevailing market conditions, and forward-looking information at the reporting date. This also incorporates assumptions regarding loss given default and probability of default, which have a material impact on the ECL measurement. The detailed assumptions and quantitative information applied are disclosed in note 21.

Derivative financial instruments

The fair values of the interest-rate swap and cap contracts are determined using discounted cash flow projections based on estimates of future cash flows and the terms of the relevant swap agreements. Cash flows are projected using a zero coupon ZAR swap curve, and are discounted on an uncollateralised basis.

The valuation of cross-currency interest-rate swaps was determined by discounting the future cash flows using the basis swap curve of the respective currencies at the dates when the cash flows will take place. Future floating cash flows are determined using forward rates derived from the basis swap curve of the respective currencies as at each reporting date. The net cash flows were discounted using the basis swap curve of the respective currencies as at each reporting date.

The valuation of the USD forward exchange contracts was determined by discounting the forward rates applied at reporting date to the open hedged positions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.16 Significant judgements and estimates (continued)

Assumptions and estimation uncertainty (continued)

Derivative financial instruments (continued)

The valuation of the de-gearing and disposal underwriting arrangements and the cash flow underwriting arrangement has been determined using an income approach, applying a probability-weighted expected present value technique.

The de-gearing and disposal underwrites are valued on a combined basis as a single derivative financial instrument, reflecting their contractual and economic linkage. In contrast, the cash flow underwrite is valued separately, as it results in the acquisition of B preference shares and does not form part of the combined derivative exposure.

For further detail, refer to notes 9 and 21.

Current and deferred tax

In accordance with the Group's status as a REIT, the distributions made in line with the Group's distribution policy meet the requirements of a "qualifying distribution" for the purposes of section 25BB of the Income Tax Act, No. 58 of 1962 ("Income Tax Act"). In determining the tax obligation of the Group, the "qualifying distribution" is deducted from taxable profits. In addition, the Group is not liable for capital gains tax on the disposal of directly held properties.

No deferred tax liabilities were recognised as these will form part of the Group's "qualifying distribution" in the future and are not expected to attract any tax.

Deferred tax assets relating to assessed losses were recognised. Medium-term forecasts are prepared and reviewed by management on a bi-annual basis which include estimates and assumptions regarding economic growth, interest rates, inflation, and applicable factors. Management exercises judgement in determining whether forecasts are likely to be achieved and, in turn, whether the deferred tax assets will be recoverable.

Management expects sufficient future taxable income in the relevant subsidiaries to enable these entities to utilise the unutilised tax losses at the reporting date.

Impairment of interests in subsidiaries

The carrying amount of the Company's investments in subsidiaries is tested for impairment if any indicators are present. Indicators of impairment include:

- Net assets of the subsidiary are lower than its carrying value; and
- Economic performance of the subsidiary is anticipated to be worse than expected.

Management performs an impairment calculation by comparing the carrying amount of the investment to its recoverable amount. The recoverable amount is deemed to be the fair value less cost of disposal, which approximates the value in use. The fair value is determined using the net asset value.

Determining the expected credit loss allowance on financial assets

The impairment requirements for financial assets subject thereto are based on assumptions about risk of default and expected loss rates. The Group applies judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at each reporting date.

For details of the key assumptions and inputs used, refer to note 21.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements are as follows:

Determining whether the Group has significant influence over an investee

The Group applies judgement in assessing whether it has significant influence over its investments. Significant influence is presumed when the Group holds 20% or more of the voting rights in an investee, unless it can be clearly demonstrated otherwise.

In making this assessment, the Group considers the extent of its ownership interest together with its ability to participate in the financial and operating policy decisions of the investee, without exercising control or joint control.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.16 Significant judgements and estimates (continued)

Judgements (continued)

Classification of investment in Inani Property Fund ("Inani")

The Group exercised judgement in determining the classification of its 50% investment in the ordinary equity of Inani following the restructuring of its funding and governance structure during the current reporting period.

The assessment focused on whether the Group has the ability to direct the relevant activities of Inani or whether decision-making is shared between shareholders.

Judgement was applied in assessing:

- the impact of unanimous consent requirements over decisions relating to the relevant activities;
- whether the Group's exposure to variable returns through its equity interest and funding arrangements provides it with the ability to direct those activities; and
- whether the Group's role as asset manager confers decision-making authority or is limited to acting on behalf of the shareholders.

Decisions regarding the relevant activities of Inani require unanimous consent, and no single shareholder has the ability to direct those activities unilaterally. Therefore, management concluded that the Group does not have the unilateral ability to direct the relevant activities of Inani, and that decision-making is shared among the shareholders.

Accordingly, the investment is classified as a joint venture and accounted for using the equity method (refer to note 6).

Classification of investment in Inani B preference shares

Management applied judgement in determining that the preference shares issued by Inani constitute equity instruments rather than financial liabilities, based on the absence of a contractual obligation on the issuer to deliver cash or another financial asset under all circumstances.

In forming this judgement, management considered the following:

- Nature of returns: Distributions are contingent on the availability of cash flows and are not enforceable in the absence of such cash flows. This indicates that payments are discretionary in substance rather than obligatory.
- Substance of the arrangement: The overall return profile of the instrument is linked to the underlying performance of Inani. In scenarios where sufficient cash flows are not generated, value is expected to be realised through participation in residual net assets rather than through fixed or predetermined payments.
- Position in the capital structure: The preference shares are subordinated to other funding arrangements, exposing the holder to risks consistent with equity participation.
- Issuer classification: Inani has classified the preference shares as equity instruments in its financial statements. While this is not determinative, it is consistent with management's assessment of the substance of the arrangement.
- Absence of unavoidable payment terms: The terms do not require redemption or the payment of fixed returns irrespective of Inani's financial performance.

Based on the above, management concluded that the Inani B preference shares meet the definition of equity instruments and accordingly recognised the instrument as a financial asset at fair value through profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. MATERIAL ACCOUNTING POLICIES (continued)

2.16 Significant judgements and estimates (continued)

Judgements (continued)

Classification of the de-gearing and disposal underwrite arrangements

Management applied judgement in determining the appropriate accounting treatment for the de-gearing and disposal underwrite arrangements entered into with Inani.

In assessing the appropriate accounting treatment, management considered the substance of the arrangements and assessed whether the contracts meet the definition of a financial guarantee contract or a derivative financial instrument.

Management concluded that the de-gearing and disposal underwrites should be linked and accounted for as a single instrument, as they were entered into at the same time, involve the same counterparty, relate to the same underlying risk and form part of a single commercial arrangement.

Further judgement was required in assessing whether the contracts meet the definition of a derivative financial instrument, given that the value of the instrument changes in response to movements in the fair value of the underlying properties. Based on this assessment, management determined that the combined underwriting arrangement meets the definition of a derivative financial instrument.

Classification of the cash flow underwrite arrangement

Management applied significant judgement in assessing the classification of the cash flow underwrite arrangement entered into with Inani. This included evaluating the contractual rights and obligations arising from the arrangement, including the nature of the instrument that may be received on settlement and the classification of the B preference shares.

As the B preference shares are classified as equity instruments, the underwrite arrangement gives rise to an obligation to acquire instruments at a future date contingent on specified events. Management assessed whether the arrangement meets the definition of a derivative financial instrument by considering whether the value of the arrangement changes in response to an underlying variable, whether it requires little or no initial net investment and whether settlement occurs at a future date. In performing this assessment, management considered that the B preference shares represent the underlying variable, with the value ultimately received linked to the fair value of the B preference shares, which may fluctuate based on factors such as credit risk and market interest rates. While specified costs or events determine whether the obligation is exercised, these factors do not determine the ultimate value of the instrument received.

Based on this assessment, management concluded that the cash flow underwrite arrangement meets the definition of a derivative financial instrument.

3. SEGMENT ANALYSIS

Segment information

The chief operating decision maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined that its chief operating decision maker is the CEO of the Fund.

The CEO considers the business based on the following three operating segments:

Direct

- Office: directly held commercial properties
- Retail: directly held retail centres
- Residential: directly held residential properties
- Residential development: residential properties developed for disposal

Indirect

Equity interests in JSE-listed real estate investment trusts and foreign investment in EPP Community Properties JV B.V.

Emira

Consolidated results of Emira Property Fund and the three entities funding the investment.

* *Other consists of tenant installations, lease commissions and unamortised upfront lease costs.*

The portfolio is split between the Commercial Portfolio, composed of retail, office and industrial properties and the Residential Portfolio which comprises the residential properties.

Commercial portfolio

The Group disposed of 8 (2025: 28) commercial properties during the reporting period for an aggregate consideration of R661.5m (2025: R2.5bn).

Residential portfolio

In the residential portfolio, The Group realised total gross proceeds, before costs of R911.7m (2025: R382.6m) through the transfer of 1 452 (2025: 444) units through it's subsidiaries Emira Property Fund and I Res Fund.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

5. INVESTMENT PROPERTY (continued)

Held for sale

Investment property classified as held for sale has been reclassified from investment properties to non-current assets held-for-sale as the specific requirements have been satisfied and there is a large degree of certainty that they will be sold and transferred to buyers within 12 months from reporting date. The properties that are held for sale are listed below and are all in the process of being disposed and where contractually agreed, have been revalued to their selling price.

The Group classified investment properties totalling R846.8m (2025: R241.0m) on the commercial portfolio and R316.5m (2025: R648.2m) in the residential portfolio as held for sale.

Valuation

In terms of the Group's accounting policy and JSE regulations at least one third of the property portfolio is externally valued annually by independent valuers. At reporting date, 88.5% (2025: 92.2%) of the Group's investment properties were valued by independent external valuers. The remaining 11.5% (2025: 7.8%) of properties was valued by the directors. The independent external valuers are registered in terms of section 19 of the Property Valuers Profession Act (Act No. 47 of 2000). The fair value measurement information is disclosed in note 22.

Minimum contracted rental income

Figures in R'000	31 March 2026	31 March 2025
– Due within one year	**806 154**	738 226
– Due in year 2	**1 035 406**	551 706
– Due in year 3	**424 905**	391 486
– Due in year 4	**269 914**	274 048
– Due in year 5	**171 534**	174 892
– Due beyond five years	**400 287**	466 570
Total	**3 108 200**	2 596 928

The weighted average length of a lease in the commercial portfolio (retail, industrial and office properties) is 3.2 years (2025: 2.8 years) and the average lease escalation is 6.2% (2025: 6.5%). Leases in the residential portfolio are primarily signed on a month-to-month basis. Therefore, contractual income on the residential portfolio largely consists of only one month of rental income as this is the lease term that is contractually receivable by the Group within one year.

Pledged as security

The mortgage bonds have been registered over the entire direct investment property portfolio as security for the loans taken out.

Investment properties under the direct property portfolio of the Group to the value of R413.3m (2025: R1 264.0m) have been used to provide security for loans taken out.

Investment properties under the commercial property portfolio of Emira to the value of R7 443.1m (2025: R6 703.7m) have been used to provide security for loans taken out.

Investment properties under the Emira residential portfolio to the value of R1 120.3m (2025: R1 904.0m) have been used to provide security for loans taken out.

For further details on the borrowing, refer to note 15.

6. INVESTMENTS AND LOANS IN EQUITY-ACCOUNTED INVESTMENTS (continued)

EPP Community Properties JV B.V. ("EPP JV")

EPP Community Properties JV B.V. is a joint venture between Castleview and EPP, part of the Redefine Properties Limited Group, consisting of 15 retail and office properties in Poland.

During the period, the Group increased its holding in the joint venture to 52.5% (2025: 51.2%).

USA Associates

The Group, through its subsidiary Emira has co-invested together with its USA-based partner, The Rainier Companies, in a minority share in grocery-anchored dominant value-oriented power centers in the USA on a deal-by-deal basis. The Group does not have board representation, there has not been any exchange of managerial personnel nor does the group provide any guarantees or extend any credit thereto. However, the Group has a unanimous voting arrangement on all major decisions and does exercise significant influence over the acquisitions and disposals of the investments made by CIL2 REIT LLC, therefore each investment is equity-accounted. The US associates consist of 12 entities being Belden Park Delaware LLC, Rainier Moore Plaza LLC, 32 East Center Delaware LLC, Rainier Stony Creek LLC, Rainier Woodlands Square LLC, Rainier Truman's Marketplace LLC, Rainier SA Crossing LLC, Rainier Wheatland Investors LLC, Rainier UTC LLC, Rainier Dawsons Market Place LLC, Rainier Newport Pavilion LLC, Rainier Summit Woods LLC. Ownership ranges between 46.67% and 49.64%.

At reporting date, Emira maintained an equity interest in ten USA property owing entities (2025: eleven) of which six own grocery-anchored power centers located in the United States, five power centers were disposed off in the current financial period however these entities in which the power centers were held still exist.

Collins Property Group Limited ("Collins Property Group")

The Collins Property Group is a JSE listed REIT which comprises of local and internationally based property holding companies focusing primarily on distribution centers, industrial warehouses and retail property sectors. It has over 100 properties with operations in South Africa, Namibia, Mozambique, Netherlands and Austria.

SA Corporate Real Estate Limited ("SA Corporate")

During the reporting period, the Group increased its shareholding in SA Corporate from 1.94% to 23.12%, resulting in the Group obtaining significant influence over SA Corporate.

Accordingly, from the date significant influence was obtained, the investment ceased to be accounted for under IFRS 9 and was accounted for as an associate using the equity method in accordance with IAS 28 Investments in Associates and Joint Ventures. Refer note 7.

On acquisition, the Group's share of the fair value of the identifiable net assets of SA Corporate exceeded the cost of the investment, resulting in the Group recognising a bargain purchase gain of R893.9 million in profit or loss within gain on bargain purchase.

Inani Prop Holdings (Pty) Ltd ("Inani")

At initial recognition as a joint venture, the carrying amount of the investment was Rnil. The Group's share of profit or loss for the year is Rnil, and the carrying amount at year-end remains Rnil.

For further details on impact of Inani, refer to note 9.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

7. INVESTMENTS AT FAIR VALUE (continued)

Investment in DL Invest Group S.A. ("DL Invest")

The Group holds an effective 45% equity interest in DL Invest, through its holding of 254 redeemable class B ordinary shares ("B Shares"). The Group also holds 254 9% unsecured linked loan notes issued by DL Invest ("Notes"). Each B Share is linked to a Note (which together constitute a Linked Unit). The B Shares and the Notes may not be separated and any agreement for the disposal of B Shares must include steps to procure the alignment of the B Shares with the Notes, which may include repayment of the Notes. The Linked Units were acquired in two tranches:

- Tranche 1: Subscription of 141 Linked Units for a total consideration of EUR 55.5 million (EUR 11.1 million for 141 B Shares and EUR 44.4 million for 141 Notes) on the 27 August 2024 ("Tranche 1 Effective Date").
- Tranche 2: Subscription of an additional 113 Linked Units for EUR 44.5 million (EUR 8.9 million for 113 B Shares and EUR 35.6 million for 113 Notes) on the 20 March 2025 ("Tranche 2 Effective Date").

The B Shares rank pari passu with the class A ordinary shares of DL Invest in the event of liquidation, entitling the Group to a pro rata share of net assets, while also granting voting rights, board representation, and minority protective rights.

Although the B Shares participate in the net assets of DL Invest upon liquidation, the Group also holds, or is exposed to, additional economic and governance rights not granted to the DL Invest class A shareholders. These include:

- DL Invest Group 1 SCSP, the holder of the DL Invest class A shares, holds call options to purchase all of the Tranche 1 and 2 Linked Units. The Tranche 1 and 2 call options may be exercised at any time after the 1st anniversary of the Tranche 2 Effective Date. At the date of initial investment into each tranche, the Tranche 1 and 2 call option price was EUR101.6m and EUR73.2m respectively, escalated by the Harmonised Index of Consumer Prices for the European Area ("HICP"), with a floor of 2% and a cap of 4%, plus accrued but unpaid dividends and less any dividends paid to the Group and any withholding tax paid by DL Invest in respect of the B shares (in aggregate, the "Option Fair Value"); At reporting date, the Tranche 1 and 2 call option price has escalated to EUR105.2m and EUR74.9m respectively.
- the Group holds a redemption option, granting it the right to request DL Invest to facilitate the redemption of the Linked Units, on the 5th anniversary of the Tranche 1 Effective Date for an amount equal to the Option Fair Value; and
- DL Invest shall procure that the Group receives target return on capital invested in the Linked Units of at least 7.2%.

Given the substance of the Linked Units and associated rights, management classified the investment as a financial asset measured at fair value through profit or loss.

The fair value of the investment in DL Invest Group S.A was externally valued by an independent valuer, using an income approach based on the discounted future cash flows of the Group's investment, which is deemed to be a level 3 input of the fair value hierarchy. Refer to note 22 Measurement of fair value for further information.

Investment in SA Corporate Real Estate Limited ("SA Corporate")

During the reporting period, the Group increased its shareholding in SA Corporate from 1.94% to 23.12%, resulting in the Group obtaining significant influence over SA Corporate.

Accordingly, from the date significant influence was obtained, the investment ceased to be accounted for under IFRS 9 and was accounted for as an associate using the equity method in accordance with IAS 28 Investments in Associates and Joint Ventures. Refer note 6.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

7. INVESTMENTS AT FAIR VALUE (continued)

Investment in Inani B preference shares ("Inani Pref")

The Group entered into an agreement with Inani ("Restructure Agreement"), in terms of which the Group participates in a structured funding arrangement comprising an investment in B preference shares and related underwriting arrangements.

In terms of the Restructure Agreement:

- The Group underwrites cash flow shortfalls of Inani from 24 December 2025 to 24 December 2029 ("cash flow underwrite");
- The Group may be required to subscribe for B preference shares on 24 December 2028 for an amount equal to the shortfall between R134.7m and the net disposal proceeds realised by Inani over the period ("de-gearing underwrite").

The cash flow underwrite results in the subscription for additional B preference shares as funding is provided. The de-gearing underwrite forms part of a combined derivative arrangement together with the disposal underwrite. Refer note 9.

The B preference shares are subordinated to senior debt and A preference shares, carry no voting rights and do not earn returns or qualify for redemption until senior obligations have been settled. Thereafter, returns and redemption are dependent on available cash flows and subject to a contractual payment waterfall.

Accordingly, the shares provide exposure to the residual performance of Inani. The Group has classified the B preference shares as a financial asset at fair value through profit or loss, for information on the judgements applied, refer to note 2.16.

The fair value was determined with reference to the underlying equity value of Inani, which is deemed to be a level 3 input of the fair value hierarchy. For further information in relation to the measurement of fair value, refer to note 22.

* *Refer to note 21 for further information on the credit risk of loans receivable.*

Figures in R'000	31 March 2026	31 March 2025
Loans provided on the disposal of investment property		
Inani Prop Holdings (Pty) Ltd – Mezzanine loan The loan was subject to interest at three-month JIBAR plus a margin of 5.5% up until 31 March 2023 and was capitalised to the outstanding loan balance. With effect from 1 April 2023, the loan was not subject to interest on all outstandings until the final repayment period. On 24 December 2025, the Inani Mezzanine loan and Inani Cession loan were restructured and aggregated into a single new loan obligation, termed Facility C Commitment. For further terms of the Inani Facility C Commitment, see below.	**–**	432 794
Inani Prop Holdings (Pty) Ltd – Inani cession loan Emira acquired R51.3m of Inani's senior lender's mezzanine debt on 17 August 2023, via a cession from Inani's senior lender. The loan was subject to the same terms and conditions as the senior lender's mezzanine loan and ranked pari passu with it. The loan was subject to interest at a three-month JIBAR plus a margin of 8.5%. On 24 December 2025, the Inani Cession loan and Inani Mezzanine loan were restructured and aggregated into a single new loan obligation, termed Facility C Commitment. For further terms of the Inani Facility C Commitment, see below.	**–**	66 579
Inani Prop Holdings (Pty) Ltd – Inani Facility C Commitment On 24 December 2025, the existing Inani Mezzanine and Inani Cession loans were restructured and aggregated into a single new loan obligation, termed Facility C Commitment. The loan bears no interest, and is repayable upon the full and final settlement of the A and B Preference shares respectively. The loan is subordinated to all senior debt claims and preference share claims.	**504 215**	–
Oneeighty Holdings Two (Pty) Ltd ("OEH2") The loan of R120,0m was initially advanced to OEH2 on 20 July 2023 for a period of 60 months, followed by a further drawdown of R10m on 28 June 2024. The loan bears interest at the prime interest rate plus a margin of 3.0% for the first 36 months of the loan term and thereafter increases by 1% annually. The interest on the loan is repayable monthly, with the capital amount repayable on 20 July 2028. A voluntary pre-payment of R50.0m was made on 23 June 2025 and accordingly the security over Central Park was released. The loan is secured through a cession and pledge agreement, where Emira has the cessionary right to OEH2's shares and claims, pursuant to all the shares in the issued share capital of Bright Ally Investments Proprietary Limited.	**87 797**	130 000
Other loans receivable Other loans consist of vendor loans and supplier developments loans which bear interest at rates between prime less 70 basis points and prime plus 100 basis points or JIBAR + 4% (2026: prime less 70 basis points and prime plus 300 basis points) and are repayable on set terms, the latest of which is 31 August 2031 (2026: 28 February 2027).	**114 986**	96 776
Gross loans receivable	**706 998**	726 149

The fair value of loans receivable approximates their carrying amounts. Information about the Group's exposure to credit risk and impairment losses for loan receivable is included in note 21.

9. DERIVATIVE FINANCIAL ASSETS/(LIABILITIES)

Figures in R'000	31 March 2026	31 March 2025
Net fair value of the derivative assets at reporting date was:		
Interest-rate swaps at fair value	**36 785**	7 309
Cross-currency interest-rate swap contracts	**36 417**	8 811
Foreign exchange option contracts	**122 649**	60 471
Closing balance	**195 851**	76 591
Current portion of derivative asset	**82 274**	16 931
Non-current portion of derivative asset	**113 577**	59 660
Net fair value of the derivative liabilities at reporting date was:		
Interest-rate swaps at fair value	**(10 515)**	(19 282)
Cross-currency interest-rate swap contracts	**–**	(116 465)
Foreign exchange option contracts	**(50 672)**	(35 274)
De-gearing and disposal underwrite*	**(52 740)**	–
Cash flow underwrite**	**(76 246)**	–
Closing balance	**(190 173)**	(171 021)
Current portion of derivative liability	**(57 026)**	(57 054)
Non-current portion of derivative liability	**(133 147)**	(113 967)

* *The Group entered into de-gearing and disposal underwrite arrangements as part of the Inani restructuring.*

The de-gearing underwrite is, in substance, a put option held by Inani. If exercised, the Group will be required to subscribe for Inani B preference shares on 24 December 2028 at a subscription price equal to the shortfall between R134.7m and the net sales proceeds realised by Inani between 24 December 2025 and 24 December 2028. The proceeds will be applied to settle senior debt and/or redeem A preference shares. Refer to note 7.

The disposal underwrite provides Inani with a contractual right (but not an obligation) to require the Group to acquire Inani's remaining properties on 24 December 2029 at a fixed price equal to the outstanding senior debt. The Group has no discretion to avoid settlement if this right is exercised.

The de-gearing and disposal underwrites are economically linked, expose the Group to the same underlying property risk and were entered into as a single commercial arrangement. Accordingly, they are accounted for as a single derivative financial instrument. For judgements applied on the classification of these arrangements, refer to note 2.16.

For details on fair value measurement, refer to note 22.

** *The Group entered into a cash flow underwrite arrangement as part of the Inani restructure. In terms of this arrangement, the Group is required to fund a portion of specified cash flow shortfalls of Inani, if and when they arise. Any amounts advanced are settled through the subscription of Inani B preference shares. The arrangement exposes the Group to contingent funding obligations linked to the performance of Inani. For further details on this arrangement refer to note 7.*

This arrangement is distinct from the de-gearing and disposal underwrites and is accounted for separately, as it results in the acquisition of additional equity instruments rather than forming part of the combined derivative instrument.

For details on fair value measurement, refer to note 22.

Interest paid	**(870 778)**	(950 342)
Exchange difference	**(153 770)**	(48 850)
Other*	**(22 418)**	(11 910)
Closing balance	**11 329 572**	10 914 758
Current portion of borrowings	**1 169 429**	1 112 297
Non-current portion of borrowings	**10 160 143**	9 802 461

* *Other consists of capitalised borrowing costs paid and amortised.*

Security

Secured debt represents facilities secured by registered mortgage bonds on immovable property.

Mortgage bonds have been registered over South African investment property, including investment property classified as held for sale, with a fair value of R9 137.9m (2025: R9 871.7m) as security for long-term interest-bearing borrowings and facilities.

Unsecured Debt includes facilities of R2 405.6m (2025: R1 554.1m) secured against the listed and unlisted shares of subsidiaries within the Group, which eliminate on consolidation.

Available facilities

At the reporting date, the Group has total undrawn facilities of R2 146.2m (2025: R1 181.7m).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

16. LEASE LIABILITIES

Figures in R'000	31 March 2026	31 March 2025
Opening balance	**75 510**	78 349
Interest expense	**5 116**	5 253
Lease payments	**(5 770)**	(5 438)
Derecognition of lease liability on sale of property	**–**	(2 654)
Closing balance	**74 856**	75 510
Current portion lease liabilities	**6 039**	5 508
Non-current portion lease liabilities	**68 817**	70 002
Total lease liabilities	**74 856**	75 510

The Group had total cash outflows for leases of R13.8m for the current reporting period (2025: R18.5m). There were no non-cash additions to right-of-use assets and lease liabilities during the reporting period (2025: RNil). At the reporting date, the lease liabilities relating to the right-of-use assets classified as investment property (refer to note 5) amounted to R73.4m (2025: R73.4m).

17. TRADE AND OTHER PAYABLES

Figures in R'000	31 March 2026	31 March 2025
Financial Instruments:		
Trade payables	**24 077**	25 347
Tenant deposits	**75 587**	84 479
Accrued expenses	**225 435**	216 550
Other payables*	**27 273**	37 631
Total financial Instruments:	**352 372**	364 007
Non-financial Instruments:

21. RISK

Capital risk

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for the shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Group consists of debt, which includes the borrowings disclosed in note 15, cash and cash equivalents presented in the statement of cash flows and note 20, and equity as presented in the statements of financial position and changes in equity. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. REIT legislation requires that a minimum of 75% of taxable income be distributed to shareholders annually.

Consistent with others in the industry, the Group monitors capital on the basis of the loan-to-value ratio. The loan-to-value ratio is calculated by dividing interest-bearing borrowings, net of cash on hand, by the total of investment properties.

The Group's strategy is to maintain a loan-to-value ratio of between 45% to 55%. REIT legislation requires that the loan-to-value ratio of the Group and each of its listed investments be below 60%.

	31 March 2026	31 March 2025
The loan-to-value ratio of the Group and its listed subsidiaries and investments are as follows:		
Castleview Property Fund (JSE: CVW)	**41.9%**	46.2%
Emira Property Fund (JSE: EMI)	**29.5%**	36.2%
Collins Property Group (JSE: CPP)	**49.3%**	49.8%
SA Corporate Real Estate (JSE: SAC)	**42.7%**	42.0%

Credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

Financial assets exposed to credit risk at reporting date were as follows:

		31 March 2026		
Figures in R'000	**Notes**	**Gross Carrying Amount**	**Loss Allowance**	**Carrying Amount**

Trade receivables	11	62 630	(38 432)	24 198
Cash and cash equivalents		452 620	–	452 620
		1 244 530	(542 669)	701 861

The credit risk assessment of Emira's loan to Inani, was assessed at stage 3 due to there being objective evidence of impairment as a result of Inani defaulting on its interest covenants with its primary external lender. Inani has been under cash flow constraints due to a reduction in its operating net income, rising interest rates and limited property sales taking place given the significant challenges in the SA economy combined with the lack of demand for office space. Notwithstanding the Inani restructure, which came into effect on 24 December 2025, management continues to apply judgement and has fully impaired the loan to Inani with a 100% PD and a LGD of 100%.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

21. RISK (continued)

Credit Risk (continued)

Cash and cash equivalents

The Group's exposure to credit risk is limited through the use of financial institutions of good standing for investment and cash handling purposes.

Material bank balances are with FirstRand Bank Limited, ABSA Bank Limited, The Standard Bank of South Africa Limited and East West Bank, which have a Standard & Poor's ("S&P") credit rating of zaAA+, zaAAA, zaAA+ and BBB+ respectively.

While cash and cash equivalents are also subject to impairment considerations, the impairment loss was immaterial.

Loans receivables

The Group has exposure to credit risk in respect of Emira's loans receivables that comprise funding for vendor loans stemming from property disposals, mezzanine funding provided, and Emira's BEE equity investment scheme. In assessing the credit risk, the financial position of the counterparties is considered prior to a loan being granted and is also evaluated on an ongoing basis.

The Group assesses on a forward-looking basis the expected credit losses associated with its loans receivable. Over the term of the loans, the Group accounts for its credit risk by appropriately providing for ECLs on a timely basis. In calculating the expected credit loss rates, the Group considers the payment history for each category of counterparty, and adjusts for forward-looking macroeconomic data. The Group uses three main parameters to measure ECL on loans receivable carried at amortised cost. These are the probability of default (PD), loss given default (LGD), and exposure at default (EAD) (i.e. PD X LGD X EAD = ECL).

Measures of PD and LGD are converted from Through The Cycle to Point In Time measures using Moody's Analytics' ImpairmentCalc tool. These are incorporated into their GCorr macroeconomic forecast set. Based on research conducted by Moody's Analytics they recommend the use of their Baseline, Stronger Near-Term Rebound (S1) ("Bullish"), and Moderate Recession (S3) ("Bearish") forecast sets weighted 40%, 30%, 30% respectively for a forward looking adjustment. They consider both public and private South African company defaults in this research. Moody's Analytics does not disclose the specific macroeconomic variables that they have found to be best predictive of changes in credit risk in South Africa but do provide indicators of the impact of certain of their measures. The forecast GDP growth for the year to Q2 2026 ranges from -2.13% to 2.61% with the baseline at 0,90%. GDP is not the only factor that determines the extent of the adjustment but is described here to illustrate the extent of impact on the general economy that is being taken into account. The methodology considers the industry of the asset and includes in the calculations likely volatility of that industry to the average impact of the South African economy.

Where the counterparty is a property investment company, the LGD is calculated taking into account the value of the property and the application of a haircut to take into account the recovery rates typically achieved by the South African banking industry for the relevant property class, by applying a 90% and 85% break-up value to retail and office properties respectively, except when the expected credit loss has been assessed on a judgemental basis.

A summary of the assumptions underpinning the Group's expected credit loss model is as follows:

Category	Definition of category	Basis for recognition of ECL allowance
Performing	Loans whose credit risk is in line with original expectations	12 month ECL is applied
Underperforming	Loans for which a significant increase in credit risk has occurred compared to original expectations; a significant increase in credit risk is presumed if interest and/or principal payments are 30 days past due	Lifetime ECLs (stage 2)
Non-performing (credit-impaired)	Interest and/or principal repayments are 90 days past due or it becomes probable a customer will enter bankruptcy	Lifetime ECLs (stage 3)
Write-off	Interest and/or principal repayments are 120 days past due and there is no reasonable expectation of recovery	Asset is written-off

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

21. RISK (continued)

Credit Risk (continued)

Trade receivables

Credit risk arising on trade receivables is managed by making use of credit approvals, limits and monitoring. The Group only deals with reputable counterparties with consistent payment histories. Each counterparty is assessed individually for creditworthiness before terms and conditions are offered, which involves making use of information submitted by the counterparties as well as external bureau data (where available). The exposure to credit risk and the creditworthiness of counterparties is continuously monitored.

Net remeasurement of loss allowances	**(11 870)**	(12 704)
Closing balance	**(29 635)**	(38 432)

Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying businesses, Group treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The Group's risk to liquidity is a result of the funds available to cover future commitments. The Group manages liquidity risk through an ongoing review of future commitments and credit facilities.

The Group mitigates its liquidity risk by effectively managing its working capital, capital expenditure and cash flows. Committed borrowing facilities are available for meeting liquidity requirements and the Group manages the liquidity risk through an ongoing review of commitments and credit facilities.

The fair value of the derivative financial instruments fluctuates in line with interest rate movements. This value will reduce to nil on expiry date.

Market Risk

Interest rate risk management

The Group's exposure to interest rates on financial instruments and borrowings at the reporting date is set out in note 9 and note 15.

The Group is exposed to interest rate risk on financial liabilities at amortised cost. Interest rates on all financial liabilities compare favourably with those rates available in the market. Interest rates are constantly monitored and appropriate steps are taken to ensure that the Group's exposure to interest rate fluctuations is limited. Interest rates have been fixed for extended periods ranging from 2026 to 2030. Risk exposure as a result of interest rates is moderate and is mitigated by a surplus of cash across the Group. The combined debt of the Group is managed at an investment level and monitored at a Group level. Debt facilities are managed with reference to the underlying risk of the relative segment and the Group's overall risk policies. An increase in the base interest rates of 1% per annum would result in an increase in interest payable, in respect of the floating portion of the Group's debt which would reduce profit for the period by R15.49m (2025: R39.43m). A decrease in the base interest rate of 1 % per annum would result in a decrease in interest payable, in respect of the floating portion of the Group's debt, which would increase profit for the period by R14.89m (2025: R39.12m).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

21. RISK (continued)

Market Risk (continued)

Johannesburg Interbank Average Rate (JIBAR)

The South African Reserve Bank has announced the transition from the Johannesburg Interbank Average Rate (“JIBAR”) to the South African Rand Overnight Index Average (“ZARONIA”), with JIBAR to be permanently discontinued after its final publication on 31 December 2026. All of the Group’s borrowings and interest rate derivatives that are currently linked to JIBAR will be impacted by the benchmark reform.

Certain loan agreements do not currently contain provisions addressing the transition and will require renegotiation or amendment with lenders. Management continues to engage with the Group’s lenders and monitor market developments relating to the transition to ZARONIA, including developments in the derivatives and cash markets and the expected commencement of active transition during the 2026 calendar year.

The Group expects to apply the practical expedients available for modifications arising directly from the benchmark reform that are economically equivalent. For financial instruments measured at amortised cost, contractual changes that are solely a consequence of replacing JIBAR with ZARONIA will be treated as a modification without derecognition. Accordingly, the effective interest rate will be updated, and no immediate gain or loss is expected to arise on transition, provided the criteria in IFRS 9 are met.

The Group continues to monitor the progress of the transition and assess the impact on its risk management strategy and financial instruments.

Foreign currency risk management

The Group’s exposure to exchange rate fluctuations arose through its equity-accounted investments into companies which hold European and USA domiciled properties. The investments are denominated in foreign currency and translated to the spot rate at each reporting date. Forward exchange contract derivatives are acquired over the Group’s USA investments held by Emira to limit exposure to currency fluctuations with respect to future dividends and interest receivable from these investments. Exchange rate fluctuations on US assets are considered to be insignificant due to the Group being fully hedged on its USD exposure.

The Group has entered into cross-currency interest-rate swaps (“CCIRS”), in respect of the debt funding of its equity investments into the USA. Under the terms of the CCIRS, the Group pays USD fixed interest and receives ZAR floating interest. These cross-currency interest-rate swaps are effectively USD loans with a ZAR deposit. The Fund aims to synthetically convert at least 50% of the ZAR debt funding relating to its US investments into USD debt funding using CCIRS. By effectively matching a portion of the currency of the funding with that of the investment, a proportion of the capital related USD/ZAR currency risk movements, are eliminated.

As at reporting date, the Group had USD CCIRS interest-rate swaps of USD9.6m (2025: USD51.6m) in place against USD assets of USD77.8m (2025: USD145.4m). The USD CCIRS have a weighted average duration to expiry of 0.8 years and mature in January 2027. The Groups effective EUR denominated debt through hard currency EUR debt and EUR CCIRS was EUR90.0m (2025: EUR 90.0m) against EUR investments valued at EUR176.8m (2025: EUR171.2m). The EUR CCIRS and EUR debt have a combined weighted average duration to expiry of 3.2 years, and mature between September 2027 and March 2030.

At the reporting date, the Group performed a sensitivity analysis to assess the potential impact of changes in foreign exchange rates on the Group’s profit before tax and equity. This analysis considers a hypothetical weakening of the ZAR against the USD and EUR by R1.00, with all other variables held constant, and would impact the Group as follows:

Figures in R’000	**31 March 2026**	**31 March 2025**

22. MEASUREMENTS OF FAIR VALUE

The Group is required to disclose for each class of financial instruments and investment property measured at fair value the level in the fair value hierarchy into which the fair value measurements are categorised in their entirety. The fair value hierarchy reflects the significance of the inputs used in making fair value measurements. The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety shall be determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

For fair value hierarchy level definitions, refer to note 2.

Financial instruments

The financial assets and liabilities measured at fair value are included into the fair value hierarchy as follows:

		31 March 2026				31 March 2025

Net fair value		**–**	**134 664**	**3 338 751**	**3 473 415**	464 389	(94 430)	3 394 994	3 764 953

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period, except for the Inani B preference share investment and the Inani underwrite derivative liabilities entered into during the reporting period.

Derivative financial instruments

The fair values of the interest-rate swap contracts are determined using discounted cash flow projections based on estimates of future cash flows and the terms of the relevant swap agreements. Cash flows are projected using a zero coupon ZAR swap curve, and are discounted on an uncollateralised basis.

The fair values of the cross-currency interest-rate swap contracts are valued by discounting the future cash flows using the basis swap curve of the respective currencies at the dates when the cash flows will take place.

The USD forward exchange contracts are valued by discounting the forward rates applied at the period date to the open hedged positions.

De-gearing and disposal underwriting arrangements

During the reporting period, the Group entered into de-gearing and disposal underwriting arrangements with Inani. The valuation reflects the combined effect of both the de-gearing and disposal underwrites as a single derivative instrument, refer to note 2.16.

Valuation approach:

The fair value of the de-gearing and disposal underwriting arrangements was determined using an income approach, applying a probability-weighted expected present value technique.

Expected future cash outflows are estimated based on the value of the underlying properties at the respective exercise dates (24 December 2028 and 24 December 2029) and discounted to present value using a market-related discount rate.

Property values are based on independent third-party valuations using discounted cash flow models. A range of outcomes is considered using scenario analysis, comprising a base case (50%), a downside case (25%) and an upside case (25%) scenario.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

22. MEASUREMENTS OF FAIR VALUE (continued)

De-gearing and disposal underwriting arrangements (continued)

Due to the use of significant unobservable inputs in determining the fair value of the underwrite obligations, the fair value measurement is classified as a level 3 fair value measurement.

Financial instrument	Valuation technique	Inputs	Unobservable inputs	Relationship to fair value
De-gearing and disposal underwriting arrangement – Inani	Probability-weighted expected present value technique (Level 3)	Property values* Discount rate Scenario weighting	Expected property values at exercise dates	A 25bps increase in property values decreases the fair value of the derivative by R0.7m and vice versa.
			Scenario probabilities	Increased weighting to downside scenarios increases the fair value of the derivative by R3.2m and vice versa.
			Risk-adjusted discount rate	A 100bps increase in the discount rate decreases the fair value of the derivative by R1.3m and vice versa.

* *Property values are determined by an independent valuer using discounted cash flow models incorporating market rentals, growth rates, vacancy levels and operating costs.*

The key assumptions in determining the valuation are:

- Independent property valuations are representative of expected market values at each of the exercise dates, being 24 December 2028 in terms of the de-gearing underwrite and 24 December 2029 in terms of the disposal underwrite;
- Scenario weighted probability outcome of 50% (base), 25% (downside) and 25% (upside) are appropriate;
- The discount rate reflects current market conditions and risks specific to the obligation and credit risk of the Group; and
- Regulatory and market conditions are assumed to remain stable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

22. MEASUREMENTS OF FAIR VALUE (continued)

Cash flow underwriting arrangements

Valuation approach:

The fair value of the cash flow underwriting arrangement was determined using an income approach, applying a expected present value technique. Expected future cash outflows are estimated based on forecast cash flow shortfalls of Inani over the term of the arrangement (ending 24 December 2029), taking into account net operating income, capital expenditure, administrative costs and financing obligations, including interest on Inani's senior debt facility and A preference shares. These expected cash outflows are discounted to present value using a market-related discount rate.

Due to the use of significant unobservable inputs in determining the fair value of the liability, the fair value measurement is classified as a level 3 fair value measurement.

Financial instrument	Valuation technique	Inputs	Unobservable inputs	Relationship of unobservable inputs to fair value
Cash flow underwriting arrangement – Inani	Discounted cash flow (Level 3)	Discount rate Term of arrangement Contractual funding structure	Forecast cash flow shortfalls Forecast rental income, operational expenses, bad debts and capital expenditure requirements	A 10% increase/(decrease) in forecast net cash flow shortfalls (including lower rental income, higher expenses or capex) would increase/(decrease) the fair value of the of the derivative by R7.6m.
			Interest rates on Inani's senior debt and A preference shares credit risk premium	A 100bps increase/(decrease) in the discount rate would decrease/(increase) the fair value of the liability by R0.9m. A 100bps increase/(decrease) in interest rates on the senior debt and A Preference share funding would increase/(decrease) the fair value of the derivative by R7.3m.
			Credit risk premium	A 100bps increase/(decrease) in credit risk would increase/(decrease) the fair value of the derivative by R1.0m.

The key assumptions in determining the valuation are:

- Forecast net operating income is based on contractual leases, expected renewals/relets and vacancy assumptions.
- Property expenses and administrative costs are based on existing agreements and anticipated escalation rates.
- Capital expenditure is based on property condition assessments and leasing assumptions.
- Interest and coupon payments are based on forward-looking market interest rate assumptions.
- The valuation period aligns to the contractual term of the agreed underwrite period (ending 24 December 2029).
- B preference shares issued in respect of the underwrite are assumed to have negligible value due to their subordination and dependence on future cash flows.
- The discount rate reflects current market conditions and risks specific to the obligation and credit risk; and
- Inani is assumed to continue as a going concern with no significant changes in market or regulatory conditions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

22. MEASUREMENTS OF FAIR VALUE (continued)

Investments at fair value

Investment in Inani B preference shares

The fair value of the B preference shares is determined with reference to the underlying equity value of Inani.

This includes, but is not limited to:

- The fair value of the underlying properties;
- Amounts due to Inani's senior lender; and
- The forecast net cash generated from operations, less interest and coupon payments in respect of Inani's senior debt facility and A preference shares.

Given the priority of payments to senior funding providers, the cash flows available to the B preference shareholders are expected to be nil.

The valuation is classified as a level 3 fair value measurement due to the use of significant unobservable inputs.

DL Invest Group S.A.

The investment in DL Invest, comprises a combination of redeemable class B ordinary shares and 9% unsecured linked loan notes (together, the "Linked Units"). For further information on the nature of the investment, refer to note 7.

Valuation approach:

The fair value of the DL Invest Linked Units was determined by an independent valuation expert, by applying methods consistent with generally accepted valuation practices. Considering the non-complex nature of the investment, an income approach was used as the valuation methodology for the Linked Units.

Under the income approach the estimated future cash flows from the Linked Units have been discounted back to their present value using an appropriate discount rate, which reflects the time value of money and current market risks. Forecasted cash flows linked to the target return are straightforward to anticipate, with the sole variable being the annual growth rate, which is HICP but capped between 2% and 4%. Similarly, the redemption value of the investment is largely predetermined, with the only uncertainty being the annual growth rate applied thereto, but also limited to a range of 2% to 4%. A growth rate of 2.4% (2025: 2.9%) has been applied to the forecast contractual target return cash flows, as well as to the agreed forecast redemption value. The rate of 2.4% (2025: 2.9%) is based on the 3-year historic average HICP rate, which was adjusted down by 0.4% due to the expectation that inflation should trend downwards post the recent period of abnormally high inflation, while also considering potential upward inflationary pressure arising from US tariffs, geopolitical conflict and oil supply shortages.

Due to the use of significant unobservable inputs in determining the fair value of the investment, the fair value measurement is classified as a Level 3 fair value measurement.

In determining the fair value, the procedures include the review of forecasts and historical financials, a reconciliation of management representations with supporting documents and an analysis of relevant public disclosures and peer comparisons to determine an independent valuation.

Financial instrument	Valuation technique	Inputs	Unobservable inputs	Relationship of unobservable inputs to fair value
Investment in DL Invest Group S.A.	Discounted cash flow (Level 3)	HICP escalation Discount rate* Forecast cash flows**	Expected cash inflows subject to HICP	A change of 50bps to the HICP, would directly influence future cash flows, and as a result the fair value would increase by R63.2m (EUR3.2m), or would decrease fair value by R62.3m (EUR3.2m)
			Risk-adjusted discount rate (credit risk premium rate)	A change in the discount rate by 50bps would increase fair value by R52.6m (EUR 2.7m), or would decrease fair value by R51.6m (EUR2.6m)

* *The discount rate is determined based on several components: the risk-free rate, represented by the yield on a 4-year Polish government bond; the beta coefficient, which reflects the 5-year average levered beta for Polish real estate companies listed on the Warsaw Stock Exchange as at the reporting date; as extracted from Bloomberg; the equity risk premium applicable to Poland, published by the New York University's Stern School of Business, an internationally recognised source of country equity risk premiums; and a credit risk premium adjustment to factor in the credit risk associated with DL Invest, a private real estate group, whose portfolio is predominantly underpinned by EUR-denominated long-term leases with large international and national tenants and large listed tenants. The discount rate applied is 7.2% (2025: 7.9%).*

** *The expected cash flow forecast is performed over a period of 4 years, being the remaining contractual investment horizon period.*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

22. MEASUREMENTS OF FAIR VALUE (continued)

DL Invest Group S.A. (continued)

The key assumptions in determining the valuation are:

- The valuation assumes that Emira will exercise its redemption option on the investment horizon date, based on its stated intention at inception and reaffirmed as at reporting date;
- The redemption amount will approximate fair value as at closing date, adjusted by a target dividend return and the settlement of principal and interest on Linked Loan Notes;
- HICP is assumed to grow at an average of 2.4% (2025: 2.9%);
- DL Invest Group is a going concern, with no material legal or regulatory disputes;
- No unforeseen regulatory, operational, or strategic changes are assumed that would alter Emira's economic incentives or ability to exercise the redemption option; and
- Regulatory and market conditions are assumed to remain stable.

Non-financial assets

The non-financial assets measured at fair value are grouped into the fair value hierarchy as follows:

Figures in R'000	Notes	31 March 2026	31 March 2025
Assets		**Level 3**	Level 3
Investment property	5	**8 841 062**	10 260 428
Assets held for sale	5, 6	**1 433 346**	889 181

Fair value measurement of investment property

The valuers used by the Group are registered valuers in terms of section 19 of the Property Valuers Profession Act (Act No. 47 of 2000). The assumptions applied by the valuers are materially consistent with prior reporting periods. The following valuers were used:

Valuer	Company	Qualifications
J Stow	Spectrum Valuations and Asset Solutions (Pty) Ltd	NDip Real Estate (Prop Val), professional associated valuer
P O'Connell	Spectrum Valuations and Asset Solutions (Pty) Ltd	NDip Real Estate (Prop Val), professional valuer and chartered surveyor
J Hattingh	Spectrum Valuations and Asset Solutions (Pty) Ltd	NDip Real Estate (Prop Val), professional valuer
TLJ Behrens	Real Insight (Pty) Ltd	NDip (Prop Val), MIV (SA) professional associate valuer
JC Nagiah	Real Insight (Pty) Ltd	NDip Real Estate (Prop Val), candidate valuer
T Behrens	Real Insight (Pty) Ltd	NDip Real Estate (Prop Val), candidate valuer
R Scott Collins	Yield Enhancement Solutions	NDip Real Estate (Prop Val), professional valuer

Direct Property Portfolio

The fair value of commercial property in the direct segment portfolio is estimated using the net income capitalisation method of valuation. This method determines the net normalised annual income of the property, assuming the property is fully let at market related rentals, and market escalations, with an allowance made for vacancies (where applicable). The capitalisation rate is determined from the market (i.e. the rate at which similar assets have traded recently), and is influenced in general by: rates of return of similar properties, risk, obsolescence, inflation, market rental growth rates, rates of return on other investments, as well as mortgage rates.

The most significant inputs, all of which are unobservable, are the estimated rental value, assumptions regarding vacancy levels and the capitalisation rate. The estimated fair value increases if the estimated rentals increase, vacancy levels decline or if capitalisation rates decline. The overall valuations are sensitive to all three inputs.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

22. MEASUREMENTS OF FAIR VALUE (continued)

Direct Property Portfolio (continued)

The inputs used in the valuations at reporting date were as follows:

	CPT	Other
DIRECT RETAIL		
Capitalisation rates (%)	**8.00 – 9.25%**	**9.00 – 9.25%**
Vacancy allowance	**1.00 – 4.00%**	**3.00 – 5.00%**
Market rental escalations	**4.00 – 8.50%**	**4.00 – 7.00%**

Listed commercial property portfolio, held through Emira:

The fair value of commercial buildings is estimated using a five-year discounted cash flow approach, which discounts the estimated rental income stream, net of projected operating costs, as well as an exit value, using a discount rate derived from market yields. The estimated rental stream considers current occupancy levels, estimates of future vacancy levels, the terms of in-place leases and expectations of rentals from future leases over the remaining economic life of the buildings.

The most significant inputs, all of which are unobservable, are the estimated rental value, assumptions regarding vacancy levels, the discount rate and the reversionary capitalisation rate. The estimated fair value increases if the estimated rentals increase, vacancy levels decline or if discount rates (market yields) and reversionary capitalisation rates decline. The overall valuations are sensitive to all four assumptions. Management considers the range of reasonably possible alternative assumptions to be greatest for reversionary capitalisation rates, rental values, and vacancy levels and that there is also an interrelationship between these inputs. The inputs used in the valuations as at the reporting date were the following:

- The range of the reversionary capitalisation rates applied to the portfolio are between 7.50% and 11.75% with the weighted average, by value, being 8.83% (2025: 8.87%).
- The range of discount rates applied were between 12.25% and 14.50% with the weighted average, by value, being 13.06% (2025: 13.18%).
- The market rentals applied play a significant role and these are assessed on a property-by-property basis, taking cognisance of location, quality, size and type as well as all the relevant and prevailing market conditions, which are then benchmarked against research and asset manager projections.
- The range of market rental escalations applied to the portfolio are between 5.06% and 8.12% with the weighted average, by value, being 6.27% (2025: 6.28%).
- The range of void periods applied to the portfolio are between 0 months and 6 months with the weighted average, by value, being 1.6 months (2025: 1.4 months).
- The range of perpetual vacancy applied to the portfolio is between 1.0% and 10.0% with the weighted average, by value, being 3.5% (2025: 3.9%).

Changes in discount rates and reversionary capitalisation rates attributable to changes in market conditions can have a significant impact on commercial property valuations. A 25 basis points increase in the discount rate will decrease the value of investment property by R73.7m (-1.08%) (2025: R71.5m (-0.90%)) and a 25 basis points decrease will increase the value of investment property by R65.1m (0.95%) (2025: R59,1m (0,74%)). A 25 basis points decrease in the reversionary capitalisation rate will increase the value of investment property by R130.4m (1.91%) (2025: R139.9m (1.76%)) and a 25 basis points increase will decrease the value of investment property by R124.0m (-1.81%) (2025: R140.1m (-1.76%)). The effect of this change in valuation would affect the change in fair value of investment properties recognised in profit or loss.

The discount rates used by the valuers are a function of the long bond rate adjusted for property specific and sector risk premiums. The discount rate is then tested for reasonableness by benchmarking the rate against recent comparable sales and published research reports from SAPOA as well as surveys and opinions from other industry bodies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

22. MEASUREMENTS OF FAIR VALUE (continued)

Listed commercial property portfolio, held through Emira: (continued)

The valuation inputs vary, not only according to sector, but also in terms of grade and geographic location. Accordingly, the weighted average inputs of the Group have been disaggregated as follows:

	JHB	PTA	CPT	Other	Total 31 March 2026	Total 31 March 2025

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

22. MEASUREMENTS OF FAIR VALUE (continued)

Listed commercial property portfolio, held through Emira: (continued)

Further to the overall sensitivity analysis on discount rates and exit capitalisation rates, a sensitivity analysis has been performed on the top three properties (by value) for the retail, office and industrial portfolios, to show the effect on values when adjusting each of the key inputs. The results are as follows:

%	Offices	Retail	Industrial
Valuation impact if exit capitalisation rate is increased by 25bps	(1.62)	(2.13)	(1.47)
Valuation impact if exit capitalisation rate is decreased by 25bps	1.55	2.28	1.56
Valuation impact if discount rate is increased by 25bps	(1.08)	(1.21)	(0.89)
Valuation impact if discount rate is decreased by 25bps	0.94	0.97	0.91
Valuation impact if market rentals increase by 5%	5.32	5.20	4.78
Valuation impact if market rentals decrease by 5%	(5.47)	(5.17)	(4.80)
Valuation impact if rental escalation rates increase by 1%	1.01	(1.27)	(0.70)
Valuation impact if rental escalation rates decrease by 1%	(1.08)	1.35	0.77
Valuation impact if the permanent vacancy factor is increased by 2.5%	(2.71)	(2.57)	(2.15)
Valuation impact if the permanent vacancy factor is decreased by 2.5%	2.62	2.30	2.14

Residential portfolio

The fair value of the Group's residential buildings is estimated using either the income capitalisation method (for those properties where the intention is to hold them to generate net rental income) or the comparable sales method (for those properties where the intention is to dispose of them on a sectionalised basis).

Under the income capitalisation method the net contractual income to be derived from the properties for a period of one year in advance is capitalised by an applicable capitalisation rate. The expected net operating income represents net rental income per unit after the deduction of property related operating expenses, as well as vacancy and credit loss allowances. The rental growth rates used are based on current experience with actual growth achieved, but also take into account inflation over the long term and expectations thereof on rental rates. The vacancy and credit loss factors applied to the estimates of gross income take into account current market conditions. Both are a direct function of tenant behaviour and have a similar effect on revenue and tenant behaviour.

The inputs used in the residential valuations as at reporting date were as follows:

- The range of the capitalisation rates applied to the portfolio are between 8.50% and 9.00% with the weighted average, by value, being 8.85% (2025: 8.72%).
- The range of the monthly rental income applied to the portfolio are between R6 776 and R7 150 with the weighted average, by value, being R7 034 (2025: R6 379).
- The range of the rental growth rate applied to the portfolio are between 3.0% and 3.0% with the weighted average, by value, being 3.0% (2025: 2.4%).
- A weighted average vacancy factor of 1.96% (2025: 3.95%) and credit loss factor of 1.7% (2025: 1.5%) of the gross income was deducted as an allowance for rental that may not be collected as a consequence of vacancy, tenant failure or tenant refitting during the course of the coming 12 months.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

22. MEASUREMENTS OF FAIR VALUE (continued)

Residential portfolio (continued)

The valuation of investment properties are sensitive to changes in the unobservable inputs used in such valuations. The following table illustrates the sensitivity of the residential portfolio to changes in the valuation inputs:

%	Residential %
Valuation impact if income (expected NOI) is increased by 100bps	**1.56**
Valuation impact if income (expected NOI) is decreased by 100bps	**(1.56)**
Valuation impact if capitalisation rate is increased by 25bps	**(2.75)**
Valuation impact if capitalisation rate is decreased by 25bps	**2.91**
Valuation impact if growth rate is increased by 100bps	**0.88**
Valuation impact if growth rate is decreased by 100bps	**(1.06)**
Valuation impact if vacancy and credit loss factor is increased by 100bps	**(2.06)**
Valuation impact if vacancy and credit loss factor is decreased by 100bps	**1.06**

Changes in capitalisation rates attributable to changes in market conditions can have a significant impact on residential property valuations. A 25 basis points decrease in the capitalisation rate will increase the value of investment property by R10.1m (2.91%) (2025: R22.5m (2.96%)) and a 25 basis points increase will decrease the value of investment property by R9.6m (-2.75%) (2025: R21.2m (-2.79%)). The effect of this change in valuation would affect the change in fair value of investment properties recognised in profit or loss.

Fair value measurement of investment properties held for sale

The fair value of investment properties held for sale is based on the sale price agreed by the parties to the transaction.

The Group has no material contingent liabilities as at reporting period (2025: none).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

26. EVENTS AFTER THE REPORTING PERIOD

There have been no other significant events subsequent to the reporting date, other than those disclosed below.

Dividend declared and paid

A final gross dividend of 56.06140 (2025: 29.48000) cents per share was approved by the board of directors on 19 June 2026 in respect of the period ended 31 March 2026. The dividend will be paid on 27 July 2026.

Delisting of Emira shares

Subsequent to reporting date, Emira delisted 1 276 420 shares resulting the Group ownership increasing to 60.61%.

Investment in Octodec Investments Limited ("Octodec")

After the reporting date, Emira, through Freestone Property Investments Proprietary Limited, a wholly-owned subsidiary, acquired 62 862 641 ordinary shares in Octodec, representing 23.62% of the total Octodec shares in issue. The shares were acquired for an aggregate purchase consideration of R1.05bn through a combination of on-market purchases and the acquisition of shares tendered into a voluntary offer made by Emira to Octodec shareholders on 13 April 2026.

Octodec is a REIT listed on the JSE and A2X, with a diversified portfolio of 219 residential, retail, office, and industrial properties situated in the major metropolitan areas of Tshwane and Johannesburg. The portfolio, including an equity-accounted joint venture, has a lettable area of 1 451 359m² and is valued at R11.2bn.

27. GOING CONCERN

The directors believe that the Group has adequate financial resources to continue in operation for the for the 12 months subsequent to the approval of the financial statements to 30 June 2027 and accordingly the annual financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the Group is in a sound financial position and that it has access to sufficient borrowing facilities to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the Group. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the Group.

SA REIT RATIOS

The SA REIT ratios include the calculation of SA REIT Funds from Operations (FFO), Funds from operations per share (FFOPS) and other Pro-forma information (collectively referred to as "Pro-forma Financial Information"). Pro-forma Financial Information constitutes Pro-forma measures and is pro-forma financial information in terms of the JSE Listings Requirements.

Basis of preparation: Pro-forma Financial information

The Pro-forma Financial Information has been compiled to provide investors with performance metrics that are commonly used in the industry to enable direct comparison of South African Real Estate Investment Trusts. Due to its nature the Pro-forma Financial Information may not fairly present the results of operations of the Group.

The Directors are responsible for compiling the Pro-forma Financial Information on the basis of the Applicable Criteria specified in the JSE Listings Requirements, including the JSE Guidance Letter: Presentation of pro forma financial information, dated 16 February 2026.

The Pro-forma Financial Information has been prepared for illustrative purposes only and, because of its nature, may not fairly represent the Group's financial position, changes in equity, results from operations and cash flows. The underlying information used in the preparation of the Pro-forma Financial Information has been prepared using the accounting policies in place for the period ended 31 March 2026.

The independent reporting accountant's assurance report on the financial information is available on the Group's website at: https://castleview.co.za/investors/.

NOTICE OF ANNUAL GENERAL MEETING OF SHAREHOLDERS

Castleview Property Fund Limited
(Incorporated in the Republic of South Africa)
(Registration number 2017/290413/06)
JSE share code: CVW ISIN: ZAE000251633
(Approved as a REIT by the JSE)
("**Castleview**" or "**the Company**" or "**the Group**")

Notice is hereby given that the annual general meeting of shareholders of Castleview will take place at the offices of the Company, 13 Hudson Street, De Waterkant, Cape Town, 8001 on Wednesday, 26 August 2026 at 12:00 ("the annual general meeting") for the purposes of:

- presenting of the audited consolidated financial statements of the Company and the Group, including the reports of the directors, the social and ethics committee, the audit and risk committee and the report of the independent auditors, for the period ended 31 March 2026;
- transacting any other business as may be transacted at an annual general meeting of shareholders of a company, including the reappointment of the auditors and the re-election of retiring directors; and
- considering and, if deemed fit, adopting, with or without modification, the special and ordinary resolutions set out below:

Important dates	**2026**
Record date for purposes of receiving this notice:	Friday, 19 June
Last day to trade in order to be eligible to participate in and vote at the annual general meeting:	Tuesday, 11 August
Record date for purposes of voting at the meeting ("voting record date"):	Friday, 14 August
Annual general meeting held at 12:00 on:	Wednesday, 26 August
Results of annual general meeting released on SENS on:	Wednesday, 26 August

Kindly note that in terms of section 62(3)(e) of the Companies Act, No. 71 of 2008 ("the Companies Act"):

- a shareholder entitled to attend and vote at the annual general meeting is entitled to appoint a proxy to attend, participate in and vote at the meeting in the place of the shareholder;
- a proxy need not also be a shareholder of the company;
- meeting participants (including proxies) are required to provide reasonably satisfactory identification before being entitled to attend or participate in the annual general meeting; and
- the chairperson must be reasonably satisfied that the right of any person to participate in and vote (whether as a shareholder or as a proxy for a shareholder) has been reasonably verified.

Forms of identification include a valid identity document, a driver's licence or a passport.

1. ORDINARY RESOLUTION NUMBER 1: RE-ELECTION OF ASHRAF MOHAMED AS A DIRECTOR

Mr Ashraf Mohamed retires by rotation and, being eligible, offers himself for re-election as a non-executive director of the company.

"Resolved that the re-election of Mr Ashraf Mohamed as non-executive director to the company be confirmed." An abridged curriculum vitae is included on page 5 of the integrated annual report of which this notice forms part.

The Board of Directors has considered the past performance and contribution to the company of Mr Ashraf Mohamed and recommends that he be re-elected as a director of the Company.

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

2. ORDINARY RESOLUTION NUMBER 2: RE-ELECTION OF AVESH PADAYACHEE AS A DIRECTOR

Mr Avesh Padayachee retires by rotation and, being eligible, offers himself for re-election as a non-executive director of the Company.

"Resolved that the re-election of Mr Avesh Padayachee as non-executive director to the company be confirmed." An abridged curriculum vitae is included on page 5 of the integrated annual report of which this notice forms part.

The Board of Directors has considered the past performance and contribution to the company of Mr Avesh Padayachee and recommends that he be re-elected as a director of the Company.

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

NOTICE OF ANNUAL GENERAL MEETING OF SHAREHOLDERS (continued)

3. ORDINARY RESOLUTION NUMBER 3: APPOINTMENT OF KOKETSO MABE AS A DIRECTOR

"Resolved to elect as a director Mr Koketso Mabe who was appointed by the board of directors in terms of clause 27.4.1.1 of the Company's Memorandum of Incorporation on 5 December 2025 and who will cease to hold office at the end of the annual general meeting unless elected at the annual general meeting."

An abridged curriculum vitae is included on page 5 of the integrated annual report of which this notice forms part.

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

4. ORDINARY RESOLUTION NUMBERS 4.1 TO 4.3: RE-APPOINTMENT OF MEMBERS OF THE AUDIT AND RISK COMMITTEE

4.1 Ordinary resolution number 4.1

Re-appointment of Mr Gregory Bayly as a member of the audit and risk committee

"Resolved that in terms of section 94(2) of the Companies Act to appoint Mr Gregory Bayly as a member of the audit and risk committee."

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

4.2 Ordinary resolution number 4.2

Re-appointment of Mr Ashraf Mohamed as a member of the audit and risk committee

"Resolved that in terms of section 94(2) of the Companies Act, but subject to passing of resolution number 1, to appoint Mr Ashraf Mohamed as a member of the audit and risk committee."

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

4.3 Ordinary resolution number 4.3

Re-appointment of Mr Avesh Padayachee as a member of the audit and risk committee

"Resolved that in terms of section 94(2) of the Companies Act, but subject to passing of resolution number 2, to appoint Mr Avesh Padayachee as a member of the audit and risk committee."

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

5. ORDINARY RESOLUTION NUMBERS 5.1 TO 5.3: APPOINTMENT OF MEMBERS OF THE SOCIAL AND ETHICS COMMITTEE

5.1 Ordinary resolution number 5.1

Appointment of Mr James Templeton as a member of the social and ethics committee

"Resolved that in terms of section 72(9A) of the Companies Act to appoint Mr James Templeton as a member of the social and ethics risk committee."

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

5.2 Ordinary resolution number 5.2

Appointment of Mr David Green as a member of the social and ethics committee

"Resolved that in terms of section 72(9) of the Companies Act to appoint Mr David Green as a member of the social and ethics committee."

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

NOTICE OF ANNUAL GENERAL MEETING OF SHAREHOLDERS (continued)

5.3 Ordinary resolution number 5.3

Re-appointment of Mr Avesh Padayachee as a member of the social and ethics committee

"Resolved that in terms of section 94(2) of the Companies Act, but subject to passing of resolution number 2, to appoint Mr Avesh Padayachee as a member of the social and ethics committee."

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

6. ORDINARY RESOLUTION NUMBER 6: RE-APPOINTMENT OF AUDITORS

"Resolved that Moore Cape Town Inc., together with Mr Pierre Johannes Conradie, being the designated audit partner, be re-appointed as the auditors of the company."

The audit and risk committee has nominated for appointment as auditors of the company under section 90 of the Companies Act, More Cape Town Inc. In accordance with paragraph 5.7(h) of the JSE Listings Requirements, the audit and risk committee further confirms that it has assessed the suitability of the appointment of Moore Cape Town Inc. and Mr Pierre Johannes Conradie.

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

7. ORDINARY RESOLUTION NUMBER 7: GENERAL AUTHORITY TO ISSUE SHARES FOR CASH

"Resolved that the directors of the company be and are hereby authorised by way of a general authority to issue shares in the capital of the company for cash, as and when they in their discretion deem fit, subject to the Companies Act, the Memorandum of Incorporation of the company, the JSE Listings Requirements, and the following limitations, namely that:

a. the shares which are the subject of the issue for cash must be of a class already in issue, or where this is not the case, must be limited to such options, securities or rights that are convertible into a class already in issue;

b. any such issue will be made to "public shareholders" and not "related parties", as defined in the JSE Listings Requirements provided that if the company undertakes an equity raise via a bookbuild process, shares may be allotted and issued to "related parties" on the basis that such "related parties" may only participate in the equity raise at the maximum bid price at which they are prepared to take-up shares or at the book close price in accordance with the provisions contained in paragraph 7.38(b) of the JSE Listings Requirements;

c. the total aggregate number of shares which may be issued for cash in terms of this authority may not exceed 101 296 466 shares, being 10% (ten percent) of the company's issued shares as at the date of notice of this annual general meeting. Accordingly, any shares issued under this authority prior to this authority lapsing shall be deducted from the 101 296 466 shares the company is authorised to issue in terms of this authority for the purpose of determining the remaining number of shares that may be issued in terms of this authority;

d. in the event of a sub-division or consolidation of shares prior to this authority lapsing, the existing authority shall be adjusted accordingly to represent the same allocation ratio;

e. this authority shall be valid until the company's next annual general meeting, provided that it shall not extend beyond 15 (fifteen) months from the date that this authority is given;

f. an announcement containing full details of the issue, including the number of shares issued, the average discount to the weighted average traded price of the shares over the 30 (thirty) days prior to the date that the issue is agreed in writing and an explanation, including supporting documentation (if any), of the intended use of the funds will be published at the time of any issue representing, on a cumulative basis within 1 (one) financial year, 5% (five percent) of the number of shares in issue prior to the issue; and

g. in determining the price at which an issue of shares may be made in terms of this authority, the maximum discount permitted will be 10% (ten percent) of the weighted average traded price on the JSE of those shares over the 30 (thirty) business days prior to the date that the price of the issue (the "reference price") is determined or agreed to between the directors of the company and the party subscribing for the shares (the "reference period"), provided that the reference price shall be reduced by the amount of any dividend if:

   - the "ex" date for shareholders to be recorded on the share register in order to receive the relevant dividend occurs during the reference period; and/or
   - the shares to be issued shall only be issued after the "ex" date."

For the avoidance of doubt, all issues of shares for cash and all issues of options and convertible securities granted or issued for cash must, in addition to aforegoing provisions, be in accordance with the JSE Listings Requirements.

In order for ordinary resolution number 7 to be adopted, the support of more than 50% of the total number of votes exercisable by shareholders, present in person or by proxy, is required to pass this resolution in accordance with the JSE Listings Requirements.

NOTICE OF ANNUAL GENERAL MEETING OF SHAREHOLDERS (continued)

8. ORDINARY RESOLUTION NUMBER 8: SPECIFIC AUTHORITY TO ISSUE SHARES PURSUANT TO A REINVESTMENT OPTION

"Resolved that, in addition to the authority set out in ordinary resolution number 7 and subject to the provisions of the Companies Act, the company's Memorandum of Incorporation and JSE Listings Requirements, the directors be and are hereby authorised by way of a specific standing authority to allot and issue shares, as and when they deem appropriate, for the exclusive purpose of affording shareholders opportunities from time to time to elect to reinvest their distributions in new shares of the company pursuant to a reinvestment option."

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

9. ORDINARY RESOLUTION NUMBER 9: SHARE REPURCHASES

"Resolved as a ordinary resolution that the company or any of its subsidiaries be and are hereby authorised by way of a general authority to acquire shares issued by the company, in terms of sections 46 and 48 of the Companies Act and in terms of the JSE Listings Requirements being that:

a. any acquisition of shares shall be implemented through the order book of the JSE and without prior arrangement between the company and the counterparty;

b. this general authority shall be valid until the company's next annual general meeting, provided that it shall not extend beyond 15 months from the date of passing this ordinary resolution;

c. the company (or any subsidiary) is duly authorised by its Memorandum of Incorporation to do so;

d. acquisitions of shares in the aggregate in any one financial year may not exceed 10% of the company's issued ordinary share capital as at the date of passing this ordinary resolution;

e. in determining the price at which shares issued by the company are acquired by it or any of its subsidiaries in terms of this general authority, the maximum premium at which such shares may be acquired will be 10% of the weighted average of the market value on the JSE over the five business days immediately preceding the repurchase of such shares;

f. at any point in time the company (or any subsidiary) may appoint only one agent to effect repurchases on its behalf;

g. repurchases may not take place during a prohibited period (as defined in the JSE Listings Requirements) unless a repurchase programme is in place (where the dates and quantities of shares to be repurchased during the prohibited period are fixed) and has been submitted in writing to the JSE prior to the commencement of the prohibited period;

h. an announcement will be published as soon as the company or any of its subsidiaries have acquired shares constituting, on a cumulative basis, 3% of the number of shares in issue prior to the acquisition pursuant to which the aforesaid threshold is reached and for each 3% in aggregate acquired thereafter, containing full details of such acquisitions; and

i. the board of directors of the company must resolve that the repurchase is authorised, the company and its subsidiaries have passed the solvency and liquidity test, as set out in section 4 of the Companies Act, and since that test was performed, there have been no material changes to the financial position of the group."

In accordance with the JSE Listings Requirements, the directors record that although there is no immediate intention to effect a repurchase of the shares of the company, the directors will utilise this general authority to repurchase shares as and when suitable opportunities present themselves, which may require expeditious and immediate action. The directors undertake that, after considering the maximum number of shares that may be repurchased and the price at which the repurchases may take place pursuant to the share repurchase general authority, for a period of 12 months after the date of notice of this annual general meeting:

- the company and the group will, in the ordinary course of business, be able to pay its debts;
- the consolidated assets of the company and the group fairly valued in accordance with IFRS® Accounting Standards, will exceed the consolidated liabilities of the company and the group fairly valued in accordance with IFRS® Accounting Standards; and
- the company's and the group's share capital, reserves and working capital will be adequate for ordinary business purposes.

NOTICE OF ANNUAL GENERAL MEETING OF SHAREHOLDERS (continued)

The following additional information, some of which may appear elsewhere in the integrated annual report of which this notice forms part, is provided in terms of paragraph 11.26 of the JSE Requirements for purposes of this general authority:

Major beneficial shareholders – page 131.

Capital structure of the company – page 81 (note 13).

Directors' responsibility statement

The directors whose names appear on page of the integrated annual report of which this notice forms part, collectively and individually accept full responsibility for the accuracy of the information pertaining to this ordinary resolution and certify that, to the best of their knowledge and belief, there are no facts that have been omitted which would make any statement false or misleading, and that all reasonable enquiries to ascertain such facts have been made and that the special resolution contains all information required by the Companies Act and the JSE Listings Requirements.

Material changes

Other than the facts and developments reported on in the integrated annual report of which this notice forms part, there have been no material changes in the affairs or financial position of the company and its subsidiaries since the date of signature of the audit report for the financial period ended 31 March 2026 and up to the date of this notice.

Reason for and effect of ordinary resolution number 9

The reason for and effect of ordinary resolution number 9 is to afford the directors of the company (or a subsidiary of the company) general authority to effect a repurchase of the company's shares on the JSE.

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

10. ORDINARY RESOLUTION NUMBER 10: APPROVAL OF THE REMUNERATION POLICY

"Resolved that in accordance with section 30A of the Companies Act, the remuneration policy of the Company, as set out on page 16 of the 2026 Integrated Report, be approved."

Additional information in respect of ordinary resolution number 10

In terms of section 30A of the Companies Act, Castleview is required to obtain shareholder approval for its remuneration policy by way of ordinary resolution. If received, such approval is effective for three years, unless any material amendments are made to the remuneration policy, in which case shareholder approval must again be obtained. This binding ordinary resolution replaces the former non-binding advisory vote.

11. ORDINARY RESOLUTION NUMBER 11: APPROVAL OF THE REMUNERATION REPORT

"Resolved that in accordance with section 30B of the Companies Act, the remuneration report of the Company, as set out on page 16 of the 2026 Integrated Report, be approved."

Additional information in respect of ordinary resolution number 11

In terms of section 30B of the Companies Act, Castleview is required to obtain shareholder approval for its remuneration report by way of ordinary resolution. If the remuneration report is not approved by shareholders, the Remuneration Committee must deal with the matter as prescribed by section 30B of the Companies Act. This binding ordinary resolution replaces the former non-binding advisory vote.

NOTICE OF ANNUAL GENERAL MEETING OF SHAREHOLDERS (continued)

12. SPECIAL RESOLUTION NUMBER 1: FINANCIAL ASSISTANCE FOR THE SUBSCRIPTION AND/OR PURCHASE OF SECURITIES IN THE COMPANY OR IN RELATED OR INTERRELATED COMPANIES

"Resolved that, to the extent required by section 44(3)(a)(ii) of the Companies Act of South Africa (Act 71 of 2008), the board of directors may, subject to compliance with the requirements of the company's Memorandum of Incorporation, the Companies Act and the JSE Requirements, each as presently constituted and as amended from time to time, authorise the company to provide direct or indirect financial assistance in terms of section 45 of the Companies Act by way of loans, guarantees, the provision of security or otherwise, to any related or inter-related company of the company ("related" and "inter-related" will herein have the meanings attributed to them in section 2 of the Companies Act) and/or to any financier of the company or any of its related or inter-related companies for the purpose, or in connection with, the subscription of any option or any securities, issued or to be issued by the company or a related or inter-related company of the company, or for the purchase of any securities of the company or a related or interrelated company of the company, on the terms and conditions and for the amounts that the Board may determine, such authority to endure for two years from the adoption of this special resolution."

Reason for and effect of special resolution number 1

The reason and effect for the special resolution number 1 is to authorise and grant the company to provide financial assistance to its related and inter-related companies and/or the financiers of the group for the purposes of the subscription of options and/or securities issued or to be issued by the company or its related or inter-related companies, or for the purchase of any securities of the company or its related or inter-related companies, to fund the activities of the group.

This resolution will require the support of at least 75% of the voting rights exercised on it in order for it to be adopted.

13. SPECIAL RESOLUTION NUMBER 2: FINANCIAL ASSISTANCE TO RELATED OR INTERRELATED COMPANIES

"Resolved as a special resolution that, to the extent required by section 45 of the Companies Act, the board of directors of the company may, subject to compliance with the requirements of the company's Memorandum of Incorporation, the Companies Act and the JSE Listings Requirements, each as presently constituted and as amended from time to time, authorise the company to provide direct or indirect financial assistance in terms of section 45 of the Companies Act by way of loans, guarantees, the provision of security or otherwise, to any other company or corporation that is or becomes related or inter-related (as defined in the Companies Act) to the company for any purpose or in connection with any matter, such authority to endure until the next annual general meeting of the company."

Reason for and effect of special resolution number 2

The reason and effect of special resolution number 2 is to grant the board of directors the authority to authorise the company to provide financial assistance as contemplated in section 45 of the Companies Act to a related or inter-related company or corporation.

The resolution is intended mainly to enable the company to authorise financial assistance to related parties.

This resolution will require the support of at least 75% of the voting rights exercised on it in order for it to be adopted.

14. SPECIAL RESOLUTION NUMBER 3: APPROVAL OF NON-EXECUTIVE DIRECTORS' FEES

"Resolved, as a special resolution, that the fees payable by the company to non-executive directors for their services as directors (in terms of section 66 of the Companies Act be and are hereby approved with effect from 1 April 2026 for a period of two years from the passing of this resolution or until its renewal, whichever is the earliest, as follows:

3.1	Chairman of the board	R583 028 per annum
3.2	Member of the board	R372 019 per annum
3.3	Chairman of ARC	R115 357 per annum
3.4	Member of the ARC	R73 073 per annum
3.5	Chairman of Remcom	R66 915 per annum
3.6	Member of the Remcom	R42 284 per annum
3.7	Chairman of Investcom	R84 978 per annum
3.8	Member of the Investcom	R61 579 per annum
3.9	Member of the SEC	R32 842 per annum

Above amounts exclude VAT payable where applicable.

This resolution will require the support of at least 75% of the voting rights exercised on it in order for it to be adopted.

NOTICE OF ANNUAL GENERAL MEETING OF SHAREHOLDERS (continued)

15. ORDINARY RESOLUTION NUMBER 12: SIGNATURE OF DOCUMENTATION

"Resolved that any director of the company or the company secretary be and is hereby authorised to sign all such documentation and do all such things as may be necessary for or incidental to the implementation of ordinary resolutions number 1 to 11, and special resolutions number 1 to 3 which are passed by the shareholders."

This resolution will require the support of more than 50% of the voting rights exercised on it in order for it to be adopted.

Voting and proxies

Any person attending or participating in the annual general meeting must present reasonably satisfactory identification and the person presiding at the annual general meeting must be reasonably satisfied that the right of any person to participate in and vote (whether as a shareholder/as a proxy for a shareholder) has been reasonably verified.

A shareholder of the company entitled to attend, speak and vote at the annual general meeting is entitled to appoint a proxy or proxies to attend, speak and to vote in his stead. The proxy need not be a shareholder of the company.

On a show of hands, every shareholder of the company present in person or represented by proxy shall have one vote only.

On a poll, every shareholder of the company present in person or represented by proxy shall have one vote for every share in the company held by such shareholder.

A form of proxy is enclosed for the convenience of certificated and own name dematerialised shareholders holding shares in the company who cannot attend the annual general meeting but wish to be represented thereat.

Such shareholders are requested to complete and return the attached form of proxy and lodge it with the Transfer Secretaries of the company, JSE Investor Services Proprietary Limited, 5th Floor, One Exchange Square, 2 Gwen Lane, Sandown, 2196 (PO Box 4844, Johannesburg, 2000) or by email to meetfax@jseinvestorservices.co.za, at least 48 hours prior to the date of the annual general meeting in order to allow for processing of the proxy forms. Alternatively, the form of proxy may be handed to the chairperson of the annual general meeting or the transfer secretaries present at the annual general meeting, prior to voting on any resolution proposed at the annual general meeting. Any shareholder who completes and lodges a form of proxy will nevertheless be entitled to attend and vote in person at the annual general meeting should the shareholder subsequently decide to do so.

Dematerialised shareholders who have not elected own name registration in the sub-register of the company through a Central Securities Depository Participant ("CSDP") and who wish to attend the annual general meeting, must instruct the CSDP or broker to provide them with the necessary authority to attend.

Dematerialised shareholders who have not elected "own name" registration in the sub-register of the company through a CSDP and who are unable to attend, but wish to vote at the annual general meeting, must timeously provide their CSDP or broker with their voting instructions in terms of the custody agreement entered into between that shareholder and the CSDP or broker. Such shareholders are advised that they must provide their CSDP or broker with separate voting instructions in respect of their shares.

NOTICE OF ANNUAL GENERAL MEETING OF SHAREHOLDERS (continued)

Electronic participation

The company has made provision for shareholders or their proxies to participate electronically in the annual general meeting by way of telephone conferencing. Should you wish to participate in the annual general meeting by telephone conference call as aforesaid, you, or your proxy, will be required to advise the company thereof by no later than 10:00 on the day of the meeting by submitting via email to the Company Secretary at alun@statucor.co.za or faxed to +27 21 460 6336, for the attention of Alun Rich, with the relevant contact details, including:

- an email address;
- cellphone number and landline; and
- full details of the shareholder's title to securities issued by the company and proof of identity;
  - for certificated ordinary shares – copies of identity documents and share certificates; and
  - for dematerialised ordinary shares – written confirmation from the shareholder's CSDP confirming the shareholder's title to the dematerialised ordinary shares.

Upon receipt of the required information, the shareholder concerned will be provided with a secure code and instructions to access the electronic communication during the annual general meeting. Shareholders must note that access to the electronic communication will be at the expense of the shareholders who wish to utilise the facility. Shareholders and their appointed proxies attending by conference call will not be able to cast their votes at the annual general meeting through this medium.

Forms of proxy may also be obtained on request from the company's registered office.

By order of the board of directors

A shareholder entitled to attend and vote at the annual general meeting is entitled to appoint a proxy to attend, vote and speak in his/her stead. A proxy need not be a member of the company. Each shareholder is entitled to appoint one or more proxies to attend, speak and, on a poll, vote in place of that shareholder at the annual general meeting.

Forms of proxy should be deposited at JSE Investor Services Proprietary Limited, 5th Floor, One Exchange Square, 2 Gwen Lane, Sandown, 2196, or posted to P O Box 4844, Johannesburg, 2000 or by email to meetfax@jseinvestorservices.co.za. Shareholders are requested to furnish such forms to the transfer secretaries at least 48 hours prior to the meeting in order to allow for processing of the proxy forms. Alternatively, the form of proxy may be handed to the transfer secretaries or the chairman of the annual general meeting at any time prior to voting on any resolution proposed at the annual general meeting.

NOTES TO THE FORM OF PROXY

Please read the notes below

1. This form of proxy is only to be completed by those ordinary shareholders who are:

   a. Holding ordinary shares in certificated form; or

   b. Recorded in the sub-register in electronic form in their "own name";

   on the voting record date in order to vote at the annual general meeting and who wish to appoint another person to represent them at the annual general meeting.

2. Certificated shareholders wishing to attend the annual general meeting have to ensure beforehand, with the transfer secretaries of the company (being JSE Investor Services Proprietary Limited), that their shares are registered in their name.

3. Beneficial shareholders whose shares are not registered in their "own name", but in the name of another, for example, a nominee, may not complete a form of proxy, unless a form of proxy is issued to them by a registered shareholder, and they should contact the registered shareholder for assistance in issuing instructions on voting their shares, or obtaining a proxy to attend, speak, and, on a poll, vote at the annual general meeting.

4. A shareholder may insert the name of a proxy or the names of two alternative proxies of the shareholder's choice in the space, with or without deleting "the chairman of the annual general meeting". The person whose name stands first on the form of proxy and who is present at the annual general meeting will be entitled to act as proxy to the exclusion of those whose names follow.

5. A shareholder's instructions to the proxy must be indicated by means of a tick or a cross in the appropriate box provided. However, if you wish to cast your votes in respect of a lesser number of shares than you own in the company, insert the number of shares in respect of which you desire to vote. If (i) a shareholder fails to comply with the above; or (ii) gives contrary instructions in relation to any matter; or any additional resolution(s) which are properly put before the meeting; or (iii) the resolution listed in the form of proxy is modified or amended, the shareholder will be deemed to authorise the chairman of the annual general meeting, if the chairman is the authorised proxy, to vote in favour of the resolutions at the annual general meeting, or any other proxy to vote or to abstain from voting at the annual general meeting as he/she deems fit, in respect of all the shareholders' votes exercisable thereat. If, however, the shareholder has provided further written instructions which accompany this form of proxy and which indicate how the proxy should vote or abstain from voting in any of the circumstances referred to in (i) to (iii) above, then the proxy shall comply with those instructions.

6. The forms of proxy should be lodged at JSE Investor Services Proprietary Limited, 5th Floor, One Exchange Square, 2 Gwen Lane, Sandown, 2196, or posted to P O Box 4844, Johannesburg, 2000 or emailed to meetfax@jseinvestorservices.co.za. Shareholders are requested to furnish such forms to the transfer secretaries at least 48 hours prior to the date of the annual general meeting in order to allow for processing of the forms of proxy. Alternatively, the form of proxy may be handed to the transfer secretaries or the chairman of the annual general meeting at any time prior to voting on any proposed resolution at the annual general meeting.

7. The completion and lodgement of this form of proxy will not preclude the relevant shareholder from attending the annual general meeting and speaking and voting in person thereat to the exclusion of any proxy appointed in terms hereof, should such shareholder wish to do so. In addition to the aforegoing, a shareholder may revoke the proxy appointment by (i) cancelling it in writing, or making a later inconsistent appointment of a proxy; and (ii) delivering a copy of the revocation instrument to the proxy, and to the company.

8. The revocation of a proxy appointment constitutes a complete and final cancellation of the proxy's authority to act on behalf of the shareholder as at the later of the date stated in the revocation instrument, if any, or the date on which the revocation instrument was delivered in the required manner.

9. The chairman of the annual general meeting may reject or accept any form of proxy which is completed and/or received, other than in compliance with these notes provided that, in respect of acceptances, he is satisfied as to the manner in which the shareholder(s) concerned wish(es) to vote.

10. Any alteration to this form of proxy, other than a deletion of alternatives, must be initialled by the signatory/ies.

11. Documentary evidence establishing the authority of a person signing this form of proxy in a representative capacity must be attached to this form of proxy unless previously recorded by the company or JSE Investor Services Proprietary Limited or waived by the chairman of the annual general meeting.

NOTES TO THE FORM OF PROXY (continued)

12. A minor must be assisted by his/her parent or guardian unless the relevant documents establishing his/her legal capacity are produced or have been registered by JSE Investor Services Proprietary Limited.
13. Where there are joint holders of shares:
    - 13.1 any one holder may sign the form of proxy; and
    - 13.2 the vote of the senior (for that purpose seniority will be determined by the order in which the names of shareholders appear in the register of members) who tenders a vote (whether in person or by proxy) will be accepted to the exclusion of the vote(s) of the other joint holder(s) of shares.
14. If duly authorised, companies and other corporate bodies who are shareholders of the company having shares registered in their own name may, instead of completing this form of proxy, appoint a representative to represent them and exercise all of their rights at the meeting by giving written notice of the appointment of that representative. This notice will not be effective at the annual general meeting unless it is accompanied by a duly certified copy of the resolution or other authority in terms of which that representative is appointed and is received JSE Investor Services Proprietary Limited, at 5th Floor, One Exchange Square, 2 Gwen Lane, Sandown, 2196, to reach the company by no later than 12:00 on Monday, 24 August 2026, or prior to the annual general meeting.
15. This form of proxy may be used at any adjournment or postponement of the annual general meeting, including any postponement due to a lack of quorum, unless withdrawn by the shareholder.
16. The aforegoing notes contain a summary of the relevant provisions of section 58 of the Companies Act, as required in terms of that section. In addition, an extract from the Companies Act reflecting the provisions of section 58 of the Companies Act, is set out below, or prior to the annual general meeting.

EXTRACT FROM THE COMPANIES ACT

"58. Shareholder right to be represented by proxy

(1) At any time, a shareholder of a company may appoint any individual, including an individual who is not a shareholder of that company, as a proxy to –
- (a) participate in, and speak and vote at, a shareholders' meeting on behalf of the shareholder; or
- (b) give or withhold written consent on behalf of the shareholder to a decision contemplated in section 60.

(2) A proxy appointment –
- (a) must be in writing, dated and signed by the shareholder; and
- (b) remains valid for –
  - (i) one year after the date on which it was signed; or
  - (ii) any longer or shorter period expressly set out in the appointment, unless it is revoked in a manner contemplated in subsection (4)(c), or expires earlier as contemplated in subsection (8)(d).

(3) Except to the extent that the Memorandum of Incorporation of a company provides otherwise –
- (a) a shareholder of that company may appoint two or more persons concurrently as proxies, and may appoint more than one proxy to exercise voting rights attached to different securities held by the shareholder;
- (b) a proxy may delegate the proxy's authority to act on behalf of the shareholder to another person, subject to any restriction set out in the instrument appointing the proxy; and
- (c) a copy of the instrument appointing a proxy must be delivered to the company, or to any other person on behalf of the company, before the proxy exercises any rights of the shareholder at a shareholders' meeting.

.

NOTES TO THE FORM OF PROXY (continued)

(4) Irrespective of the form of instrument used to appoint a proxy –

(a) the appointment is suspended at any time and to the extent that the shareholder chooses to act directly and in person in the exercise of any rights as a shareholder;

(b) the appointment is revocable unless the proxy appointment expressly states otherwise; and

(c) if the appointment is revocable, a shareholder may revoke the proxy appointment by –

(i) cancelling it in writing, or making a later inconsistent appointment of a proxy; and

(ii) delivering a copy of the revocation instrument to the proxy, and to the company.

(5) The revocation of a proxy appointment constitutes a complete and final cancellation of the proxy's authority to act on behalf of the shareholder as of the later of –

(a) the date stated in the revocation instrument, if any; or

(b) the date on which the revocation instrument was delivered as required in subsection (4)(c)(ii).

(6) If the instrument appointing a proxy or proxies has been delivered to a company, as long as that appointment remains in effect, any notice that is required by this Act or the company's Memorandum of Incorporation to be delivered by the company to the shareholder must be delivered by the company to –

(a) the shareholder; or

(b) the proxy or proxies, if the shareholder has –

(i) directed the company to do so, in writing; and

(ii) paid any reasonable fee charged by the company for doing so.

(7) A proxy is entitled to exercise, or abstain from exercising, any voting right of the shareholder without direction, except to the extent that the Memorandum of Incorporation, or the instrument appointing the proxy, provides otherwise.

(8) If a company issues an invitation to shareholders to appoint one or more persons named by the company as a proxy, or supplies a form of instrument for appointing a proxy –

(a) the invitation must be sent to every shareholder who is entitled to notice of the meeting at which the proxy is intended to be exercised;

(b) the invitation, or form of instrument supplied by the company for the purpose of appointing a proxy, must –

(i) bear a reasonably prominent summary of the rights established by this section;

(ii) contain adequate blank space, immediately preceding the name or names of any person or persons named in it, to enable a shareholder to write in the name and, if so desired, an alternative name of a proxy chosen by the shareholder; and

(iii) provide adequate space for the shareholder to indicate whether the appointed proxy is to vote in favour of or against any resolution or resolutions to be put at the meeting, or is to abstain from voting;

(c) the company must not require that the proxy appointment be made irrevocable; and

(d) the proxy appointment remains valid only until the end of the meeting at which it was intended to be used, subject to subsection (5).

(9) Subsection (8)(b) and (d) do not apply if the company merely supplies a generally available standard form of proxy appointment on request by a shareholder."
