Feedback

As integrated reporting and stakeholder needs evolve, we welcome your comments and suggestions to strengthen our reporting approach. For more information, contact us info@emediaholdings.co.za.

OUR REPORTING SUITE

Our reporting suite provides an overview of the Group's performance for the 2026 financial year. Alongside the integrated report, we publish complementary online reports covering our financial performance and governance practices. This integrated approach supports transparency, stakeholder engagement and long-term value creation.

Visit our **website** for access to the full reporting suite and related resources.

Integrated report

We provide stakeholders with a clear overview of how we create, preserve and sustain value through our business model, strategic priorities, governance practices and financial performance. We explain how our strategy supports long-term growth, resilience and sustainable value creation.

Annual financial statements

Our annual financial statements provide detailed insight into our financial performance, financial position, key performance indicators (KPIs), risk management approach and governance disclosures in line with applicable reporting standards.

Notice of Annual General Meeting

Through our Notice of Annual General Meeting (AGM), we communicate important meeting information, proposed resolutions and governance matters, together with the proxy form. This enables shareholders to participate in decision-making processes and supports transparent and effective shareholder engagement.

DIRECTORS' REPORT

Nature of business

eMedia Holdings is a media investment holding company, incorporated in South Africa and listed on the JSE under the media sector.

Operations and business

eMedia Holdings' media assets are housed in eMedia Investments. These investments are constantly reviewed and new opportunities sought to complement them.

State of affairs and profit for the period

eMedia's financial performance

The eMedia Group is happy to once again present a set of profitable results, very similar to the previous financial year. This more than satisfactory achievement was reached despite numerous and ever-changing micro and macroeconomic challenges. The current benchmark used to measure how the Group is performing against these challenges is the television advertising sales market. It is a pleasure to report that the Group outperformed the television advertising sales market on a yearly basis. The television advertising market went back 8.7% but the Group's profit decreased by only 2%. Profit from continuing operations for the year ended on R299.5 million compared to the prior year of R305.5 million. Maintaining steady performance in a declining advertising market was only possible through careful cost management as well as savings around the high-beam transponder costs, legal expenditure, content savings and the management of foreign exchange cover for the foreign content commitments.

For eMedia, an important measure of good performance is its ability to consistently declare a dividend to its shareholders. The Group is pleased to report that, once again, there will be a payment of a dividend similar to last year, being 15 cents (2025: 15 cents) per share at the close of the financial year.

Revenue and market share

The television advertising market has seen a decline year-on-year, which is a product of a tough economic climate as well as an out-of-date television audience rating panel, declining around 8.7% year-on-year; eMedia's decline was 7.4%. The market has seen consecutive monthly decreases since September 2024, partly due to a decline in TV audiences. To understand this, the Broadcast Research Council has taken a proactive step in getting a new rating agency, GfK, to take over from AC Nielsen towards the end of the new financial year. Part of the new measurement is to include all video views from broadcasters, regardless of platform. The key would be to include all linear transmissions of a channel in the measurement, regardless of the means of distribution. The first data from the new measurement agency is due towards the end of the next financial year.

The Group managed to remain the biggest broadcaster for the year under review during prime-time with a share of 32.2% compared to its competitors, one being at 29.3% and the other being at 28.8%.

e.tv

e.tv remained one of the most watched TV channels in the country in prime-time for the year. The prime-time market share has been driven by strategic scheduling, which now includes five daily soaps. The daily shows are performing well in their respective time slots. The channel has lost some audience share, however, the decrease is related to the dropping of the vernacular soap at 18:30, which received a good share but was not profitable, and keeping Kelders van Geheime, which is profitable but with a very poor share.

Management continues to hone the schedule to ensure the market share for e.tv remains above 20% in prime-time. A few exciting

changes are coming in the new financial year, with the Group replacing three of its daily shows.

Full analogue switch off, which was planned for 31 March 2025, was interdicted by e.tv's successful urgent application to court. The court found against the Minister and the Department of Communications, with the result being that the process should revert to the consulting phase before a new date can be established. A few meetings have been held with the Department to see if an agreement can be reached on a suitable switch-off plan.

eVOD

eVOD, the streaming service developed by the Group, continues to show satisfactory growth in keeping with the strategic direction that is encapsulated by the term "steady and sure". Investment in the service continues as eVOD now has over 9 000 hours of content to cater to all viewers. The viewed minutes per month and the unique users for eVOD show consistent growth on a month-on-month basis, ensuring that the business returns a profit annually. eVOD is also available on certain connected TVs. The Group is consistently looking at improving the user interaction with the app.

Openview and Multichannel

The Group's Multichannel business, made up of its Openview channels other than e.tv, has been maintaining its share of the market. The share is primarily supported by eExtra and two movie channels (eMovies and eMovies Extra). These channels are continuously in the Top 20 satellite channels in the country, six belonging to eMedia, and emphasise the strength of content curation within the Group. As a competitive offering, and one that is becoming known for great content. The performance criteria for channels are strict and ensure that Openview maintains channels that are top performers. During this year, the Group launched Star Khanya, a Zulu-dubbed Indian channel, in partnership with StarLife. The channel's average minute rating is ever improving and ended in March as one of the Top 10 satellite channels. Openview reached 3 828 286 activations at the end of the year, up from the prior year's 3 627 740.

The rest of the eMedia channels, available on multiple platforms, accounted for 34.7% of the advertising revenue, amounting to R716.8 million, up from R709.5 million in the previous year. Profitability in this unit has been maintained with content costs for the fiscal year being pegged at R377.8 million (2025: R332.4 million).

Technological advancements in broadcasting are the focus of the Group – eMedia is continuously looking to break new ground in this highly competitive and ever-evolving industry to ensure that the Group is on par with competitors and, in some instances, leading innovation in broadcasting in the local market.

eNCA

eNCA continues to be a leading and discerning voice in the ever-competitive local news landscape, despite only being on the premier bouquets on DStv. Management continues to look at new and innovative ways to create and add relevant content, as well as identify operational efficiencies within the business.

Other subsidiaries

Y, Sasani and Cape Town Film Studios have all done well during the period under review. Y managed to grow its revenue by 8% while the market only grew by 4%. The only asset that struggled during this period is Media Film Service due to the uncertainty around rebates and incentives offered to international television and film productions, very few international productions were done in South Africa. Management has continued to invest in targeted marketing initiatives, with early indicators reflecting improving performance trends.

DIRECTORS' REPORT CONTINUED

Corporate actions and acquisitions

The Group, on 12 September 2025, finalised the subscription and share exchange agreement for the shares in eMedia Investments Proprietary Limited (EMI) (the Group's only asset) held by Venfin Media Beleggings Proprietary Limited (Venfin). Venfin held a 32.31% stake in EMI, and the Group held the balance of 67.69%. The agreement was that Venfin shall subscribe for shares in the Group to the value of R59.5 million. Thereafter, Venfin has unbundled its shareholding in EMI for additional shares in the Group to the value of R715 million. Subsequently, the Group now owns 100% of the issued share capital of EMI. As at 31 March 2026, the Group repurchased 23.1 million EMH N ordinary shares to the value of R43.1 million.

eMedia is also pleased to announce that on 1 October 2025, eMedia Investments Proprietary Limited, a wholly owned subsidiary of eMedia, acquired a 30% strategic equity interest in Pristine World Holdings Limited (Pristine World) as part of the Group's growth strategy to diversify revenue streams and expand into ancillary content creation markets.

This investment forms part of eMedia's strategy to diversify and strengthen its revenue streams within its existing ecosystem. By acquiring a stake in Pristine World, eMedia gains access to technology and innovation and aims to incorporate high-quality visual effects capabilities into its content production pipeline, thus enhancing the quality of its offerings and positioning the eMedia Group for international project collaboration.

eMedia's significant investment in VFX (visual effects) Studios in Hyde Park is complete, and the Group will utilise the expertise of this technology to provide clients with the opportunity to create virtual advertising, enhancing current productions as well as any other production that would utilise real-time visual effects in its productions.

Runn Media Private Labs Limited is an associate based in India and is an independent, Free Ad-Supported Streaming Television (FAST) platform. It is gaining traction as an aggregated platform and, now, has 50 FAST channels in the Indian market and continues to grow its content offering.

Profitability

Profit for the year ended R299.5 million, compared to the prior year profit of R303.0 million, a decrease of 1.1%. This decrease is directly attributable to the retraction of the television advertising market, however, curtailed by the cost-reducing measures the Group has implemented to combat the revenue decline, as well as the savings on legal fees and content costs.

EBITDA for the period amounted to R513.0 million compared to the prior period of R553.9 million. This excludes the impact of depreciation and finance costs relating to the cancelled Intelstat satellite agreement, accounted for in accordance with IFRS 16.

In conclusion, the eMedia Group continues to be the leading free-to-air broadcaster in South Africa, which puts the Group in good standing once the advertising spend returns as the economy rectifies itself. Despite the challenging operating conditions, the Group managed to sustain its dividend, and there will be a final dividend of 15 cents per share (2025: 15 cents per share).

In conclusion, management would like to thank all its stakeholders, especially its board, for their continued encouragement and support that enabled the Group to end the year on a successful note.

Conclusion

The Group remains focused on its core business of broadcasting, content creation, platform advancements and a granular focus on technology that improves the broadcasting process and offering.

Dividend to shareholders

The Directors have resolved to declare a final dividend of 15 cents per share for the year ended 31 March 2026 (2025: 15 cents per share).

Share capital

During the year, eMedia Holdings Limited (EMH) entered into a subscription and share exchange agreement with eMedia Investments Proprietary Limited (EMI), Venfin Media Beleggings Proprietary Limited (Venfin), Venfin Proprietary Limited (Venfin Interco) and Remgro Limited (Remgro), which resulted in an increase in EMH's share capital. Refer to note 13 for further details.

Directorate

The Directors of the Company are listed on pages 57 and 58 of the integrated report. HJ Carse was appointed as a Non-executive Director on 7 October 2025. No additional changes were made to the directorate during the year.

Going concern

Management's consideration for going concern includes all factors applicable to the Group. Management therefore is satisfied that the going concern basis has been correctly applied and this report has been prepared on the basis of Accounting Policies applicable to a going concern.

Company Secretary

For the year ended 31 March 2026, the Company Secretary of eMedia Holdings is HCI Managerial Services Proprietary Limited. The Secretary maintains an arm's length relationship with the Board. The name, business and postal address of the Company Secretary are provided on the inside back cover of the Notice of Annual General Meeting.

Auditor

Forvis Mazars will continue in office in accordance with section 90 of the South African Companies Act, with Rochelle Murugan as the designated auditor.

Significant shareholders

The Company's significant ordinary and N ordinary shareholder is TIH Prefco Proprietary Limited.

Special resolutions

The following special resolutions were passed by the Company's shareholders at the Annual General Meeting held on 29 August 2025:

- ▶ Granting the Directors, subject to the provisions of the JSE Listings Requirements, authority to allot and issue a portion of the authorised but unissued shares, as the Directors, at their discretion, think fit
- ▶ Approval of the fees payable to Non-executive Directors for their services as Directors or as members of the Board subcommittees in respect of the period 29 August 2025 until the date of the next Annual General Meeting
- ▶ Granting the Company and the subsidiaries of the Company a general authority in terms of the JSE Listings Requirements for the acquisition by the Company, or a subsidiary of the Company, of ordinary issued shares issued by the Company
- ▶ Granting the Company and the subsidiaries general authorisation of financial assistance in terms of sections 44 and 45 of the Companies Act
- ▶ General authority to repurchase shares

Special resolutions of subsidiaries

The statutory information relating to special resolutions passed by subsidiaries is available from the registered office of the Company.

Shareholding of Directors

The shareholding of the Directors of the Company and the issued share capital of the Company as at 31 March 2026 are set out in the remuneration report. In addition, further details can be found on [pages 61 to 63](#) of the annual financial statements.

Directors' emoluments

The emoluments of Directors incurred by the Company and its subsidiaries for the year ended 31 March 2026 are delineated in the remuneration report included in the integrated report on [page 70](#). In addition, further details can be found in note 25 of the annual financial statements.

Joint ventures, subsidiaries and associates

Details of the Company's subsidiaries, joint ventures and associates are set out in the annual financial statements available on the Company's website at www.emediaholdings.co.za, ([pages 28 and 57](#)).

Borrowing powers

In accordance with the Memorandum of Incorporation, eMedia Holdings does not impose any limits on borrowing. However, specific companies in the Group have engaged in various loan agreements with the providers of loan finance. These loan agreements encompass a range of covenants and undertakings by entities within the Group, potentially restricting the Group's borrowing capabilities.

For comprehensive information regarding these covenants and undertakings, interested parties may obtain details from the registered office of the Company.

Subsequent events

Subsequent to year-end:

- ▶ The sale of land owned by Cape Town Film Studios and Dreamworld Management Company to Amazon has been finalised and the agreement was signed on 25 May 2026. All conditions precedent have been fulfilled, the full value will be paid on transfer of the property at the deeds office. The value of the transaction is estimated to be R264 775 700, of which the Group is entitled to R132 387 850 (before tax)
- ▶ The Treasury shares held at year-end were cancelled on 7 April 2026. There has been no change in Directors' interests between reporting date and date of this report
- ▶ A further 2 595 890 EMH N ordinary shares (EMN ISIN: ZAE000209524) were repurchased in July 2026 to the value of R4.8 million

Approval of annual financial statements

The Directors of eMedia Holdings are responsible for ensuring the accuracy, integrity, and fair presentation of the Company's financial statements and other information contained in these annual financial statements. The audited

financial statements, available on [pages 10 to 60](#), are accessible on the Company's website at www.emediaholdings.co.za, have been meticulously prepared in accordance with IFRS® Accounting Standards as issued by the International Accounting Standards Board (IASB), JSE Listings Requirements, South African Financial Reporting Requirements and the Companies Act of South Africa, incorporating prudent judgements and estimates by management.

The Directors express their satisfaction that the consolidated and separate financial statements accurately depict the Group's operational results for the year and its financial position at year-end. They affirm that the additional information provided in this report aligns with the consolidated financial statements.

Furthermore, the Directors oversee the Group's system of internal financial controls, which are designed to provide reasonable assurance regarding the reliability of financial statements, asset safeguarding, and the detection of misrepresentation and losses.

The financial statements have been subject to an independent audit by Forvis Mazars, which had unrestricted access to all relevant financial records and data, including minutes of shareholders' meetings and Board-related gatherings.

The Directors, whose names are stated below, hereby confirm that:

- (a) The annual financial statements, set out on [pages 10 to 60](#), fairly present, in all material respects, the financial position, financial performance and cash flows of the Company and its consolidated subsidiaries in accordance with IFRS Accounting Standards.
- (b) To the best of our knowledge and belief, no facts have been omitted or untrue statements made that would make the annual financial statements false or misleading.
- (c) Internal financial controls have been put in place to ensure that material information relating to the Company and its consolidated subsidiaries have been provided to effectively prepare the financial statements of the Company.
- (d) The internal financial controls are adequate and effective and can be relied upon in compiling the annual consolidated financial statements, and we have fulfilled our role and function as Executive Directors with primary responsibility for implementation and execution of controls.
- (e) Where we are not satisfied, we have disclosed to the Audit and Risk Committee and the auditors any deficiencies in design and operational effectiveness of the internal financial controls and have remediated the deficiencies.
- (f) We are not aware of any fraud involving Directors.

The annual financial statements for the year ended 31 March 2026, which are available on the Company's website at www.emediaholdings.co.za, were approved by the Board on 28 July 2026 and signed on its behalf by:

DECLARATION BY THE COMPANY SECRETARY

We confirm that eMedia Holdings has submitted to the Companies and Intellectual Property Commission all necessary returns and notifications, as mandated by the Companies Act of South Africa, for the financial year ended on 31 March 2026. We attest that these submissions are accurate, complete and current.

HCI Managerial Services Proprietary Limited

HCI Managerial Services Proprietary Limited Company Secretary

REPORT OF THE AUDIT AND RISK COMMITTEE

Role and mandate (the Companies Act) Functions of the Audit and Risk Committee

The Audit and Risk Committee is an independent statutory committee established under section 94(2) of the Companies Act, 71 of 2008, as amended (the Companies Act) and oversees audit and risk matters across all eMedia Holdings subsidiaries as permitted by law.

The committee provides independent oversight of the Group's financial reporting, internal controls and risk management, and is accountable to the Board and shareholders. Its responsibilities include statutory duties under the Companies Act, King IV recommendations and additional Board mandates.

For the financial period under review, the committee confirms it has fulfilled all legal and chartered responsibilities, including:

- ▶ Approving audit fees, engagement terms and allowable non-audit services
- ▶ Assessing legal matters impacting financial statements
- ▶ Confirming independence of auditors Forvis Mazars South Africa and Rochelle Murugan
- ▶ Reviewing external audit reports and ensuring auditor independence as per section 92 of the Companies Act
- ▶ Recommending Forvis Mazars and Rochelle Murugan as external auditor and designated auditor, respectively
- ▶ Forvis Mazars has been the auditor of eMedia Holdings Limited for two years
- ▶ Reviewing interim, provisional and year-end financial statements, and recommending their approval to the Board
- ▶ Determining the nature and extent of allowable non-audit services, approving contract terms for the provision of such services by the external auditor
- ▶ Expertise and experience of the Financial Director and finance function were considered during the review period. The committee is satisfied that the Financial Director, Mr Antonio Lee CA(SA), possesses the appropriate skills, expertise and experience to fulfil the responsibilities of the position in accordance with section 3.84(h) of the JSE Listings Requirements. Additionally, the committee has assessed the expertise of the finance function in line with King IV™, concluding that the finance team has the requisite skills to perform their duties effectively
- ▶ Both the audit firm and individual auditor understand their roles and possess the competence, expertise, experience and skills required to fulfil their specific audit and financial reporting responsibilities
- ▶ Having reviewed the integrity of the annual financial statements and the external disclosures within the integrated annual report, including the specific remuneration implementations under King IV recommended practice 5.59

The committee verified the audit firm's compliance with quality control inspections and received relevant IRBA reports and remedial plans. It also confirmed the competence and expertise of the auditors and the finance leadership, including Financial Director Antonio Lee CA(SA), whose skills meet JSE and King IV requirements.

Internal audit

The Group engaged GRiPP Advisory Proprietary Limited for internal audits, with subsidiaries and departments reviewed as needed. Quarterly reports are presented to the committee.

Risk management and internal controls

The Board oversees risk management and internal controls. Compliance Officers at key subsidiaries ensure adherence to relevant laws and codes. Each Company within the Group has its own Board responsible for risk management. Financial Director Antonio Lee leads enterprise-wide risk management, using the COSO framework to balance risk appetite and control costs. The committee receives quarterly risk reports and risk appetite is regularly reviewed with the Board. Risk management is integrated into daily operations to support a risk-aware culture.

Financial statements

The committee has reviewed, and recommends, the adoption of the annual financial statements for the year ended 31 March 2026.

Operations and governance

The committee's charter is reviewed annually. Throughout the year, the committee operated in line with its charter, the Companies Act, King IV, JSE Listings Requirements and the Company's Memorandum of Incorporation. It also reviewed JSE monitoring reports and took the necessary actions to address prior findings.

Meetings and membership

The committee comprises three independent Non-executive Directors elected by shareholders. It meets at least quarterly, with permanent invitees including the Financial Director, Group Financial Manager, Chief Technology Officer, external auditors and internal auditors. Other Directors and management attend as required. Private sessions are held regularly with auditors.

Performance evaluation

The committee and its members underwent annual performance and independence evaluations with all members meeting King IV and Companies Act independence criteria.

Key audit matters

The committee focused on:

- ▶ Valuation of goodwill, marketing-related and contract-based intangible assets (notes 5 and 6 to the consolidated financial statements)
- ▶ Valuation of distribution rights (a category of intangible assets – note 5 to the consolidated financial statements)
- ▶ Valuation of programming rights (note 1.1 to the consolidated financial statements)

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of eMedia Holdings Limited

Report on the Audit of the Consolidated and Separate Financial Statements

Opinion

We have audited the consolidated and separate financial statements of eMedia Holdings Limited and its subsidiaries (the group and company) set out on [pages 10 to 60](#) which comprise the consolidated and separate statements of financial position as at 31 March 2026, and the consolidated and separate statements of profit or loss and other comprehensive income, consolidated and separate statements of changes in equity and consolidated and separate statements of cash flows for the year then ended, and notes to the consolidated and separate financial statements, including material accounting policy information.

In our opinion, the consolidated and separate financial statements present fairly, in all material respects, the consolidated and separate financial position of eMedia Holdings Limited and its subsidiaries as at 31 March 2026, and its consolidated and separate financial performance and consolidated and separate cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements section of our report. We are independent of the group and company in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

In terms of the IRBA Rule on Enhanced Auditor Reporting for the Audit of Financial Statements of Public Interest Entities, published in Government Gazette No. 49309 dated 15 September 2023 (EAR Rule), we report:

Final Materiality

Consolidated financial statements

Materiality R58 319 000

Basis for determining materiality We have used 1.95% of revenue as the basis for materiality.

Rationale for the benchmark applied We have determined that revenue is the most appropriate quantitative benchmark for assessing materiality, as it best reflects the financial performance and key value drivers of companies operating within the media and broadcasting industry, such as eMedia Holdings Limited. In this sector, revenue is a primary indicator of operational success due to the industry's reliance on advertising, and content distribution.

Separate financial statements

Materiality R58 319 000

Basis for determining materiality We have used 1.95% of total assets as the basis for materiality. Limited to materiality calculated as per consolidated financial statements.

Rationale for the benchmark applied We have determined that total assets is an appropriate quantitative indicator of materiality as eMedia Holdings Limited is an investment holding company in nature and total assets best reflect the financial position of the company.

Group Audit Scope

The consolidated financial statements of eMedia Holdings Limited include eMedia Investments Proprietary Limited and its subsidiaries. In determining the scope of our audit, we considered the group's structure, the nature and complexity of the group's operations, and the level of aggregation at which the group's financial information is prepared. We identified all operating subsidiaries as key components based on quantitative and qualitative factors, including size and risk profile. As a result, we performed full scope audits on all key components.

All audit work was conducted by the group engagement team and we did not rely on the work of component auditors. This approach enabled us to obtain sufficient appropriate audit evidence for the purposes of our audit of the consolidated financial statements. Significant judgements applied in determining the audit scope included the assessment of component significance and the tailored audit responses to address the risks of material misstatement, including those arising from the media industry's regulatory and operational environment.

INDEPENDENT AUDITOR'S REPORT CONTINUED

Rochelle Murugan served as the engagement partner responsible for the audits of both eMedia Holdings Limited and eMedia Investments Proprietary Limited and its subsidiaries.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in respect of the separate financial statements.

In terms of the EAR Rule, we are required to report the outcome of audit procedures or key observations with respect to the key audit matters and these are included below.

Matter #01	Valuation of goodwill, marketing-related and contract-based intangible assets. (Notes 5 & 6 to the consolidated financial statements)
Description of the key audit matter	IAS 36 – Impairment of Assets, requires goodwill and indefinite life intangible assets to be assessed annually for impairment. The impairment assessment in respect of goodwill, marketing-related and contract-based intangible assets was considered a matter of most significance to the current year's audit of the consolidated financial statements for the following reasons: ▶ The significance of the goodwill which is carried at R139 076 000, marketing-related intangible assets which are carried at R1 938 758 000 and contract-based intangible assets which are carried at R128 197 000 as at 31 March 2026. ▶ The significant judgements and estimates applied by management in determining the recoverable amounts using value-in-use calculations, including assumptions relating to forecast EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation), which is used to derive forecast cash flows, together with assumptions regarding capital expenditure, income tax, discount rates and long-term growth rates; and ▶ The sensitivity of the recoverable amounts determined using the value-in-use models to changes in the significant judgements and assumptions applied by management, including forecast cash flows, discount rates and long-term growth rates.
How we addressed the key audit matter	We obtained management's value-in-use calculations and performed the following audit procedures: ▶ We assessed the design and implementation of relevant controls applied to the impairment assessment process. ▶ With the assistance of our internal valuation specialists, we assessed the suitability of the value-in-use models applied by management in determining the recoverable amounts of the relevant intangible assets, and evaluated whether the methodologies applied were consistent with accepted valuation practices, industry standards and the requirements of the IFRS Accounting Standards. ▶ Our internal valuation specialists performed the following: 1. Identified the cash-generating units ("CGUs") to which the goodwill, marketing-related intangible assets and contract-based intangible assets were allocated and assessed whether such allocation was appropriate for purposes of determining the recoverable amounts and performing the impairment assessment. 2. Re-performed the mathematical accuracy of the calculations performed by management. 3. Evaluated the following assumptions used in the calculation for reasonability: ▷ Asset values were based on the carrying amounts at year end. ▷ Future expected cash flows were estimated using historical information and approved budgets. ▷ Sales growth rates and gross margins were based on historical performance and known future prospects. ▷ Costs were forecast based on significant management assumptions regarding future business expansion, operational requirements and expected inflationary trends over the forecast period. ▷ The appropriateness of extending forecast cash flows beyond the budget period in determining the recoverable amounts. ▷ The changes in the discount rates from the prior year were supported by movements in market interest rates and other relevant valuation inputs. ▶ We evaluated subsequent events and transactions for evidence that the assumptions and estimates used in the valuation remained appropriate and identified no matters that would indicate the valuation was materially misstated. ▶ We evaluated management's ability to forecast by comparing current year's actual results to previous forecasts. ▶ We evaluated any once-off income and expense items that may impact the valuation. ▶ We evaluated the adequacy of the group's disclosure in notes 5 & 6 in the consolidated financial statements against the requirements of IAS 36. Conclusion Based on the procedures performed in respect of the valuation of goodwill, marketing-related and contract-based intangible assets, we found no evidence of any material misstatement.

Matter #02

Valuation of Distribution rights (a category of intangible assets – Note 5 to the consolidated financial statements)

Description of the key audit matter

The assessment of the useful economic lives and impairment of distribution rights was considered a matter of most significance to the current year's audit of the consolidated financial statements for the following reasons:

- ▶ The significance of the carrying value of the distribution rights as at 31 March 2026: R147 705 000, and
- ▶ The significant judgements and estimates used by management in assessing whether any impairment indicators existed, applied in the determination of the rate of amortisation applied to distribution rights.

How we addressed the key audit matter

We performed the following audit procedures:

- ▶ Evaluated the design and implementation of relevant controls applied by management in their calculation of the rate of amortisation.
- ▶ Evaluated the appropriateness of the accounting policies applied for the calculation of the amortisation rates with reference to IAS 38, Intangible Assets. This included obtaining the distribution rights policy outlining the rate of amortisation used in calculating the amortisation expense.
- ▶ Evaluated whether there were any changes in the accounting policies, or amortisation methodologies applied to distribution rights during the current year and evaluated the appropriateness of such changes.
- ▶ Evaluated both the mathematical accuracy of the amortisation calculations and the appropriateness of the amortisation expense recognised.
- ▶ Evaluated management's assessment of impairment indicators and the reasonableness of the conclusions reached.
- ▶ We evaluated the adequacy of the group's disclosure in note 5 in the consolidated financial statements against the requirements of IAS 38.

Conclusion

Based on the procedures performed in respect of the valuation of distribution rights we found no evidence of any material misstatement.

Matter #03

Valuation of Programming rights (note 11 to the consolidated financial statements)

Description of the key audit matter

The valuation of programming rights was considered a matter of most significance to the current year's audit of the consolidated financial statements for the following reasons:

- ▶ The significance of the carrying value of the programming rights as at 31 March 2026: R1 350 626 000 and
- ▶ The significant judgements and estimates used by management in determining the programming rights amortisation policy.

How we addressed the key audit matter

Our audit procedures included the following:

- ▶ Evaluated the design and implementation of relevant controls applied by management in determining the amortisation period of programming rights.
- ▶ Inspected a sample of programming rights agreements and assessed whether the contractual terms supporting the amortisation periods were appropriately reflected in management's calculations.
- ▶ Evaluated the appropriateness of the accounting policies applied by management in determining the amortisation of programming rights with reference to IAS 38, Intangible Assets. This included assessing the policy and the amortisation periods applied in calculating the amortisation expense.
- ▶ Evaluated whether there were any changes in the accounting policies, assumptions or amortisation methodologies applied to programming rights during the current year and assessed the appropriateness of such changes.
- ▶ Evaluated the reasonableness of the useful lives applied by management, considering the nature of the programming rights and the expected pattern of consumption of economic benefits.
- ▶ Re-performed the mathematical accuracy of the amortisation calculations and the appropriateness of the amortisation expense recognised.
- ▶ Evaluated management's assessment of impairment indicators, including consideration of viewer ratings and programme performance, and assessed the reasonableness of the conclusions reached.
- ▶ We evaluated the adequacy of the group's disclosure in note 11 in the consolidated financial statements against the requirements of IAS 38.

Conclusion

Based on our procedures performed in respect of the valuation of programming rights we found no evidence of any material misstatement.

INDEPENDENT AUDITOR'S REPORT CONTINUED

Other Information

The directors are responsible for the other information. The other information comprises the information included in the document titled "eMedia Holdings Limited Annual Financial Statements for the year ended 31 March 2026", which includes the Directors' Report, the Audit and Risk Committee's Report and the Company Secretary's Certificate as required by the Companies Act of South Africa. The other information does not include the consolidated and separate financial statements and our auditor's report thereon.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Consolidated and Separate Financial Statements

The directors are responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group and/or company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group and company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group and/or company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group and/or company to cease to continue as a going concern.

- ▶ Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Audit Tenure

In terms of the IRBA Rule published in Government Gazette Number 39475 dated 4 December 2015, we report that Forvis Mazars has been the auditor of eMedia Holdings Limited for 2 years.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2026

1. Accounting policies

eMedia Holdings Limited (the Company) is a Company domiciled in South Africa. The consolidated financial statements of the Company for the year ended 31 March 2026 and comparative figures for the year ended 31 March 2025 comprise the Company, its equity-accounted investees and its subsidiaries (together referred to as the Group). Where reference is made to the Group in the accounting policies it should be interpreted as referring to the Company where the context requires unless otherwise noted. The Company's registered office is at 4 Albury Road, Dunkeld West, Johannesburg, 2196.

a Basis of preparation

The audited annual financial statements, comprising eMedia Holdings Limited (referred to as the Company and its subsidiaries (all together referred to as the Group or consolidated), incorporate the following principal accounting policies, set out below. Where applicable, the Group refers to both the Group and the Company.

The principal accounting policies and methods of computation, set out below, have been applied consistently for all periods presented in the financial statements and have been consistently applied by the Group. Refer to note 36 for information on new or revised standards or interpretations adopted during the year.

The audited annual financial statements have been prepared in accordance with the framework concepts and the measurement and recognition requirements of the IFRS Accounting Standards, the South African Financial Reporting Requirements, the requirements of the South African Companies Act, 2008 and the Listings Requirements of the JSE Limited (JSE Listings Requirements).

The financial statements are prepared on a going concern basis.

b Basis of consolidation

The consolidated financial statements include the financial information of the subsidiaries, associated entities and joint venture entities owned by the Group.

(i) Subsidiaries

The Company records its investment in subsidiaries at cost less any impairment charges. These interests include any intergroup loans receivable, which represent by nature a further investment in the subsidiary.

(ii) Interests in equity-accounted investments

The Group's interests in equity-accounted investees comprise interest in joint ventures and associates, accounted for using the equity method of accounting.

The Group has exercised its judgement in determining whether its shareholding in the local invested entities should be accounted for as an investment in a joint venture or an associate. The Group exercised joint control over the financial and operating policy decisions of entities classified as investments in joint ventures in terms of IAS 28. The Group does not have the ability to control the financial and operating activities so as to obtain benefit from the activities for their investment classified as an investment in associates.

c Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision-maker, the executive members of the Board, who are responsible for allocating resources, assessing performance of the operating segments and making strategic decisions.

Segment revenue reflects both sales to external parties and intergroup transactions across segments. Intersegment revenue is revenue raised by one segment relating to sales to other segments within the Group, which is eliminated.

d Goodwill

Goodwill in a business combination is recognised at the acquisition date when the consideration transferred, and the recognised amount of non-controlling interests exceeds the fair value of the net identifiable assets of the entity acquired. Goodwill is tested for impairment annually or more frequently if there is an indicator of impairment.

e Intangible assets

(i) Intangible assets

Intangible assets are initially recognised at cost and thereafter at cost less accumulated amortisation and impairment losses.

Cost is usually determined as the amount paid by the Group, unless the asset has been acquired as part of a business combination.

Amortisation is expensed together with depreciation in the statement of profit and loss.

The Directors' assessment of the useful life of intangible assets is based on the nature of the asset acquired, the durability of the products to which the asset attaches and the expected future impact of competition on the business.

(ii) Trademarks

Trademarks have finite useful lives and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of trademarks over their estimated useful lives.

Trademarks are amortised over 20 years.

(iii) Distribution rights

Distribution rights represent multi-territory and multi-platform programming rights that the Group is able to 'on sell' to other content acquirers in the media industry. Distribution rights that are licensed within the Group, are transferred to programming rights.

Distribution rights related to factual programming are amortised over a period of 10 years.

Distribution rights related to movies represent content available for licensed to broadcasters. The amortisation method is consistent with the amount received for individual titles licensed to broadcasters.

Distribution rights are assessed for impairment annually or more frequently if there is an indicator of impairment, until they are brought into use. Indicators of impairment would include, product quality, viewer fatigue as well as programme relevance.

(iv) Marketing-related intangible assets

Marketing-related intangible assets relate to trademarks, trade names and brand names for e.tv, eNCA, Y and Sasani Africa. The useful life for this class of assets was applied as indefinite as it extended beyond the foreseeable horizon. Marketing-related intangible assets are assessed annually for impairment.

(v) Customer-related intangible assets

Customer-related intangible assets relate to customer contracts and the related relationships and non-contractual customer relationships. The useful life was estimated as 10 years.

(vi) Contract-based intangible assets

Contract-based intangible assets relate to the broadcasting rights. No amortisation is accounted for as the useful life is indefinite. Contract-based intangible assets are assessed annually for impairment.

(vii) Website domain

Website domain relates to digital platform addresses. No amortisation is accounted for as the useful life is indefinite. Website domain assets are assessed annually for impairment.

f Property, plant and equipment

Property, plant and equipment are stated at cost net of accumulated depreciation and any impairment losses. Assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

(i) Depreciation

No depreciation is provided on freehold land or assets in the course of construction. In respect of all other property, plant and equipment, depreciation is provided on a straight-line basis at rates calculated to write off the cost or valuation, less the estimated residual value of each asset over its expected useful life as follows:

Owner-occupied buildings	30% over 20 years
Owner-occupied land and foundation	70% indefinite*
Equipment and fittings	5 to 10 years
Motor vehicles	5 years

* 70% of the cost of the property is attributed to land and is not depreciated.

(ii) Profit or loss on disposal

The profit or loss on the disposal of an asset is the difference between the disposal proceeds and the carrying amount of the asset.

(iii) Capitalisation of borrowing costs

Specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. The Group considers a period of greater than 12 months to be substantial.

g Programming rights

Programming rights consists of own curated programmes, which includes daily dramas, limited series, documentaries and movies, as well as licenced programmes from local and international suppliers and distributors.

Programming rights acquired and curated by the Group are initially measured at cost and amortised over the expected useful life. If, at the end of the licence period for acquired programming rights, the number of licensed broadcasting runs has not been fully utilised, a write-off is accounted for through profit or loss. Programming rights are assessed on an annual basis for indicators of impairment.

Management reassesses useful lives, amortisation patterns and impairment indicators at each reporting date and adjusts estimates prospectively where appropriate.

h Inventory

Inventory relates to set-top boxes which are stated at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. Cost is determined on the first-in, first-out principle and includes direct material costs together with appropriate allocations of labour and overheads based on normal operating capacity. These boxes are shipped to and assembled in South Africa. Inventory is recognised once the goods arrive at the South African harbour.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

1. Accounting policies continued

i Financial instruments

Financial instruments include receivables, loans receivable, cash and cash equivalents, borrowings, payables and derivative financial instruments.

Financial assets and financial liabilities are recognised on the statement of financial position when the Group becomes a party to the contractual terms of the instrument.

Financial assets

Financial assets are initially measured at fair value at initial recognition plus transaction costs directly attributable to acquisition of the asset.

Financial assets are derecognised when the contractual right to receive cash flows expire or the Group substantially transfers the risks and rewards of ownership.

The Group also has financial assets, which are subsequently measured at amortised cost using the effective interest rate method, net of impairment losses.

The Group considers a broader range of information on when assessing credit risk and measuring expected credit losses (ECLs), including past events, current conditions, and reasonable and supportable forecast that affect the expected collectability of the future cash flows of the instrument.

In accordance with IFRS 9, when a financial asset cannot be classified as measured at amortised cost, a debt instrument measured at fair value through other comprehensive income or an equity instrument measured at fair value through other comprehensive income, it is measured at fair value through profit or loss.

In applying this forward-looking approach, macroeconomic conditions and industry-specific indicators – advertising spend, financial stress indicators, and trends impacting media and advertising – a distinction is made between:

- ▶ Financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have a low credit risk (stage 1)
- ▶ Financial assets that have deteriorated significantly in credit quality since initial recognition on and whose credit risk is not low (stage 2)
- ▶ Financial assets that have objective evidence of impairment at the reporting date (stage 3)

For financial assets in stage 1, 12-month ECLs are recognised while for financial assets in stage 2 and stage 3, lifetime ECLs are recognised.

Measurement of the ECLs is determined by probability-weighted estimate of credit losses over the expected life of the financial instrument, taking into account the time value of money. Interest is accrued on the impairment balance in stage 3.

Financial assets measured at amortised cost on the face of the statement of financial position comprise the following:

Trade and other receivables

Trade and other receivables are measured, at initial recognition, at transaction price plus transaction costs, if any, and subsequently at amortised cost.

The Group recognises a loss allowance for ECLs on trade and other receivables, excluding value-added taxation and prepayments. The amount of ECLs is updated at each reporting date.

Loss allowance for all trade receivables is determined as lifetime ECLs (simplified approach). This is the default approach for trade receivables; refer to section below for further details on the write-off policy.

Before accepting any new customer, the Group performs credit checks utilising external credit bureaus and banks. If there is any doubt about a new customer's creditworthiness, the customer is initially placed as a COD customer and their payment history is assessed before being given credit. Credit is continuously monitored to ensure payments are made on time and for the correct amount. The standard credit period on sales is 45 days from the date of statement. The Group does not credit grade their customers in order to derive an ECLs allowance. Amounts provided are debtor-specific and as a result of unique circumstances. All customers who have exceeded their standard terms are evaluated considering numerous factors, which include, but are not limited to:

Historical data such as:

- ▶ Payment history and default rates derived from actual loss experience over a representative period

Current and forward-looking data based on macroeconomic conditions and industry-specific indicators, such as:

- ▶ Monthly advertising spend
- ▶ Customer-specific financial stress indicators (retrenchments, disputes, reputational risk)
- ▶ Global and local economic trends impacting the media and advertising industry

This can result in the Group re-evaluating their credit terms, changing to COD and/or increasing the bank guarantees we currently have in place. Refer to note 12 for further details.

Trade receivables are written off when there is no reasonable expectation of recovery. This is determined based on the factors above which provide evidence of default and failure to engage with the debtor to make alternative payment arrangements.

Long-term receivables

Loan receivables are measured, at initial recognition, at fair value plus transaction costs, if any. They are subsequently measured at amortised cost.

A loan is in default when there is evidence that the borrower is in significant financial difficulty such that it will have insufficient funds to repay the loan on demand. This is assessed based on the number of factors including cash flow projections and various liquidity and solvency ratios.

A significant increase in credit risk (SICR) assessment is performed qualitatively by reference to the borrower's cash flow and liquid asset position. The risk that the borrower will default on a demand loan depends on whether the subsidiary has enough cash or other liquid assets to repay the loan immediately (low risk of default) or insufficient cash or other liquid assets to repay the loan immediately (potential risk of default).

At year-end, the Group reviews cash forecasts of their subsidiaries to determine if they have sufficient resources to meet debt commitments. The Group also stress tests subsidiaries, future cash forecasts for a worst-case scenario to assess if subsidiaries have sufficient assets to recover the loan. Based on these factors, the Group will determine if they expect their subsidiaries to experience significant financial difficulty or a SICR.

At year-end, the Group considers whether there was a SICR based on the accounting policy. With regards to loans repayable on demand, if there is no SICR, then it can be concluded that the risk of default is 0% and no ECL allowance should be recognised. If there is a SICR, then the Group evaluates the different recovery options and credit loss scenarios to assess the risk of default.

Long-term receivables are written off (ie derecognised) when there is no reasonable expectation of recovery. Failure to make payments within agreed terms and failure to engage with the Group on alternative payment arrangement among others are considered indicators of no reasonable expectation of recovery.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These are initially recorded at fair value and subsequently measured at amortised cost.

Financial liabilities

Financial liabilities are measured at fair value at initial recognition plus transaction costs directly attributable to the issuance of the financial liability in the case of financial liabilities not subsequently measured at fair value through profit or loss.

Financial liabilities are derecognised when the contractual obligation is discharged, cancelled or expired.

Financial liabilities measured at amortised cost on the face of the statement of financial position comprise of the following:

Trade and other payables

Trade and other payables are subsequently measured at amortised cost, using the effective interest rate method.

Bank borrowings

Bank borrowings are subsequently measured at amortised cost, using the effective interest rate method.

Financial liabilities measured at fair value through profit or loss on the face of the statement of financial position comprise the following:

Forward exchange contracts

Forward exchange contracts are initially and subsequently measured at fair value. The fair value is the estimated exchange price between market participants.

The gain or loss on remeasurement to fair value is recognised immediately in profit or loss. Any directly attributable transaction costs are recognised in profit or loss as incurred.

j Finance income and expenses

Finance income comprises interest income on funds invested.

Finance expenses comprise interest expense on borrowings. All borrowing costs not capitalised in terms of IAS 23 are recognised in profit or loss using the effective interest method.

k Taxation

Income tax comprises current and deferred tax. Income tax expense is recognised in profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

A deferred tax asset or liability is recognised for all taxable temporary differences, except to the extent that the deferred tax asset or liability arises from:

- The initial recognition of goodwill
- The initial recognition of an asset or liability in a transaction which:
 - ▷ Is not a business combination
 - ▷ At the time of the transaction, affects neither accounting profit nor taxable profit (tax loss)

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

1. Accounting policies continued

l Revenue recognition

The Group currently has several revenue streams that include the following:

- ▶ Advertising revenue
- ▶ Content sales
- ▶ Licence fees
- ▶ Decoder sales
- ▶ Facility income
- ▶ Other revenue (eVOD, online, website sales)

Advertising revenue refers to contracts with customers where an advertising slot is provided for an agreed amount. The advertisement is then aired as per the agreed slot. The service is provided at a set price with no variable consideration and no time value of money effects and no estimates. The performance obligation is fulfilled when the commercial advert is aired as per the contractual term.

No significant judgements and estimates are made as the performance obligation is fulfilled when the commercial advert is aired as per the contractual term.

Content sales revenue refers to programmes sold to customers. The service is provided at a set price with no variable consideration and no time value of money effects and no estimates. Once the contract is signed, the content is delivered and revenue is earned. No significant judgements and estimates are made as the performance obligation is satisfied at a point in time once content is delivered. Content sales revenue is recognised in profit and loss at a point in time, net of value-added taxation.

Licence fees revenue for the Group refers mainly to the production of nine news channel which is aired 24/7 on DStv. The service is provided at a set price with no variable consideration and no time value of money effects and no estimates. The performance obligation is satisfied over time as the customer consumes the benefit of access to the news channel. There are no other goods or services provided in the contract other than the provision of the news channel. No significant judgements and estimates are made as the performance obligation is satisfied over time as news channel is aired. Licence fees revenue is recognised in profit and loss on a straight-line basis, net of value-added taxation.

Facility income refers to the offering of full technical spectrum of preproduction, production and post-production services, as well as broadcasting studios and solutions for live local and international broadcasts. The service is provided at a set price with no variable consideration, no time value of money effects and no estimates. This service also includes the provision of specialised equipment. All these services are provided to the customer over a period of time. As part of the agreement, the Group has the obligation to replace the assets provided with another asset if the asset does not meet the required task any longer. The majority of the facility income is derived from the provision specialised equipment.

The provisions stated in IFRS 16 BC112 are applicable to the Group in this instance, and the contract does then not contain a lease and falls within the scope of IFRS 15. No significant judgements and estimates are made as the performance obligation is satisfied over time as services are provided to customer. Facility income is recognised in profit or loss on a straight-line basis over the contract term of the agreement, net of value-added taxation.

Decoder sales relate to the sale of set-top boxes to customers. Revenue is recognised at a point in time upon delivery of the goods when control has transferred from the Group to the customer. Settlement of goods are either made upfront or credit extended to customers who are reputable, sales are not directly made to the public. No significant judgements and estimates are made as the performance obligation is satisfied at a point in time. Openview's manufacturing agreement dictates that any returns by consumers are to be rectified by the manufacturer and is of no liability to the Group.

Other revenue relates to sales from our online and digital streaming platforms, which includes the video on demand service.

The service is provided at a set price with no variable consideration and no time value of money effects and no estimates.

The performance obligation is fulfilled when the commercial advert is aired as per the contractual term, or content is downloaded.

No significant judgements and estimates are made as the performance obligation is fulfilled when the commercial advert is aired as per the contractual term, or content is downloaded. Other revenue is recognised in profit or loss on a straight-line basis over the term of the agreement, net of value-added taxation.

m Leases

Operating lease – lessor

Operating lease income is recognised as income on a straight-line basis over the lease term. The difference between the amounts recognised as income and the contractual amounts received are recognised as an operating lease asset. This asset is not discounted.

Initial direct costs incurred in negotiating and arranging operating leases are capitalised to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease income.

Income for leases is disclosed under revenue in profit or loss.

The Group is the lessee

All leases are accounted for by recognising a right-of-use asset and a lease liability except for:

- ▶ Leases of low value assets
- ▶ Leases with a term of 12 months or less

Lease liabilities are measured at the present value of the contractual payments due to the lessor over the lease term, discounted using the interest rate implicit in the lease unless this is not readily determinable, in which case the Group's incremental borrowing rate on commencement of the lease is used. Variable lease payments are only included in the measurement of the lease liability if they depend on an index or rate. In such cases, the initial measurement of the lease liability assumes the variable element will remain unchanged throughout the lease term. Other variable lease payments are expensed in the period to which they relate.

On initial recognition, the carrying value of the lease liability includes:

- ▶ Amounts expected to be payable under any residual value guarantee
- ▶ The exercise price of any purchase option granted in favour of the Group if it is reasonably certain to exercise that option
- ▶ Any penalties payable for terminating the lease, if the term of the lease has been estimated on the basis of a termination option being exercised

Right-of-use assets are initially measured at the amount of the lease liability, reduced for any lease incentives received, and increased for:

- ▶ Lease payments made at or before commencement of the lease
- ▶ Initial direct costs incurred
- ▶ The amount of any provision recognised where the Group is contractually required to dismantle, remove or restore the leased asset

Subsequent to initial measurement, lease liabilities increase as a result of interest charged at a constant rate on the balance outstanding and are reduced for lease payments made. Right-of-use assets are depreciated on a straight-line basis over the remaining term of the lease or over the remaining economic life of the asset if, rarely, this is judged to be shorter than the lease term.

n Employee benefits

(i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

(ii) Employee leave entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. An accrual is made for the estimated liability to the employees for annual leave up to the reporting date. This liability is included in 'trade and other payables' in the statement of financial position.

(iii) Defined contribution plans

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due. Payments made to industry-managed (or state plans) retirement benefit schemes are dealt with as defined contribution plans where the Company's obligation under the schemes is equivalent to those arising in a defined contribution retirement benefit.

o Earnings per share

Basic earnings per share is based on earnings attributable to shareholders and is calculated on the weighted average number of shares in issue during the financial year. Headline earnings per share is based on profit attributable to shareholders, excluding remeasurements and the tax effect thereon and is calculated as above. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares. As required by the JSE Listings Requirements, the Group reports headline earnings in accordance with Circular 1/2023: Headline earnings as issued by SAICA.

p Foreign currency transactions

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the transaction date. Monetary assets and liabilities denominated in foreign currencies are translated into South African rand at rates of exchange ruling at the reporting date. Translation gains and losses, whether realised or unrealised, are taken to profit or loss. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest rate and payments during the year, and amortised cost in foreign currency translated at the exchange rate at the end of the year.

q Other reserves

Foreign currency translation reserve

One-off items in the statement of profit and loss and other comprehensive income, and statement of cash flows of foreign subsidiaries expressed in currencies other than the South African rand are translated to South African rand at the rates of exchange prevailing on the day of the transaction. All other items are translated at weighted average rates of exchange for the relevant reporting period. Assets and liabilities of these undertakings are translated at closing rates of exchange at each reporting date. The difference that arose due to the above translations is recognised in other comprehensive income and aggregated in equity in other reserves. For these purposes, net assets include loans between Group companies that form part of the net investment, for which settlement is neither planned nor likely to occur in the foreseeable future. When a foreign operation is disposed of, any related exchange differences in equity are recycled through profit or loss as part of the gain or loss on disposal.

Common control reserve

This portion relates to the difference between the cost of the transaction and the Group's proportionate share of the net asset value acquired, which is recognised directly within equity.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

2. Significant judgements and estimates

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant judgements

(i) Estimated impairment of goodwill and indefinite-lived intangible assets

The Group tests annually whether goodwill and indefinite-lived intangible assets have suffered any impairment, in accordance with the accounting policy. The recoverable amounts of cash-generating units (CGUs) have been determined based on value-in-use calculations.

These calculations require the use of judgements – see notes 5 and 6 for details.

(ii) Deferred tax assets

Management has applied a probability analysis to determine future taxable income against which calculated tax losses will be utilised.

Estimation uncertainty

(i) Property, plant and equipment, excluding land

Changes in business landscape or technical innovations may impact the useful lives and estimated residual values of these assets. Similar assets are grouped together, but residual values and useful lives may vary significantly between individual assets in a category. Management reviews assets' residual values, useful lives and related depreciation charges annually at each reporting date.

(ii) Measurement of fair values

The Group has an established control framework with respect to the measurement of fair values that are reviewed on an ongoing basis. Review includes significant unobservable inputs and valuation adjustments. If third-party information, such as external property valuations, is used to measure fair values, then it is assessed if the evidence obtained from the third parties support the conclusion that such valuations meet the requirements of IFRS Accounting Standards, including the level of the fair value hierarchy in which such valuations should be classified.

Significant valuation issues are reported to the Group Audit Committee.

(iii) Programming rights

The useful life and amortisation method applied to programming rights reflects management's estimate of the pattern in which future economic benefits are consumed, taking into account viewer behaviour patterns, quality, relevance, scheduled broadcasting runs, platform-specific utilisation and revenue earning potential for each title.

Potential indicators of impairment would include the following:

- ▶ Significant decline in audience ratings
- ▶ Adverse viewing trends
- ▶ Programmes no longer aligned to channel strategy
- ▶ Content becoming outdated or less relevant

(iv) Owned intangible assets

Management assessed the economic useful life for these items to 10 years as this best reflects the economic benefits that would be generated from the intangible assets. This is assessed annually for re-evaluation of its useful life as well as impairment.

3. Property, plant and equipment

A Standard Bank mortgage bond of R529.0 million (2025: R480.3 million) has been registered over owner-occupied properties with a carrying value of R1 114.3 million (2025: R1 048.8 million). See note 15 for details on bank borrowings secured.

A register of land and buildings is available for inspection at the registered office of the Company.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

4. Right-of-use assets**Nature of leasing activities**

The Group leases a number of properties in the jurisdictions from which it operates. The lease contracts provide for fixed lease payments over the lease term.

The table below reflects the current proportion of fixed lease payments.

	Number of lease contracts	Fixed lease payments R
2026		
Leases of land and buildings	4	11 821
	4	11 821
2025		
Leases of land and buildings, and high-beam transponder capacity	6	21 527
	6	21 527
	LAND AND BUILDINGS	
	2026 R'000	2025 R'000

Additions	19 450	13 395
Remeasurement of lease	70	(1 350)
Termination of lease*	–	(92 560)
Carrying value as at 31 March	18 076	9 437

* In the prior year, as a result of a change in business strategy, the need for high-beam transponder capacity was no longer needed, therefore the lease agreement with Intelstat was terminated on 18 October 2024. The termination was effective 31 October 2024, with a termination fee of US\$1 750 000 (disclosed under administrative and other expenses), being paid on the termination date. The original agreement term was until 28 February 2029.

Refer to note 16 for information on the lease liabilities related to these right-of-use assets.

Impairment

Marketing, customer and contract-related intangible assets which form part of the eMedia Investments Proprietary Limited CGU are tested for impairment annually. The intangible asset arose due to the acquisition of eMedia Investments Proprietary Limited and as such the impairment is tested with goodwill – refer to note 6.

eMedia Investments Proprietary Limited and its subsidiaries

	GROUP	
	2026	2025
Discount rates (%)	15.98	17.63
Number of years	Five years	Five years
Cost growth rate (%)	4.00	5.00
Long-term growth rate (%)	4.50	4.50

The following assumptions were applied when reviewing intangible assets impairment:

- ▶ Asset values were based on the carrying amounts for the financial period
- ▶ Future expected profits were estimated using historical information and approved budgets extending to five years
- ▶ Sales growths and gross margins were based on historical performance and known future prospects
- ▶ Costs were assumed to grow in line with expansion and expected inflation
- ▶ Cash flows were extended into perpetuity as management has no reason to believe that the Group will not continue past the budget period

Distribution rights represent multi-territory and multi-platform programming rights that the Group is able to on sell to other entities. These rights are amortised over its economic life, based on the territory and platform for which the respective rights have been on sold.

Management reviews the distribution rights on an annual basis and impair any distribution rights that is not relevant anymore. There have been no impairments for the 2026 year (2025: Rnil).

Marketing-related and customer-related intangible assets with indefinite useful lives are assessed together with the CGU identified in goodwill (refer to note 6).

A 1.0% change in any of rates above will not result in an impairment.

The amortisation of intangible assets is included in the following line items in the statement of comprehensive income:

	GROUP	
	2026 R'000	2025 R'000
Continuing operations		
Cost of sales	28 543	28 781
Administrative and other expenses	–	412

– Accumulated impairment	(3 689 964)	(3 689 964)
Carrying value at year-end	139 076	139 076
– Cost	3 829 040	3 829 040
– Accumulated impairment	(3 689 964)	(3 689 964)

Impairment tests for goodwill

The carrying value of the goodwill is made up of two CGUs: Yired Proprietary Limited (R108.543 million) and Media Film Service Proprietary Limited (R30.533 million). Impairment tests were conducted for both CGUs. The following were the principal assumptions that were used to calculate the net present value of the CGUs:

eMedia Investments Proprietary Limited and its subsidiaries

	GROUP	
	2026	2025
Discount rates (%)	15.98 – 19.53	17.63 – 21.43
Number of years	Five years	Five years
Cost growth rate (%)	4.00	5.00
Long-term growth rate (%)	4.50	4.50

Goodwill was not impaired in the current year.

The following assumptions were applied when reviewing goodwill impairment:

- ▶ Asset values were based on the carrying amounts for the financial period
- ▶ Future expected profits were estimated using historical information and approved budgets extending to five years
- ▶ Sales growths and gross margins were based on historical performance and known future prospects
- ▶ Costs were assumed to grow in line with expansion and expected inflation
- ▶ Cash flows were extended into perpetuity as management has no reason to believe that the Group will not continue past the budget period
- ▶ The change in discount rates year-on-year is linked to interest rates, inflation and relevant industry/market rates

Sensitivity analysis

At year-end, the Group's accumulated goodwill impairment amounted to R3.7 billion (2025: R3.7 billion). A 1.0% change in any of rates above will not result in an impairment.

7. Interest in subsidiary companies

	COMPANY	
	2026 R'000	2025 R'000
Shares at cost	5 333 900	5 333 900
Additional investment-share exchange – refer to note 13	715 528	–
Impairment	(2 972 298)	(2 972 298)
Carrying value – eMedia Investments Proprietary Limited	3 077 130	2 361 602

The value of CGU to which the investment has been allocated has been determined based on value-in-use calculation using management-generated cash flow projections. The following were the principal assumptions, based on past experience, that were used to calculate the net present value of this CGU:

	COMPANY	
	2026	2025
Discount rates (%)	15.98	17.63
Number of years	Five years	Five years
Cost growth rate (%)	4.00	5.00
Long-term growth rate (%)	4.50	4.50

The following assumptions were applied when reviewing the investment for impairment:

- ▶ Asset values were based on the carrying amounts for the financial period
- ▶ Future expected profits were estimated using historical information and approved budgets extending to five years
- ▶ Sales growths and gross margins were based on historical performance and known future prospects
- ▶ Costs were assumed to grow in line with expansion and expected inflation
- ▶ Cash flows were extended into perpetuity as management has no reason to believe that the Group will not continue past the budget period
- ▶ The change in discount rates year-on-year is linked to interest rates, inflation and relevant industry/market rates

Sensitivity analysis

At year-end, the Group's accumulated investment impairment amounted to R3 billion (2025: R3 billion).

A 1.0% change in any of rates above will not result in an impairment.

Refer to notes 14 and 32 for details of subsidiary companies.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

8. Equity-accounted investees

On 1 October 2025, a stake in Pristine World Holdings Limited was acquired for R119 million, which represented 30% of the net asset value at date of purchase. The acquisition forms part of the growth strategy and expansion into ancillary content creation markets in order to diversify and strengthen its revenue streams within its existing ecosystem, by gaining access to technology and innovation to enhance the product offering of the VFX Studios.

A further 10% stake in equity was acquired in Runn Media Labs Private Limited to further enhance the growth strategy into Africa.

				251 105		110 355

* The investee has an equal number of Directors in control from both shareholders which results in joint control. Under the requirements of IFRS 11, the investment is classified as a joint arrangement with the equity method being applied.

** The Group holds a 30% stake in Pristine World Holdings Limited which constitutes significant influence under the requirements of IAS 28, and is therefore classified as an associate with the equity-accounting method being applied.

*** The investee has two out of the six Directors in control which results in significant influence. Under the requirements of IFRS 12, the investment is classified as an associate with the equity method being applied.

Included in the balance of Dreamworld Management Company Proprietary Limited is an unsecured, interest-free loan of R14.3 million (2025: R14.3 million) that has no fixed terms of repayment. The loan can only be recovered if the related land is sold.

The Group considers properties held by the joint ventures as a form of security for the loans. In the event of default, the Group will be able to recover the loans receivable from proceeds from the sale of the properties. At year-end, the valuations performed exceed the investment and loan. As a result, the ECL assessment amounted to no material impact and therefore an ECL of nil has been provided. A SICR will arise when there is an indication that there will be default on repayment of the loan. The sale of land owned by Cape Town Film Studios and Dreamworld Management Company to Amazon has been finalised and the agreement was signed on the 25 May 2026. All conditions precedent have been fulfilled, the full value will be paid on transfer of the property at the deeds office. The value of the transaction is estimated to be R264 775 700, of which the Group is entitled to R132 387 850 (before tax).

Main business and operations of the joint ventures

Cape Town Film Studios Proprietary Limited, a joint venture, provides sound stages and support buildings for the film industry in the Western Cape.

Dreamworld Management Company Proprietary Limited, a joint venture, will develop residential accommodation in future, adjacent to the Cape Town Film Studio site.

Runn Media Labs Private Limited, an associate, is a company incorporated in India, which operates a local television-based content streaming platform. It is the first local (Indian), Free Ad-Supported Streaming Television (FAST) platform.

Pristine World Holdings Limited, an associate, an entity incorporated in the British Virgin Islands, is beneficially owned by Convergence IT Services FZCO (Convergence IT), a company incorporated in the United Arab Emirates. Pristine World has a subsidiary, Multimedia Resources, S.L. (MR Factory), a specialist provider of visual effects (VFX) services catering to the global film and television and commercial markets. Its services include Computer Generated Imagery, motion capture, digital compositing, and animation as well as studio facilities. MR Factory is based in Madrid, Spain.

The summarised financial information in respect of the Group's principal joint ventures and associates

Set out below are the joint ventures and associates which, in the opinion of the Directors, are material to the Group. The entities listed below have share capital consisting solely of ordinary shares, which are held directly by the Group. The country of incorporation or registration is also their principal place of business.

Closing balance	805 891	829 241

* Transfers from intangible assets were disclosed with additions in prior year.

Nature of useful lives and amortisation method

When determining the amortisation periods for programming rights, the Group collects viewer behaviour patterns from its respective platforms and evaluates these against the useful lives taking into account international trends which includes the relevance of a programme as well as the licence period thereof. Viewer behaviour information is obtained from internal platform analytics and external audience measurement data where available. The Group will also take into consideration revenue earning potential of a title. Viewer behaviour complements the ability of a programme's revenue earning potential.

Programming rights acquired by the Group are specifically purchased for the individually curated channels. Content has been licenced for shorter periods to ensure they remain relevant as well as topical. Content is sourced and produced for multi-platform use and as such estimated useful lives have been assigned to each platform. The amortisation period for acquired rights cannot exceed the contractual licence period and may be shorter where there is indicators of impairment before the expiry of the licence.

12. Trade and other receivables

	GROUP	
	2026 R'000	2025 R'000
Reconciliation of carrying value		
Trade receivables	436 708	516 740
Allowance for ECLs on trade and other receivables	(215)	(782)
Prepayments	28 443	42 157
Other receivables	87 732	114 954
Forward exchange contracts	6 357	4 479
	559 025	677 548

The carrying value approximates fair value because of the short period to maturity of these instruments.

Management has performed an assessment on the ECL in accordance with the Group policy for the 2025 and 2026 years of assessment.

The Group evaluates the macroeconomic information within the advertising and media industry, which includes the monthly advertising spend. This gives the Group an overview of how much spend there is in the market currently.

The Group principally sells to large reputable customers such as multi-national agencies, with whom it has long-standing relationships. Recurring transactions over the long term provide the Group with valuable payment history and customer behaviour knowledge, which is used in making credit assessments. The Group tracks these agencies in terms of their business sustainability by monitoring the local and international media, any reputational loss, employee disputes and loss of key suppliers.

Local customers are monitored on the same basis: any retrenchment announcements, loss of key customers and labour disputes would result in the same measures, if not stricter, as these customers do not have international support.

The ECL is determined based on debtor-specific factors reflecting unique circumstances and is not representative of the total book. The Group holds no collateral as security against non-payment of any of the above-mentioned trade receivables. Historical data indicates that there have been no material defaults by customers in the Group.

Trade receivables

	TRADE RECEIVABLES DAYS PAST DUE				
Group	Not past due R'000	>45 days R'000	>60 days R'000	>90 days R'000	Total R'000
2026					
Carrying value of debtors with no ECLs	355 370	22 914	4 753	53 456	436 493
Carrying value of debtors with specific credit losses recognised	–	–	–	–	–
Gross amount	–	–	–	215	215
Specific credit losses	–	–	–	(215)	(215)

Allowance for ECLs	–	–	–	(215)	(215)
Net carrying value of trade receivables	355 370	22 914	4 753	53 456	436 493

Trade receivables exceeding the 45-day credit terms, i.e. in 60 and 90 days, have been evaluated and are individually managed. This includes higher arrears statuses on state-owned entities, which are due to administrative delays and slow payment behaviour. It has been determined that these amounts remain recoverable, with no significant risk of default. As a result, the ECL assessment amounted to no material impact and therefore no further ECL of has been provided.

Trade receivables pledged as security

The Group has at 31 March 2026 pledged trade debt with a carrying value of R436 million (2025: R516 million) to Standard Bank of South Africa in respect of a borrowing facility. The carrying value of the borrowing facility at 31 March 2026 amounted to R38 million (2025: R68 million). Refer to note 15 for compliance with covenant conditions.

Trade receivables past due

Trade receivables are written off (ie derecognised) when there is no reasonable expectation of recovery. Failure to make payments within 45 days from the invoice date and failure to engage with the Group on alternative payment arrangement among others are considered indicators of no reasonable expectation of recovery.

Movements in the allowance for ECLs on trade and other receivables are as follows:

	GROUP	
	2026 R'000	2025 R'000
Loss allowance as at 1 April	782	1 344
Amounts written off as uncollectable	–	(1 008)
Amounts (utilised)/reversed during the year	(567)	446
Closing balance	215	782

The carrying amounts of the Group's trade and other receivables are denominated in the following currencies:

	GROUP	
	2026 R'000	2025 R'000
South African rand	556 016	677 060
US dollar	723	488
Euro	2 286	–
	559 025	677 548

	GROUP	
	2026 R'000	2025 R'000
Other receivables		
Included under other receivables are:		
Financial instruments		
Deposits	1 875	1 897
Loans to joint ventures*	76 018	94 544
Other sundry receivables	8 848	8 004
Accrued income	991	1 731
Non-financial instruments		
Value-added taxation	–	8 778
	87 732	114 954

* The loan of R76 million (2025: R94.5 million) to Cape Town Film Studios Proprietary Limited is classified to trade and other receivables, as regular payments are being received and the balance is payable on demand. The CTFS loan amount is split between a portion which is unsecured, bears interest at prime and has no fixed terms of repayment – R17.2 million. The balance is unsecured, interest free and has no fixed terms of repayment. The Group considers properties held by the joint ventures as a form of security for the loans. In the event of default, the Group will be able to recover the loans receivable from proceeds from the sale of the properties. At year-end, the valuations performed exceed the investment and loan. Due to this, no ECL is required for the loans receivable in the current year as there is no risk of credit loss being incurred considering the value of properties behind the loans. The land has subsequently been sold and will cover majority of these loans. A significant increase in credit risk will arise when there is an indication that there will be a default on repayment of the loan.

Other sundry receivables comprise mainly of content payments. None of these debtors are showing any risk of default in the near future and therefore the ECL has been assessed to be immaterial.

	COMPANY	
	2026 R'000	2025 R'000
Trade and other receivables		
HCI Invest 3 Holdco Proprietary Limited	8 602	8 602

The loan owed by HCI Invest 3 Holdco Proprietary Limited is interest free and is payable on written demand.

Based on reviewing the underlying accounts, there are sufficient resources to recover this amount, and there has been no significant increase in credit risk, therefore the ECL has been assessed to be immaterial.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

13. Share capital

On 27 June 2025, eMedia Holdings Limited (EMH) entered into a subscription and share exchange agreement with eMedia Investments Proprietary Limited (EMI), Venfin Media Beleggings Proprietary Limited (Venfin), Venfin Proprietary Limited (Venfin Interco) and Remgro Limited (Remgro), which resulted in an increase in EMH's shareholding in EMI from 67.69% to 100%. The transaction constituted a category 1 transaction and was effected during the month of September. The particulars of the transaction were as follows:

- ▶ Venfin subscribed for 18 310 630 EMH N shares at a price of R3.25 resulting in a cash inflow of R59.5 million
- ▶ Venfin disposed of 17 730 595 ordinary shares it owned in EMI to EMH, which constituted 32.31% of all the issued shares of EMI, in exchange for 220 162 315 EMH N shares in EMH, at a share price of R3.25
- ▶ The non-controlling interest (NCI) relating to Venfin was derecognised, the difference between the carrying amount and the transaction price of R648 million being recognised directly in other reserves, as EMH now owns 100% of all the issued shares in EMI
- ▶ EMH was granted the option to repurchase up to 18 310 630 EMH N ordinary shares from any Venfin party

On 26 September 2025, EMH entered into a general repurchase programme in accordance with the general authority granted by shareholders at the Company's Annual General Meeting held on Friday, 29 August 2025. At reporting date, 23 109 325 shares had been repurchased at an average share price of R1.87.

* Subsequent to year-end, a resolution was passed on 7 April 2026 to cancel the 2 133 228 EMH N ordinary shares (EMN ISIN: ZAE000209524) in issue. This transaction has no direct bearing on the shareholding of eMedia Investments Proprietary Limited (EMI), but it does reduce the shares in issue of its majority shareholder, eMedia Holdings Limited (EMH). A further 2 595 890 EMH N ordinary shares (EMN ISIN: ZAE000209524) were repurchased in July 2026 to the value of R4.8 million.

The holders of all classes of shares shall be entitled to participate equally and without preference in the distribution of profits, including dividends.

Diluted weighted average number of shares

There is no difference between the weighted average number of shares and the diluted weighted average number of shares.

14. Non-controlling interest

Significant restrictions

There are no contractual arrangements in place for the provision of financial support of the principal subsidiary, nor has there been any financial or other support provided to these entities during the reporting period.

The Group includes the following subsidiary with NCIs:

Carrying value of borrowings	575 373	556 844	23 278	35 917

Secured borrowings

Secured bank borrowings bear interest at a weighted average effective interest rate of 9.27% (2025: 10.27%) and is repayable in monthly and in quarterly instalments. The secured bank borrowings were refinanced in March 2024, maturing in June 2027. A mortgage bond has been registered for R529.0 million (2025: R480.3 million). Refer to notes 3 and 12 for details of the security for the mortgage bond.

Secured borrowings loan covenant

The secured borrowings with Standard Bank contain two covenants that are required to be satisfied at the end of each measurement period ended September and March each year.

The covenants state that for the 12-month rolling period ending on each measurement date, the following conditions must be met:

- The Group's combined debt EBITDA ratio in respect of each measurement period shall be less than 2.0 (two) times
- The Group's combined debt service cover ratio (DSCR) in respect of each measurement period shall be greater than 1.4 (one point four) times

As defined in the loan agreement, debt means all non-subordinated interest-bearing debt, including and without limitation general banking facilities and instalment sale agreements.

EBITDA means consolidated earnings before interest, tax, depreciation, amortisation and other non-cash item.

DSCR means the ratio between free cash flow and the debt service obligation.

Free cash flow means EBITDA plus/less changes in working capital, less capital expenditure paid, less taxation paid or plus tax credits.

Lastly, the debt service obligation means the aggregate of all amounts (whether in respect of principal, interest or otherwise) which become payable in respect of the relevant measurement period.

If a breach occurs, the term loans may become repayable on demand should a formal waiver of the breach not be granted by the lenders.

Both the debt:EBITDA ratio covenant and DSCR covenant at both measurement dates during the period have been satisfied.

Covenant ratios at 31 March 2026 :

Target	Actual
Debt: EBITDA < 2	1.06
DSCR > 1.4	8.05
Debt:equity ratio < 0.67 : 1	0.13 : 1

Unsecured borrowings

Included under unsecured borrowings is a loan of R8.6 million (2025: R8.6 million) from HCI Treasury Proprietary Limited. The loan bears interest at 0% and is repayable on written demand.

Movements in the carrying value of borrowings are as follows:

Less: Current portion (included in trade and other payables note 17)	(12 362)	(8 927)
Non-current portion	7 333	707
Lease of low-value equipment included in operating expenses	366	651

* In the prior year, as a result of a change in business strategy, the need for high-beam transponder capacity was no longer needed, therefore the lease agreement with Intelstat was terminated on 18 October 2024. The termination was effective 31 October 2024, with a termination fee of US\$1 750 000, (disclosed under administrative and other expenses), being paid on the termination date. The original agreement term was until 28 February 2029.

The table below analyses the Group's lease liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date. The amounts disclosed in the table are the contractual cash flows.

No relief was sought by lessors during the year.

	Less than one year R'000	Between one and two years R'000	Between two and three years R'000	Between three and four years R'000	Total R'000
31 March 2026

Net asset value		4 398 708	2 927 396
Net asset value per share after Treasury shares (cents)		668	661

Basic and diluted earnings per share

Earnings/(loss) per share is based on profit attributable to equity holders for the year divided by the weighted average number of ordinary shares in issue during the year.

Diluted earnings per share is presented when the inclusion of potential ordinary shares has a dilutive effect on the earnings per share, more specifically related to share options in issue.

Basic and diluted headline earnings per share

Headline earnings/(loss) per share is based on the same calculation as above, except that the attributable profit specifically excludes items as set out in Circular 01/2023: Headline earnings issued by the South African Institute of Chartered Accountants.

Diluted headline earnings per share

The Group has no dilution effect on headline earnings per share in the current and prior year.

Diluted weighted average number of shares

There is no difference between the weighted average number of shares and the diluted weighted average number of shares.

26. Leases

	GROUP	
	2026 R'000	2025 R'000
Operating leases – as lessor (income)		
Non-cancellable operating lease rentals are receivable as follows:		
Less than one year	15 243	19 208
Between one and two years	6 183	15 527
Between two and three years	1 465	6 702
Between three and four years	1 067	1 291
Between four and five years	1 125	870
More than five years	2 858	3 246
	27 941	46 844

Certain of the Group's commercial property is held to generate rental income from external parties. These lease agreements generate fixed monthly lease income, with annual escalations specific to each lease. The terms for the various agreements range between five to 10 years.

27. Commitments

	GROUP	
	2026 R'000	2025 R'000
Commitments authorised by the Board of Directors but not yet contracted:		
Plant and equipment	–	113 306
Programming rights	667 025	864 358
	667 025	977 664

The Group has authorised commitments for local programming content as at 31 March 2026 totalling R667 million (2025: R864 million), due within one year. The contracted commitments will be funded from the Group's available bank facilities and retained profits.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

28. Financial risk management**Financial risk factors**

The Group's activities expose it to a variety of financial risks: market risk (including currency risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group.

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout these consolidated and separate financial statements.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board has established a Risk Committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

Market risk**Currency risk**

The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollar. Foreign exchange risk arises from exposure in the foreign operations due to trading transactions in currencies other than the functional currency. Foreign currency imports within the Group are managed using forward exchange contracts (FECs). FECs are not used for speculative purposes. FECs act as natural hedges and formal hedge accounting is not performed.

Foreign currency commitments

	Currency	R'000	Total R'000
2026			
Foreign currency monetary items are as follows:			
Foreign receivables	EUR	2 286	2 286
	USD	723	723
Foreign payables	GBP	109	109
	EUR	12	12
	USD	269 401	269 401

2025**Foreign currency monetary items are as follows:**

Foreign receivables	USD	488	488
Foreign payables	USD	266 994	266 994

	AVERAGE RATE		CLOSING RATE	
	2026	2025	2026	2025
The following significant exchange rates applied during the year:				
British pound	23.12	23.59	22.58	23.67
Euro	19.69	19.74	19.61	19.78
US dollar	17.69	18.29	17.09	18.30

A 10% strengthening of the functional currency against the following currencies at 31 March would have increased profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. This analysis is performed on the same basis for 2025 and 2026. A 10% weakening of the rand would decrease profits by the converse of the amounts disclosed on the following page.

	2026 R'000	2025 R'000
Effect on profit and loss		
Local currency:		
British pound	11	–
Euro	(227)	(11)
US dollar	26 868	(26 651)

Refer above for detail on significant exchange rates applied during the year as well as notes 12 and 17 for detail on carrying amounts exposed to foreign currency exchange risk.

Interest rate risk

The Group's primary interest rate risk arises from long-term borrowings and excess funds invested in the money market. It is exposed to a lesser extent to interest rate changes on loans to non-controlling interests of fellow subsidiary companies.

Interest rate sensitivity analysis

At year-end, the Group's interest-bearing borrowings amounted to R566.8 million (2025: R548.2 million). The interest rates applicable to these loans are variable. A change of 100 basis points in interest rates would increase or decrease profit or loss by R5.7 million before tax.

Refer to note 15 for detail on borrowings.

Credit risk

The Group has no significant concentrations of credit risk. Overall credit risk is managed at an entity level. Credit risk arises from cash and cash equivalents and credit exposure to the Group's customer base, including outstanding receivables. Trade receivables comprise a large, widespread customer base and the Group performs ongoing credit evaluations of the financial condition of its customers. The utilisation of credit limits is regularly monitored. Refer note 12 for further credit risk analysis in respect of trade and other receivables. No material credit limits were exceeded during the year under review, and management does not expect any losses from non-performance by these counterparties.

The table below shows the Group's maximum exposure to credit risk by class of asset:

	Notes	2026 R'000	2025 R'000
Receivables	12	559 025	677 548
Cash and cash equivalents		165 830	210 632
Loans to joint ventures	8	84 682	103 208
Loans to Group employees		1 036	1 036
		810 573	992 424

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Adequate liquidity is managed through the use of cash flow forecasts and by the maintenance of adequate borrowing facilities.

The amounts disclosed are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

Defaults and breaches on loans

There were no breaches or defaults on the repayment of any loans payable during the current or prior year (refer to note 15).

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

28. Financial risk management continued

The table below analyses the Group's financial liabilities that will be settled on a net basis into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Notes	Less than one year R'000	Between one and two years R'000	Between two and three years R'000	Between three and four years R'000	Between four and five years R'000	Total R'000
2026							
Bank and other borrowings	15	112 135	79 272	73 918	459 117	–	724 442
Lease liabilities	16	13 434	8 598	686	–	–	22 718
Trade and other payables	17	466 588	–	–	–	–	466 588
		592 157	87 870	74 604	459 117	–	1 213 748
2025							
Bank and other borrowings	15	122 546	117 290	95 928	90 565	306 024	732 353
Lease liabilities	16	8 932	419	360	249	–	9 960
Trade and other payables	17	603 664	–	–	–	–	603 664
		735 142	117 709	96 288	90 814	306 024	1 345 977

Capital risk management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The capital base of the business is viewed as being the shareholder equity and non-current liabilities.

The debt:equity ratios are as follows:

	GROUP	
	2026 R'000	2025 R'000
Total borrowings		
Interest-bearing liabilities	575 373	556 844
Lease liabilities	7 333	707
	582 706	557 551
Net debt	582 706	557 551
Total equity	4 398 708	4 275 242
Total capital	4 981 414	4 832 793
Debt:equity ratio	0.13:1	0.13:1

Refer to note 15 for information on loan covenants and how the Group is meeting them.

Fair value of financial instruments

The fair value of short-term financial assets and liabilities approximate their carrying values as disclosed in the statement of financial position.

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie as prices) or indirectly (ie derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

		FAIR VALUE	
	Note	Level 2 R'000	Total R'000
2026			
Financial assets measured at fair value			
Forward exchange contracts	12	6 357	6 357
		6 357	6 357
2025			
Financial assets measured at fair value			
Forward exchange contracts	12	4 479	4 479
		4 479	4 479

The Group's foreign currency forward contracts are not traded in active markets. These contracts have been fair valued using observable forward exchange rates and interest rates corresponding to the maturity of the contract. The effects of non-observable inputs are not significant for foreign currency forward contracts.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

30. Related parties

During the year, in the ordinary course of business, certain companies within the Group entered into transactions with one another. These intragroup transactions have been eliminated on consolidation.

Transactions with Hosken Consolidated Investments Limited (HCI) (ultimate holding company), entities in which HCI has an interest, Remgro Limited (Remgro) (shareholder in eMedia Investments Proprietary Limited) and Venfin Media Investments Proprietary Limited (Venfin) (a wholly owned subsidiary of Remgro) are included in the following table:

	2026 R'000	2025 R'000
Income/(expense) transaction values with related parties		
HCI – management fees paid	(22 736)	(21 790)
Venfin – management fees paid	(1 304)	(2 587)
GRIPP Advisory – internal audit service fee	(3 915)	(3 734)
Balances owing (to)/by related parties		
HCI – working capital loan – borrowing – refer to note 15	(8 602)	(8 602)
HCI Managerial Services Proprietary Limited – trade payable – refer to note 17	(2 174)	(2 059)
Cape Town Film Studios – associate loan – refer to notes 8 and 12	76 018	94 544
Dreamworld Management Company – loan to associate – refer to note 8	8 664	8 664
Employees of the Group – loans relating to Company shares held by employees – long-term receivable	1 036	1 036

Remuneration key management personnel

Key management personnel are Directors and those executives having authority and responsibility for planning, directing and controlling the activities of the Group. The remuneration (all short-term benefits) paid by the Group to its key management personnel is as follows:

	2026 R'000	2025 R'000
Salaries and other short-term employee benefits – refer to note 25	32 641	33 360

The percentage of shares held by Directors of the Company and their related entities at the reporting date is disclosed in the analysis of shareholders report in the integrated annual report, [pages 73 and 75](#).

Company

The ultimate holding company is Hosken Consolidated Investments Limited.

	2026 R'000	2025 R'000
Balances owing (to)/by related parties		
eMedia Investment Proprietary Limited	(14 676)	(27 315)

HCI Invest 3 Holdco Proprietary Limited – refer to note 15	(8 602)	(8 602)

31. Segment report

The Group only has one operating segment i.e. the media segment and is accounted for as 'continuing operations' in the statement of comprehensive income.

The Chief Operating Decision-maker, identified as the executive member of the Board considers the operations of the Group at year-end as those of media only and therefore no separate disclosure for operating segments is required.

	2026 R'000	2025 R'000
Group income is attributable to the following geographical areas:		
South Africa	3 011 858	3 174 363
	3 011 858	3 174 363
Non-current assets* of the Group are held in the following geographical areas:		
South Africa	3 896 899	3 798 185
Europe and United Kingdom	118 309	–
India	14 201	–
	4 029 409	3 798 185

* Excludes right-of-use assets, financial instruments and deferred tax assets.

32. Interest in subsidiary companies

Name of subsidiary companies

(Incorporated in the Republic of South Africa unless otherwise stated)

	ISSUED CAPITAL		% INTEREST	
	2026 R'000	2025 R'000	2026 %	2025 %
Direct holdings

Longkloof Limited is incorporated and operate in the Channel Islands and all other subsidiary companies (indirect holding) listed above are incorporated and operate in South Africa.

33. Contingencies

There are no material contingencies at the date of signing this report.

34. Post-year-end events

Subsequent to year-end:

The sale of land owned by Cape Town Film Studios and Dreamworld Management Company to Amazon has been finalised and the agreement was signed on the 25 May 2026. The value of the transaction is estimated to be R264 775 700, of which the Group is entitled to R132 387 850 (before tax). All conditions precedent have been fulfilled, the full value will be paid on transfer of the property at the deeds office.

The Treasury shares held at year-end were cancelled on 7 April 2026. There has been no change in Directors' interests between reporting date and date of this report.

A further 2 595 890 EMH N ordinary shares (EMN ISIN: ZAE000209524) were repurchased in July 2026 to the value of R4.8 million.

35. Going concern

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

Management are satisfied that the going-concern basis has been correctly applied and the financial statements have been prepared on the basis of accounting policies applicable to a going concern.

Company

In determining the appropriate basis for the preparation of the Company annual financial statements, the Directors are required to consider whether the Company can continue as a going concern for the foreseeable future, which is for 12 months following the date on which the annual financial statements are released. The primary purpose of the Company is that of a holding company and it does not generate income. The Company is in a current net liability position at the financial year-end primarily due to the loan by eMedia Investments Proprietary Limited. As the Company's prospects are tied directly to its largest investment, eMedia Investments Proprietary Limited. The Company is ultimately in a total net asset position, and the Directors believe that the Company will remain a going concern for the foreseeable future.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

36. New standards, interpretations and amendments to existing standards issued that are not yet effective

Certain new standards, amendments and interpretations to existing standards have been published that are mandatory for the Group's accounting periods beginning on or after 1 April 2025 or later periods which the Group has not early adopted.

New and amended standards adopted by the Group

Standard	Details of amendment	Annual periods beginning on or after	Impact on the Group
Illustrative examples on IFRS 7, IFRS 18, IAS 1, IAS 8, IAS 36 and IAS 37	Amendments: Disclosure about uncertainties in financial statements: New illustrative examples issued providing guidance and clarification on applying the standards ► The newly issued examples explain the treatment of uncertainties, especially those related to climate and similar risks ► No-impact scenarios may now require disclosures	Effective immediately (issued November 2025)	Impact on the Group is under ongoing assessment
IFRS 9 <i>Financial Instruments</i>	Amendment: Lease derecognition of lease liabilities: ► Clarifies lessee accounting of a lease liability by adding reference to IFRS 9.3.3.3	1 January 2026	No material impact on the Group, where applicable guidance has been applied
IFRS 9 <i>Financial Instruments</i>	Amendment: Derecognition of financial liabilities: ► Clarify that financial liabilities are derecognised on the settlement date ► Inclusion of accounting policy choice to derecognise financial liabilities settled using an electronic payment system before the settlement date if certain criteria are met	1 January 2026	No material impact on the Group, where applicable guidance has been applied
IFRS 7 <i>Financial Instruments: Disclosure</i>	Implementation guidance: Disclosure of deferred difference between fair value and transaction price: ► Improved consistency with IFRS 7 ► Clarifying that the implementation guidance does not illustrate all requirements of the related paragraphs in IFRS 7 ► Simplifying some explanations	1 January 2026	No material impact on the Group, where applicable guidance has been applied

Standard	Details of amendment	Annual periods beginning on or after	Impact on the Group
IFRS 10 <i>Consolidated Financial Statements</i>	A party that effectively acts on behalf of an investor, significantly influencing the investee's activities: ► Addresses a potential confusion by aligning the language in IFRS 10 guidance regarding an investor determining whether another party is acting on its own behalf	1 January 2026	No material impact on the Group, where applicable guidance has been applied
IFRS 18 <i>Presentation and Disclosure in Financial Statements</i>	New standard: Presentation and disclosure of information in general purpose financial statements. Requirements include: ► New mandatory totals or subtotals within the statement of financial performance ► Disclosure regarding management-defined performance measures ► Aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements and the notes ► Operating profit must be the starting point for indirect method cash flows ► Consequential amendments to other accounting standards	1 January 2027 (No requirement to present quantitative information per IAS 8.28(f))	Impact on the Group is under ongoing assessment

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2026

36. New standards, interpretations and amendments to existing standards issued that are not yet effective

Standard	Details of amendment	Annual periods beginning on or after	Impact on the Group
IAS 7 <i>Statement of Cash Flows</i>	Amendments: Classification of cash flows: ▶ Dividends paid – financing activities ▶ Interest paid – financing activity ▶ Interest received – investing activity ▶ Dividends received – investing activities Dividends received, interest received and interest paid – classification to align with incomes and expenses in applying IFRS 18 for an entity that invests in assets or provides financing to customers as a main business activity. An entity must classify the total of each of these in a single category in the statement.	1 January 2027 (On application of IFRS 18)	Impact on the Group is under ongoing assessment
IAS 8 <i>Basis of Preparation of Financial Statements</i>	Amendments: ▶ Standard renamed to reflect its expanded role ▶ Disclosures transferred from IAS 1: ▷ Basis of preparation ▷ Significant judgements ▷ Key sources of estimation uncertainty	1 January 2027 (On application of IFRS 18)	Impact on the Group is under ongoing assessment
IAS 33 <i>Earnings per Share</i>	Amendment: An entity is only permitted to disclose in the notes additional amounts per share using a measure of performance as a numerator different from earnings per IAS 33 only if it is a total or subtotal profit per IFRS 18 or a management-defined performance measure (ie headline earnings per share is only permitted if headline earnings is considered a management-defined performance measure).	1 January 2027 (On application of IFRS 18)	Impact on the Group is under ongoing assessment
IFRS 19 <i>Subsidiaries without Public Accountability: Disclosures</i>	New standard: Permits eligible subsidiaries to apply IFRS Accounting Standards with reduced disclosures (optional election): ▶ Disclosures specified or cross referenced per applicable accounting standard ▶ Financial statements to state compliance with IFRS Accounting Standards and the requirements of IFRS 19 Amendment: The IASB issued 'catch-up' amendments to IFRS 19 to further reduce disclosure requirements on IFRS Accounting.	1 January 2027 (Not required to apply IAS 8. On election or revoking election, only relevant comparatives change for numbers presented)	Impact on the Group is under ongoing assessment
